

Beautiful Chaos Robert M Drake

This is something about self-love--. Something they don't teach in school. Something that's very hard to learn on your own. This is something about putting yourself first because it's okay to love yourself before anyone else. This is something about doing what's best for you, no matter what people say, because only you know what you deserve. This is something about being real, being real to who you are and accepting things as they come and change. This is something about your mistakes, about your flaws, and about how beautiful it is to get up and try again. This is something about being you, about using your voice when you're afraid. About building enough courage when you feel like standing up to something you don't believe in, something that's wrong. This is about you, and every day should be about you, and that's something you should always consider. This is something about self-expression--something they don't teach in school. Something that's very hard to learn on your own. This is something about putting yourself first because it's okay to love yourself before anyone else. This is something about doing what's best for you, no matter what people say, because only you know what you deserve. This is something about being real, being real to who you are and accepting things as they come and change. This is something about your mistakes, about your flaws, and about how beautiful it is to get up and try again. This is something about being you, about using your voice when you're afraid. This is about you, and every day should be about you, and that's something you should always consider.

The Black Butterfly is a symbol of transformation and rebirth after death. Drake wrote this book for those who have lost someone in death and in life. This book is a collection of memories and experiences Drake lived after the death of one of his brothers. He promised he would write him a few words after he failed to complete the task while his brother was alive. This book is everything this book is for all who are breathing and for all who are no longer here. This book is for you."

"A necessary reminder that whatever we are feeling, we are never feeling it alone." —Trista Mateer, author of Aphrodite Made Me Do It
"There are defining moments in our lives that we often experience in certain places. It's in these places, that we feel particular emotions, which help shape who we become. For anyone whose emotions are tied to places, this book is for you."—Courtney Peppernell, author of Pillow Thoughts
By the author of the wildly successful 2am Thoughts, comes Nineteen — titled after the poet's age when she wrote this new book. Nineteen is a collection of poetry that broaches heartbreak, love, loss, war, peace, and healing. For every place we go, there is a feeling or memory that's been painted on the walls. You can paint over it, but it will always be there. Even if you can't see it, you know. You can feel the heartbreak inside the bedroom where you lost a love. You can feel the hope at the coffee shop where a beginning happened. You can feel the healing as you sit in the driver's seat, in charge of your own life. "A journey. An exploration. A reminder to put one foot in front of the other even when it's dark because there is always a light waiting for you in the distance."—Wilder, Author of Nocturnal
"In spare poems with aphoristic lines and short prose segments, the book speaks to adolescent pain and suffering."—Publishers Weekly

they tell you to move on but something's are easier said than done... and to be honest some people are just too damn unforgettable. some people touch your soul in ways you could never imagine. and sadly, some people awaken a love so deep within you that no amount of time can ever ease your soul. we are the seeds of chaos. What are you hiding behind your smile? If those empty bottles that line the walls of your room could speak, what tales would they spill? So much of your truth is buried beneath the lies you tell yourself. There's a need to scream to the moon; there's this urge to go out into the darkness of the night to purge. There are so many stories living inside your soul, you just want the opportunity to tell them. And when you can't find the will to express what lives within your heart, these words will give you peace. These words will set you free.

in my feelings collection volume 2 each person will feel things their own way, each person will feel the only way they know how. will love... the only way they've been taught to love. not everyone will see things the way you do, feel things the way you do, and you can't force your beliefs on people either because that's not love. that's not having compassion for other people. we all have our own right to see the world with our own eyes, therefore, understanding is key, and I don't mean saying it, saying you understand someone without putting yourself in their shoes. without respecting their views. you have to really know yourself and your environment to understand why people are the way they are. you have to go through enough pain to keep your heart open. to be compassionate towards other people. understanding is key and not everyone will understand you and that's okay. but the point is, to remember how all of us are different and try to understand that not all of us are meant to be the same. and you should never believe you understand it all because believe me, there will always be something to learn. there will always be something that will take your breath away. something that will make you question everything--your own beliefs and your own way of thinking. people, things and places, like life, are always evolving and you must evolve with them... if you ever want a fair shot in accepting your flaws and the flaws of other people. and before I finish, I just want you to know... that the beauty of it all is this, the more you understand people the better you will understand yourself. from the known and to the depths of your soul... people will always shape you. all that you are is all you've experienced with them, and dont ever forget... that the people you love will always have a piece of your heart. they will always be with you... no matter what.

Chaos is not pretty. It is like feeling a hundred things, hearing a hundred voices, and somewhere in the riot we tend to lose ourselves and lose direction in our heads. This book is the truth.It is everything we have been feeling and running away from for so long. In this powerful collection of short poems, Drake explores themes of love, loss, pain, and loneliness in an effort to make sense of a chaotic world."

It almost never happened. The idea came in The Pavement Poet's first years on the pavements. Yet there was a nagging feeling that more needed to be done. Dispelling myths and showcasing the adventures, chance occurrences, and poetry which have typified the last nine years wanderings: "Chalk Fired" is a glimpse into the poetry, life, and the artistic expression of a modern, nomadic, lifestyle poet.

Dead Pop Art is a collection of unreleased poems written by Author Robert M. Drake from 2004-2006. The collection was written during his time in college and explores many topics such as, self-love, depression, anti-heroism, and moments he experienced during college.

