the animals revolt.**

They get rid of the irresponsible farmer.

The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . .

. Orwell's tale of propaganda, power and greed has never felt more pertinent.

With an exciting new cover and inside illustrations by superstar Chris Mould.

This textbook commences with a brief outline of development of real numbers, their expression as infinite decimals and their representation by

points along a line.

While the first part of the textbook is analytical, the latter part deals with the geometrical applications of the subject. Numerous examples and exercises have been provided to support student's understanding. This

textbook has been designed to meet the requirements of undergraduate students of BA and BSc courses.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management.

This is a traditional approach to management using the leading, planning, organizing, and controlling approach.

Management is a broad business discipline, and the Principles of Management course covers many
