Make it a part of your professional/teaching collection today! Most people focus on pastoral ministry--the activities, programs, and outreach connected with the life of the church--when considering the work of a pastor. But one of the most important parts of a minister's job is pastoral care--activities such as compassion, healing, sustaining, guiding, and reconciling people to one another and to God. People today earnestly seek a minister who knows their names and cares about their hurts. Foundations of Pastoral Care introduces both clergy and laity to the ministry skills and personal qualities needed to provide effective care for people inside and outside the church. With thorough examination, Professor Bruce Petersen traces the historical development of soul care from the primitive church and on through the centuries to the church of today. In unit one, he introduces the place of pastoral care in the local church. He emphasizes the unique responsibility of church leaders and pastors to provide spiritual guidance while caring for the physical and emotional needs of their people. In unit two, he examines the pastoral care roles clergy are asked to fill--shepherd, counselor, collaborator, and spiritual leader. In unit three, he addresses the need for a pastoral presence in the life of the church, and in unit four, he concludes with a discussion about the pastor's personal life and the importance of personal spiritual formation. Foundations of Pastoral Care provides the fundamental elements pastors and church leaders need to care for people in meaningful, personal ways with the love, compassion, and grace Christ showed during His ministry on earth.

em>Basic Types of Pastoral Care and Counseling remains the standard in pastoral and counseling. This third edition is enlarged and revised with updated resources, methods, exercises, and illustrations from actual counseling sessions. This book will help readers be sensitive to cultural diversity, ethical issues, and power dynamics as they practice holistic, growth-oriented pastoral care and counseling in the parish.

Valuable for both seminarians and practicing clergy, this basic work integrates theology and pastoral care in a practical and useful way. Citing actual experiences, with questions for personal reflection, this much-needed study brings about a new awareness of the ministry of pastoral care.

The essentials of pastoral care involve the pastor's distinctive task of caring for those who are estranged--the lost sheep. Taken from the biblical image of the shepherd, the pastor by virtue of his or her professional calling cultivates wise judgment in order to hear the hurting and offer guidance, reconciliation, healing, sustaining presence, and empowerment to those in need. This book will outline the quintessential elements pastors need to wisely minister in today's context by discussing four major kinds of lostness: grief, illness, abuse, and family challenges. The purpose of the Abingdon Essential Guides is to fulfill the need for brief, substantive, yet highly accessible introductions to the core disciplines in biblical, theological, and religious studies. Drawing on the best in current scholarship, written with the need of students foremost in mind, addressed to learners in a number of contexts, Essential Guides will be the first choice of those who wish to acquaint themselves or their students with the broad scope of issues, perspectives, and subject matters within biblical and religious studies.

Drinking from the Same Well is designed for those who seek a praxis-oriented theological grounding in the exploration of cross-cultural perspectives in the field of pastoral care and counseling. It traverses the broad terrain of cultural analysis and also explores in depth a number of discrete cross-cultural issues in pastoral counseling, related to communication, conflict, empathy, family dynamics, suffering, and healing. Cultural analysis and theological reflection are situated alongside numerous case studies of persons and situations that enliven the concepts being discussed, and readers are invited to engage personally with the material through a variety of focus questions and reflective exercises. This book can serve as a helpful textbook for seminarians and a useful guide for pastors and priests, church study groups, multicultural parishes, and anyone engaged in helping ministries with persons from other cultures. The goal is to develop culturally competent pastoral caregivers by providing a comprehensive and practical overview of the generative themes and challenges in cross-cultural pastoral care.

Explore a new way of pastoral care that enables caregivers to develop relationships and provide meaningful pastoral care for children and youth they encounter! The Pastoral Care of Children focuses on the need for pastoral caregivers, clergy, and chaplains to develop relationships with youths and gives you suggestions to overcome the anxiety associated with caring for an acutely ill child through unique, playful, and child-centered approaches. Many pastoral caregivers have high anxiety when children are ill or hurt, are unsure how to have a substantive conversation with a nine-year old, or their fears of what to say keep them from hearing what children have to say. The effective approaches in The Pastoral Care of Children are designed to assist you with serving the spiritual needs of children. You will explore actual pastoral care experiences that will give you confidence in handling situations such as a teenager's desire to be baptized out of fear of death when neither he nor she believe in Christ. Intelligent and heartfelt, this valuable book gives you a complete theological exploration of ministering to children who may ask you "Why me?", "Why do people have to die?" and "What happens to children if they die before being baptized?" The Pastoral Care of Children helps you answer these questions with meaningful responses that are grounded with yourself, and reflect the parents' beliefs. Some of the help you will discover in The Pastoral Care of Children includes: understanding the similarities and differences of caring for children in comparison to adults, such as different vocabularies but similar emotions, and realizing that children are very perceptive using play as a tool, for example re-enacting a puppet's experience in reference to the child to eliminate the child's self-consciousness and help him or her open up to pastoral issues in acute care settings, such as fear, guilty feelings, and anger, from parents, family and the child help children recover from mental health issues such as depression, eating disorders, and identity and self-esteem issues by using play therapy conducting prayer and rituals with children such as baptism, naming ceremonies, anointings, and funerals to help the child and family through this spiritual rite of passage Complete with child and family focused approaches for dealing with questions surrounding death, The Pastoral Care of Children also provides you with several cited scriptures, and a list of questions you may be asked by a child who is facing death. You will learn from actual circumstances pastoral caregivers have encountered and discover how to approach topics, and answer questions on God and death. The Pastoral Care of Children, an excellent resourceful book that will assist you in overcoming anxiety and help you deliver thoughtful and uplifting pastoral care to children and youth.