The first person who breaks your heart will always teach you the importance of love. 1. People come and go and only a handful of them are willing to stay. So it is best to give them your promises. 2. You have to go through pain every once in a while. That's how it works. Pain is inevitable. Pain brings people closer together. So it is best to give the people you love your sorrow. They will make flowers out of them. Believe it. And3. Somewhere down the line a revelation will hit you like a comet and when it does you will think of the first time you got your heart broken. And the second and maybe even the third. And you will finally realize the importance of it all. And you will thank them for the experiences. And you will finally bring down your walls and learn how to move on. How to forgive. How to properly heal. And you will do all of these marvelous things but also, you will never forget the way they once made you feel. You will never forget the slow burn that brokenness brings. And you will remind yourself of it every now and then... and you will do so to remember the importance of letting go and etc. To remember why you should never search for love in the same place you lost it. Why you should never search for love in the same place where it left you broken. That's the importance of love. Of going through it-to have it and cherish it... but also, to not fall victim to the same people and tragedies that made you feel even more alone. To not fall victim to all things that covered up the sun. Those lessons are valuable, therefore, it is best to learn as much as you can and love as much as you're willing to get hurt. Stay strong.

What I Say To Myself When I Need To Calm The Fuck Down

The Stars in Me Are the Stars in You.

Chaos is not pretty it is like feeling a hundred things, hearing a hundred voices, and somewhere in the riot we tend to lose ourselves and lose direction in our heads. This book is the truth, it is everything we have been feeling and running away from for so long.

This is something about self-forgiveness--something they don't teach in school. Something that's very hard to learn on your own. This is something about putting yourself first because it's okay to love yourself before anyone else. This is something about doing what's best for you, no matter what people say, because only you know what you deserve. This is something about being real, being real to who you are and accepting things as they come and change. This is something about your mistakes, about your flaws, and about how beautiful it is to get up and try again. This is something about being you, about using your voice when you're afraid. About building enough courage when you feel like standing up to something you don't believe in, something that's wrong. This is about you, and every day should be about you, and that's something you should always consider.

This book is a collection of memories and experiences Drake lived after the death of one of his brothers. He promised he would write him a few words after he failed to complete the task while his brother was alive. This book is everything... this book is for all who are breathing and for all who are no longer here. This book is for you. Organized in four sections – Inception, Longing, Chaos, and Epiphany – K.Y. Robinson's debut poetry collection explores what it is to want in spite of trauma, shame, injustice, and mental illness. It is one survivor's powerful testimony, and a love letter "to those who lie awake burning."

A man encounters God in a bar; a family is saved by a time traveler in the middle of the night; a journey into the mind of a severely autistic man; a woman finds herself one night out in the city, and more. "Beautiful and Damned" is a haunting and captivating collection, and proof that Robert M. Drake is one of the most visionary writers working today. On the heels of three internationally bestselling books of poetry, Robert M. Drake takes his readers to a deeper level of his consciousness with this collection of stories.

"When you're dumb enough for long enough, you're gonna meet someone too smart to love you, and they're gonna love you anyway, and it's gonna go so poorly." Neil Hilborn writes in his debut full-length collection, OUR NUMBERED DAYS. In 2013, Hilborn's poem "OCD" went viral, and has amassed over 11 million views to date. While this collection ruminates on love, heartbreak, and mental illness, these poems are anything but saccharine. Hilborn uses the same humor and self-deprecation that propelled "OCD" to success in order to make his unmatched vulnerability all the more powerful. Ultimately, Hilborn is a poet of the people: his work is accessible, honest, and entertaining; a revitalizing entry in contemporary poetry.

She Fits Inside These Words

Winter Roses after Fall

not all love is good love and not all energy is good energy, and just because they love you, doesn't give them the right to disrespect you... doesn't give them the right to belittle you. no one is doing you any favors and you definitely don't owe anyone anything, so if it doesn't feel like home then you have the right to leave. you don't have to stay if you don't want to and you don't have to pretend you're on good terms just to show face. people separate all the time. they break-up over anything--over nothing but let it be known, you don't have to take the verbal abuse. you don't have to put up with it..., and you shouldn't worry about the consequences. I'd be more concern if you stayed if you didn't have the courage to do anything about it. so take this with you... take this as a sign and as a lesson. those who don't respect you will never respect you. no matter how much time you give them. no matter how many nights you pray for them to change. like I said, not all love is good love and not all energy is good energy but you should know the difference between who deserves your loyalty and who doesn't. between who deserves your time and who doesn't and know how to respond to it as well. only you know what type of love you deserve. only you remember that. this is the moon matrix.

From the authors of The New York Times bestsellers Empty Bottles Full of Stories and Falling Toward the Moon comes a brand-new collection of compelling poetry and prose. There's a harshness in the air; the season is changing its colors. The rain is chilled, icy to the touch, and the sky, filled with melancholy. Your search for warmth has brought you here; you starve for something profound. You require something that will resonate with your soul. Despite how cold, you're determined to grow. And with these words, you bloom, a winter rose.

The heart will ache, the soul will feel weary, and the mind will be weighed down by the things you wish to forget. There will be nights when all you have is yourself and the moon. There will be nights when silence will exist in abundance. And even though you may feel lonely at first, You must understand that the solitude is a gift; you must understand that even when alone, you are more than enough.

This is something about self-exploration--something they don't teach in school. Something that's very hard to learn on your own. This is something about putting yourself first because it's okay to love yourself before anyone else. This is something about doing what's best for you, no matter what people say, because only you know what you deserve. This is something about being real, being real to who you are and accepting things as they come and change. This is something about your mistakes, about your flaws, and about how beautiful it is to get up and try again. This is something about being you, about using your voice when you're afraid. About building enough courage when you feel like standing up to something you don't believe in, something that's wrong. This is about you, and every day should be about you, and that's something you should always consider.
