DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked

to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Dark. Powerful. Dangerous James Maxwell is one of the billionaire elites who rules Las Vegas City with an iron fist. This is his story. My name is Mia Donovan, a twenty-two-year-old, small-town girl who has signed a contract with the billionaire in exchange for my brother's freedom and protection. My world has changed—both for better and worse. James Maxwell is the man behind this. I'm fascinated, mesmerized by this charm that binds me to him, entrapping me in his embrace. I've fallen in love with him, which hurts because it is unrequited. What's worse, my life is at risk because I'm too close to the powerful man who has too many enemies. And so our story continues...

Prayers for Everyday and Not-so Everyday Moments : Timeless Wisdom

from the Teachings of the Hasidic Master, Rebbe Nachman of Breslov
Better than fireworks, this classic Beginner Book edited by Dr. Seuss celebrates all the wonderful things that come with summer! From trips to the beach and eating watermelon to fireworks and fishing, Alice Low and Roy McKie's Summer will have young readers eager for the kind of fun only warm breezes and sunny weather can bring. Originally created by Dr. Seuss, Beginner Books encourage children to read all by themselves, with simple words and illustrations that give clues to their meaning. In this, his fourth big cookbook, the award-winning chef John Besh takes another deep dive into the charm and authenticity of creole cooking inspired by his hometown, New Orleans. Besh Big Easy: 101 Home-Cooked New Orleans Recipes, is a fresh and delightful new look at his signature food. Besh Big Easy will feature all new recipes and easy dishes, published in a refreshing new flexibound format and accessible to cooks everywhere. Much has changed since Besh wrote his bestselling My New Orleans in 2009. His restaurant empire has grown from two to twelve acclaimed eateries, from the highly praised Restaurant August to the just opened farm-to-table taqueria, Johnny Sanchez. John's television career has blossomed as well. He's become known to millions as host of two national public television cooking shows based on his books and of Hungry Investors on Spike TV. Besh Big Easy is dedicated to accessibility in home cooking and Orleans cuisine. "There's no reason a good jambalaya needs two dozen ingredients," John says. In this book, jambalaya has less than ten, but sacrifices nothing in the way of flavor and even offers exciting yet simple substitutions. With 101 original, personal recipes such as Mr. Sam's Stuffed Crabs, Duck Camp Shrimp & Grits, and Silver Queen Corn Pudding, Besh Big Easy is chock-full of the vivid personality and Louisiana flavor that has made John Besh such a popular American culinary icon. Happy eating!

Ladybugs, snails, and butterflies! Oh my! This charming introduction to ten garden bugs, paired with friendly text and bold, basic patterns, provides a great high-contrast experience for young developing eyes. Newborns cannot fully recognize colors, so the sharp contrast between black and white patterns and illustrations allows babies to follow along and make connections to the real world, an important building block for communication skills. Using simple greetings like "Hello, bumblebee" and "Good to see you, dragonfly" alongside black-and-white art by Julissa Mora, Hello, Garden Bugs is the perfect board book for babies just beginning to look around and learn about their world. Featured in Omnivoracious. Also available: Hello, Baby Animals and Hello, Ocean Friends. Coming soon: Hello, My World.

California-Mexican-style recipes and menus from the beloved Food Network host From the long-time host of Food Network's Mexican Made Easy and now co-host of The Kitchen comes Marcela's most personal collection of recipes yet, a reflection of her experience growing up in Tijuana and traveling back and forth to San Diego to see family and friends and for school. This book captures a culture centered around food, loved ones, and gatherings with mouthwatering recipes and in vibrant photography, all shot at Valladolid's home. Mexican food really is simple at its core, if you have some extra time for slow roasting meats or to prepare a few salsas, and the results are sure to impress. There are small bites like Cod Fritters with Chipotle Tartar Sauce and Grilled Steak and Cheese Tostadas; entrees such as Red Chile Lamb Stew and Roasted Tomatillo Salmon; and even drinks and desserts for special occasions, including Strawberry Layered Tres Leches Cake. With mouthwatering recipes and evocative photography, Casa Marcela presents Mexican food in a way never seen before.