In this ground-breaking book, pastoral counselor Andrew Lester demonstrates that pastoral theology (as well as social and behavioral sciences) has neglected to address effectively the predominant cause of human suffering: a lack of hope, futurelessness. Lester examines the reasons that pastoral theology and other social and behavioral sciences have overlooked the importance of hope and despair in the past. He then offers a starting point for the development of addressing these dimensions of human life. He provides clinical theories and methods for pastoral assessment of and intervention with despair. He also puts forth strategies for assessing the future stories of those who despair and offers a corrective approach through deconstruction, reframing, and reconstruction. This book will be invaluable to pastoral caregivers who are looking for a vantage point from which to provide care and to pastoral theologians who are seeking to develop a theological lens through which to understand the human condition.

**Commissioned by the Blanton-Peale Institute, Cultivating Wholeness is a practical, comprehensive, contemporary guide to community care and counseling. Margaret Zipse Kornfeld, a pastoral psychotherapist for almost thirty years, focuses on wholeness, the dynamics change, an inclusive understanding of spirituality, the caregiver/ counselor, and on community as not merely the context for healing but also the means by which healing happens.**

**Drawing on psychological, theological, and cultural studies on suffering, Carrie Doehring encourages counselors to view their ministry through trifocal lenses and include approaches that are premodern (apprehending God through religious rituals), modern (consulting rational and empirical sources), and postmodern (acknowledging the contextual nature of knowledge). Utilizing strategies from all three perspectives, Doehring describes the**

basic ingredients of a caregiving relationship, shows how to use the caregiver's life experience as a source of authority, and demonstrates how to develop the skill of listening and establish the actual relationship. She then explains the steps of psychological assessment, systemic assessment, and theological reflection, and finally she delineates the basic steps for plans of care: attending to the careseeker's safety, building trust, mourning losses, and reconnecting with the ordinariness of life.

Here is a trailblazing book on issues of vital interest to the future of humankind. *Ecotherapy: Healing Ourselves, Healing the Earth* sheds light on humankind's most serious health challenge ever--how to save our precious planet as a clean, viable habitat. As a guide for therapists, health professionals, pastoral counselors, teachers, medical healers, and especially parents, *Ecotherapy: Healing Ourselves, Healing the Earth* highlights readers' strategic opportunities to help our endangered human species cope constructively with the unprecedented challenge of saving a healthful planet for future generations. *Ecotherapy: Healing Ourselves, Healing the Earth* introduces readers to an innovative approach to ecologically-grounded personality theory, spirituality, ecotherapy, and education. The book shares the author's well-developed theories and methods of ecological diagnosis, treatment, and education so professionals and parents, our most influential teachers, can rise to the challenge of saving our planet. Readers will find that the book helps them accomplish this goal as it: explores an expanded, ecologically grounded theory of personality development, the missing dimension in understanding human identity formation outlines a model for doing ecologically oriented psychotherapy, counseling, medical healing, teaching, and parenting describes life-saving perspectives for making one's lifestyle more earth-caring demonstrates the importance of hope, humor, and love suggests how these earthy approaches may be utilized in a variety of social contexts and cultures A systematic theory and practice guidebook, *Ecotherapy: Healing Ourselves, Healing the Earth* fills a wide gap in both the counseling and therapy literature and the ecology literature. It offers an innovative model for fulfilling the "ecological circle" between humans and nature with three action dimensions. These are self-care by being intentionally nurtured by nature; spiritual enrichment by enjoying the transcendent Spirit in nature; and responding by nurturing nature more responsibly and lovingly. The theories and practical applications presented in the book come together to explore long-overlooked issues at the boundary between human health and the health of the natural environment. Psychotherapists, health professionals, and teachers; pastoral counselors and other clergy who counsel and teach; laypersons who are parents and grandparents; and individuals and groups interested in environmental issues will find *Ecotherapy: Healing Ourselves, Healing the Earth* essential for approaching the long-neglected earthy roots of the total human mind-body-spirit organism.

