This book offers an exciting

Get Free Bernard Tschumi Parc De La Villette

journey into the most recent architectural achievements, seen in their complexity and plurality, and described in the most objective and truthful way. The development of contemporary

Get Free Bernard Tschumi Parc De La Villette

architecture is presented as it commenced more than a century ago, as it tried to reconcile democratic ideals with the forces of the Industrial Era. In contrast to many books on the modern-day

the development
of architecture is
not described
chronologically
here, but, rather,
independently for
each selective
architectural
trend. This allows
a better

Non-Plan explores
ways of involving

of their environments
- a goal which
transgresses political

categories of 'right' and 'left'. Attempts to circumvent planning bureaucracy and architectural inertia have ranged from free-market enterprise zones, to self-build housing, and from squatting to sophisticated technologies of

prefabrication. Yet all have shared in a desire to let people shape the built environment they want to live and work in. How can buildings better reflect the needs of their inhabitants? How can cities better facilitate the work

Modernism had

approach to resolving
the architectural
needs of the twentieth-
century, yet the
design of cities and
buildings often

appears to confound the needs of those who use them - their design and layout being highly regulated by restrictive legislation, planning controls and bureaucracy. Non-Plan considers the theoretical and conceptual

Drawing on the work of a wide range of architects, artists and writers, this book considers the relations between the architect and the user, which it compares to the relations between the artist and viewer and the author and

The core idea
for this book
is the use of
operative verbs

Get Free Bernard Tschumi Parc De La Villette

as tools for
designing
space. These
operative verbs
abstract the
idea of spatial
formation to
its most basic
terms, allowing
for an
objective
approach to
create the

Get Free Bernard Tschumi Parc De La Villette

foundation for
subjective
spatial design.
Examples of
these verbs are
expand,
inflate, nest,
wist, lift,
embed, merge
and many more.
Together they
form a visual
dictionary

decoding the
syntax of
spatial verbs.
The verbs are
illustrated
with three-
dimensional
diagrams and
pictures of
designs which
show the verbs
'in action'.
