

Be Careful What You Wish For The Clifton Chronicles Series Book 4

Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

Who hasn't at some point thought about what they would do if granted a wish? But what might happen if a magical creature, like a fairy or a genie, took a wish for themselves? You will find the startling answer within these pages, at least in the case of fairies. In another dimension, around the four corner stars of the constellation Orion, live the fairies we all know and love—and many more. In the beginning, all fairies were extraordinarily beautiful creatures. Their radiance was a reflection of their innocent and generous natures. But everything started to change when the former Tooth Fairy, Maeve, was caught by a young boy named Nebiatias as she tried to collect his tooth. Through their interactions, Maeve transforms from wish granter to leader of the Wishtakers, a rogue band of evil fairies who'll stop at nothing to gain control of fairydom. But her transformation isn't just in her lifestyle; she becomes something strikingly unlike any fairy the world has ever known. Can Suzabelle, the head of the fairy high council, right the wrongs done by Maeve and her followers and return fairydom to its former glory? Even fairies must learn the truths behind the adage: Be Careful What You Wish For.

A Cuckold's Story

If you thought you'd seen all the mayhem Harley was capable of unleashing with the help of an all-powerful genie and infinite wishes...well, we wish you'd known better!

From the New York Times bestselling author of There Was an Old Woman comes a novel about a professional organizer with a deadly problem she may not be able to clean up. Emily Harlow is a professional organizer who helps people declutter their lives: she's married to man who can't drive past a yard sale without stopping. He's filled their basement, attic, and garage with his finds. Like other professionals who make a living decluttering peoples' lives, Emily has devised a set of ironclad rules. When working with couples, she makes clear that the client is only allowed to declutter his or her own stuff. That stipulation has kept Emily's own marriage together these past few years. She'd love nothing better than to toss out all her husband's crap. He says he's a collector. Emily knows better—he's a hoarder. The larger his "collection" becomes, the deeper the distance grows between Emily and the man she married. Luckily, Emily's got two new clients to distract herself: an elderly widow whose husband left behind a storage unit she didn't know existed, and a young wife whose husband won't allow her stuff into their house. Emily's initial meeting with the young wife takes a detour when, after too much wine, the women end up fantasizing about how much more pleasant life would be without their collecting spouses. But the next day Emily finds herself in a mess that might be too big for her to clean up. Careful what you wish for, the old adage says . . . now Emily might lose her freedom, her marriage . . . and possibly her life.

If you could make one wish that was guaranteed to come true—what would you wish for? Rules for Wishing: Never let an outsider find out about wishing. (Zip your lips and throw away the key.) Wishes that would impact the world are off limits (i.e. no bringing back the dinosaurs). Do no harm. (Murder = no bueno.) No time travel. (What's done is done, pal.) No bringing back the dead. (Come on. You've seen what happens in THE WALKING DEAD.) NEVER BREAK THE RULES. (Seriously. We mean it. See Rule #7.) There are always consequences. Madison is a small town in the Mojave desert on the road between nothing and nowhere. It's an unremarkable speck on the map, which is perfect for protecting the town's secret. Because in Madison, everyone can make one wish on their eighteenth birthday-and that wish always comes true. Most of Eldon's classmates have had their wishes picked out for months, even years. Not Eldon. He's seen how wishing has hurt the people around him. His parents' marriage is strained, his sister is a virtual ghost in their house, his ex-girlfriend is dating his ex-friend...where does he even begin? One thing is for sure: Eldon has only twenty-five days to figure it out—and the rest of his life to live with the consequences.