**"Professors Snodgrass and Maynard have done their field a service in bringing together all that is here. The American Association of Pastoral Counselors now has a splendid contemporary text to present themselves to other fields whose members may yet wonder 'What has religion (or spirituality) or pastoral counseling have to do with the healing arts?' There was in a past era the critique and complaint that the pastoral care and counseling field did not have a literature and history that allowed it to stand as intellectually serious colleagues with others in more traditional theological disciplines. Now they have an answer in this book." -- Curtis W. Hart, MD, Weill Cornell Medical College, Journal of Religion and Health This book is written in the active voice. It does not desire to define pastoral counseling but offers real time examples that illustrate the breadth, depth and vibrancy of practitioners in various contexts of work and practice. Basic Types of Pastoral Care and Counseling remains the standard in pastoral care and counseling. This third edition is enlarged and revised with updated resources, methods, exercises, and illustrations from actual counseling sessions. This book will help readers be sensitive to cultural diversity, ethical issues, and power dynamics as they practice holistic, growth-oriented pastoral care and counseling in the parish. With kind and humble intent thou reprovest me, dearest brother, for having wished by hiding myself to fly from the burdens of pastoral care; as to which, lest to some they should appear light, I express with my pen in the book before you all my own estimate of their heaviness, in order both that he who is free from them may not unwarily seek them, and that he who has so sought them may tremble for having got them. This book is divided into four separate heads of argument, that it may approach the reader's mind by allegations arranged in order—by certain steps, as it were. For, as the necessity of things requires, we must especially consider after what manner every one should come to supreme rule; and, duly arriving at it, after what manner he should live; and, living well, after what manner he should teach; and, teaching aright, with how great consideration every day he should become aware of his own infirmity; lest either humility fly from the approach, or life be at variance with the arrival, or teaching be wanting to the life, or presumption unduly exalt the teaching.

those same values in outcome oriented, observable, documentable, changes-for-the-better terms. The Discipline for Pastoral Care Giving: Foundations for Outcome Oriented Chaplaincy offers a powerful new paradigm for enhancing supportive, effective spiritual care for patients and families as well as communicating substantive outcomes to leaders and clinicians alike. This is all the more important in these times when every possible resource must be well used for the good of our patients and their families. By evaluating the pastoral care you offer, you can become more aware of the discrete skills you exercise in the assessment, planning, intervention, and reflection process. Such evaluation efforts highlight the discrete differences excellent spiritual care makes. This can help you track contributions you are making in terms of the patient's healing and well-being. Having a sound, replicable way to make the process more conscious also helps you communicate your assessment, strategies, and contributions more clearly to other care team members. Furthermore, consistently using The Discipline over time will enable you to discover patterns of spiritual dynamics in how people live with different health care challenges in their lives. These patterns translate into valuable insights as your care for others. The process discussed in The Discipline for Pastoral Care Giving calls on the chaplain to: identify the patient's spiritual needs, hopes, and resources construct a patient profile through identifying the individual's sense of the holy, sense of meaning, sense of hope, and sense of community design the desired outcome(s) you hope your care will contribute--for example, a person who has suffered a spinal cord injury integrates the effects of their injury in their sense of identity and meaning, a person living with cystic fibrosis healthfully grieves the loss of others in the CF community, a patient 'disabled' by the absence of her support community regains use of her personal resources for coping and self-care develop and share a plan for the patient's spiritual care choose interventions (which may range from facilitating a life review, to compassionate confrontation, to reading Scripture, to active listening, to arranging a family care conference) measure outcomes, identifying and communicating the difference your care has made in terms of the patient's healing and well-being The Discipline for Pastoral Care Giving offers case studies, personal experiences, helpful figures and charts, and suggestions for dealing with patients experiencing unique, complex health care challenges, including adults living with cystic fibrosis and violent victims of violence. The wise advice and practical suggestions in this book will help you recognize and document the solid value of your hospital ministry.