Embrace and revel in the stories of the toughest cyclists of all time, told by The Velominati, originators of The Rules. Read and get ready to ride . . . In cycling, suffering brings glory: a rider's value can be judged by their results, but also by

their panache and heroism. Prepared to be awed and inspired by Chris Froome riding on at the Tour de France with a broken wrist or Geraint Thomas finishing it with a broken pelvis. In The Hardmen the writers behind cycling superblog Velominati.com and The Rules will tell the stories and illuminate the myths of not just the greatest cyclists ever, but the toughest. From Eddy Merckx to Beryl Burton, and from Marianne Vos to Edwig Van Hooydonk, the book will lay bare the secrets of their extraordinary and inspirational endurance in the face of pain, danger and disaster. After all, suffering is one of the joys of being a cyclist. Embrace climbs, relish the descents, and get ready to harden up. . .

The Capitol Hill aide who scandalized Washington, D.C., with her blog has now written a sharp, steamy, utterly unrepentant novel set against the backdrop of the nation's capitol. When Jacqueline Turner's fiancé gives her two days to move out of his apartment, she has no choice but to leave New York City and crash with her best friend in Washington, D.C. She needs an exciting new life--not to mention real employment. Where better to get a fresh start than the nation's capitol? Alas, D.C. turns out to be a lot more buttoned-up and toned down than she'd hoped. It's a town where a girl has to make her own excitement--and Jacqueline Turner is just the woman for the job. From the married presidential appointee who gives her cash after each tryst to the lascivious Georgetown lawyer who parades her around like something out of Pretty Woman, Jackie's roster of paramours grows so complicated that her friends ask her to start a blog so they can keep up. But in a small town like Washington, the line between private and public blurs very easily, and Jackie quickly realizes this blog idea may be more than she bargained for. Deliciously gossipy and impossible to put down, The Washingtonienne is every bit as steamy and outrageous as the real-life exploits that inspired it.

Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their

pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications—in wireless communications, in Direct Broadcast TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. Along the way, he clearly introduces everything from wave propagation to impedance matching in transmission line circuits, microwave linear amplifiers to hard-core nonlinear active circuit design in Microwave Integrated Circuits (MICs). Coverage includes: A scientific framework for learning RF and microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. The book is intended to provide a workable knowledge and intuitive understanding of RF and microwave electronic circuit design. Radio Frequency and Microwave Electronics Illustrated includes a comprehensive glossary, plus appendices covering key symbols, physical constants, mathematical identities/formulas, classical laws of electricity and magnetism, Computer-Aided-Design (CAD) examples and more. About the Web Site The

accompanying web site has an "E-Book" containing actual design examples and methodology from the text, in Microsoft Excel environment, where files can easily be manipulated with fresh data for a new design.

Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features: * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) * Problem loan management is discussed as a growing professional issue (see chapter 16). * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities. * 'Industry insight' boxes profile current professional issues and identify industry developments. * 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry. From the author of One Day in the Eucalyptus, Eucalyptus Tree: Do you wanna? Wanna see? Let's go find that gator, gator, gator! COME WITH ME! Put on your life jacket, hop in the boat, and raise your binoculars—it's time to go on an adventure! In Daniel Bernstrom's follow-up to the critically acclaimed One Day in the Eucalyptus, Eucalyptus Tree, a fearless little girl takes off in search of a giant gator—but she's not going into that swamp alone! No way! She wants YOU, the reader, to come along. Off you go, peering through the lush landscapes, looking for that gator! But each time you think you see it? Oops! Just a fox. Or some ducks! Or a snake. Maybe you'll never find the gator, gator, gator . . . With stunning illustrations from Sendak Fellow Frann Preston-Gannon, readers experience the feeling of being on a real adventure deep in the swamp. Rhyming, repeating, and exhilarating, the text is a delightful read-aloud romp that will entertain and make everyone's heart skip a beat! Best known for his "Legend of Duluoz" novels, including *On the Road* and *The Dharma Bums*, Jack Kerouac is also an important poet. In these eight extended poems, Kerouac writes from the heart of experience in the music of language, employing the same instrumental blues form that he used to fullest effect in *Mexico City Blues*, his largely unheralded classic of postmodern literature. Edited by Kerouac himself, *Book of Blues* is an exuberant foray into language and consciousness, rich with imagery, propelled by rhythm, and based in a reverent attentiveness to the moment. "In my system, the form of blues choruses is limited by the small page of the breastpocket notebook in which they are written, like the form of a set number of bars in a jazz blues chorus, and so sometimes the word-meaning can carry from one chorus into another, or not, just like the phrase-meaning can carry harmonically from one chorus to the other, or not, in jazz, so that, in these blues as in jazz, the form is determined by time, and by the musicians spontaneous phrasing & harmonizing with the beat of time as it waves & waves on by in measured choruses." —Jack Kerouac

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "O" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.