Pastoral Care and Counseling has changed radically since the publication of "The Dictionary of Pastoral Care and Counseling." Rapid changes have occurred in theological, social, and medical contexts broadening the understanding of care. The shift from the "living human document" to the "living human web" both enriches and challenges the study and practice of pastoral theology. Just as the "Dictionary of Pastoral Care and Counseling" defined the field of Pastoral Care, this volume brings the field current. Essays by Nancy J. Ramsay, Joretta L. Marshall, Emmanuel Y. Lartey, Christie C. Neuger, Bonnie J. Miller-McLemore, and Loren L. Townsend. Topics include: Pastoral Theology; Public Theology; Power and Difference; Globalization, Internationalization, and Indigentization; Training in Clinical Ministry; Methodology.

This book explores the relationship between the practices of pastoral care and the practices of spiritual direction with the aim of enabling pastoral caregivers to draw upon the guiding principles, resources, and techniques of spiritual direction within the Christian tradition. With an emphasis on both "practice" and "presence", the book reclaims the tradition of "soul care" for the pastoral ministry, thereby complementing the medical, or crisis intervention, model of pastoral care with a wellness/growth model of pastoral care. Listening for the Soul: -- Challenges clergy to take seriously the relationship between pastoral care and spiritual direction.-- Integrates theological and psychological insights with issues of spiritual life and formation.-- Includes a chapter on the spiritual formation of children.-- Provides practical guidance for integrating spiritual direction with pastoral care.-- Tends to the pastoral caregivers own needs for spiritual deepening.-- Includes reflection, questions and case studies to enable the text to function on both the individual reader and classroom levels.

"This volume offers authoritative, easy-to-find information that will assist anyone engaged in the study or practice of pastoral care and counseling." "The Dictionary contains more than 1,200 articles, prepared by experts in the field, covering virtually every topic related to pastoral care and counseling. This Expanded Edition includes seven new essays and an extensive bibliography, which bring the volume up to date. The resource is ecumenical in its vision, enlisting the participation of nearly 600 Protestant, Catholic, Orthodox, and Jewish contributors."--BOOK JACKET. Therapeutic counseling in a Christian context can be highly effective when it maintains narrowly focused goals in a time-limited setting. The details of this proven model of pastoral counseling are described in this practical guide. This second edition of *Strategic Pastoral Counseling* has been thoroughly revised and includes two new chapters. Benner includes helpful case studies, a new appendix on contemporary ethical issues, and updated chapter bibliographies. His study will continue to serve clergy and students well as a valued practical handbook on pastoral care and counseling.

What is depression, and what are its many and varied types? Who becomes depressed, and how can it be recognized? How can depression be measured, and what are its suicidal potentialities? What are the therapeutic interventions the pastor can use in helping people who are undergoing the pain of depression? *The Pastoral Care of Depression: A Guidebook* answers these questions and many more. With a focus on the pastor as an instrument of healing in cooperation with families, physicians, and other mental health professionals, this book will help you understand some of the current research and procedures used in helping people suffering from depression. As the frontline mental health workers in many communities, pastors need confidence, competence, and skill in handling people with emotional problems. As Author Binford W. Gilbert explains, "Depression is among the most treatable of major illnesses. It enters the realm of the spiritual and demands the best of the pastoral leader to guide, assist, and enhance the struggle for peace and soundness of mind and body." *The Pastoral Care of Depression* helps caregivers by overcoming the simplistic myths about depressive disorders and probing the real issues. In Calvin's Company of Pastors, Scott Manetsch examines the pastoral theology and practical ministry activities of Geneva's reformed ministers from the time of Calvin's arrival in Geneva until the beginning of the seventeenth century. During these seven decades, more than 130 men were enrolled in Geneva's Venerable Company of Pastors (as it was called), including notable reformed leaders such as Pierre Viret, Theodore Beza, Simon Goulart, Lambert Daneau, and Jean Diodati. Aside from these better-known epigones, Geneva's pastors from this period remain hidden from view, cloaked in Calvin's long shadow, even though they played a strategic role in preserving and reshaping Calvin's pastoral legacy. Making extensive use of archival materials, published sermons, catechisms, prayer books, personal correspondence, and theological writings, Manetsch offers an engaging and vivid portrait of pastoral life in sixteenth- and early seventeenth-century Geneva, exploring the manner in which Geneva's ministers conceived of their pastoral office and performed their daily responsibilities of preaching, public worship, moral discipline, catechesis, administering the sacraments, and pastoral care. Manetsch demonstrates that Calvin and his colleagues were much more than ivory tower theologians or "quasi-agents of the state," concerned primarily with dispensing theological information to their congregations or enforcing

magisterial authority. Rather, they saw themselves as spiritual shepherds of Christ's Church, and this self-understanding shaped to a significant degree their daily work as pastors and preachers.
