Here, adequately presented for the first time in English, is the fascinating story of a splendid culture that flourished thirty-five hundred years ago in the empire on the Nile: kings and conquests, gods and heroes, beautiful art, sculpture, poetry, architecture. Significant archeological discoveries are constantly being made in Egypt. In this revision Professor Steele has rewritten whole chapters on the basis of these new finds and offers several new

Look Homeward, Angel by Thomas Wolfe is about a young man's burning desire to leave his small town and tumultuous family in search of a better life, in 1929. It is Wolfe's first novel, and is considered a highly autobiographical American coming-of-age story. The character of Eugene Gant is generally believed to be a depiction of Wolfe himself. The novel covers the span of time from Eugene's birth to the age of 19. The setting is the fictional town and state of Altamont, Catawba, a fictionalization of his home town, Asheville, North

The concluding installment of the acclaimed time-travel novel. After his miraculous weekend in 1986, Craig Pelling returned to a future he could never have envisaged. Even by his own hapless standards, his plans have spectacularly backfired. Everything he tried to fix is now broken, and a bleak, lonely existence is all Craig has to look forward to. Does he face that future, or does he

It is particularly proud of the Natchez Trace Parkway, a modern concrete road over an old Indian trace or trail from Nashville to Natchez. This highway is a link in one of the most important commercial and historic highways in the United States reaching from Washington, D. C., to Mexico. Today Natchez is a recognized center of interest because in the city and its vicinity there are a greater number of original ante-bellum mansions than in any other community in America—some 75 or

It has lived under five different flags, each of which contributed romantic flavor to the section. From 1714 to 1763 it was under the flag of France; from 1764 to 1780 under the flag of England; and from 1780 to 1798 under the flag of Spain. In 1798 the first United States flag in the Lower Mississippi Valley was raised in Natchez. Years after the raising of the "stars and stripes", another flag which some call "the conquered banner", the beloved flag of the Confederate States of America, floated over Natchez,

The inroads of the river have washed away the streets, and only a few buildings remain. One very interesting home, "Magnolia Vale", has been preserved and is presented in this book. The majority of these old homes contain original pieces of furniture, china, coin silver service, draperies, carpets, wall decorations of exquisite workmanship, huge mirrors in massive goldleaf frames, paintings bearing authentic signatures of great masters, and

It seems hardly possible that the world could move on and leave one small community undisturbed in its ancient grandeur. The hand of destiny seems indeed to uphold and enshrine this hallowed region. The estates have descended from generation to generation, many of them today being owned and occupied by descendants of the original owners.

For many of us, Excel is nothing more than a basic spreadsheet, something we may use on the odd occasion, but for some, it is part of our daily lives. Microsoft Excel is more than just a spreadsheet; it is an essential tool for businesses. In fact, it would be fair to say that it is probably one of the most important tools that a business could have at its disposal. Some of the best uses for Excel include extracting data into charts, using it to identify problems and trends, bringing all the data together from multiple files and other sources so it's all in one easy-to-use

It is these formulas and functions that provide the biggest headaches for inexperienced users and that is what my guide is all about - how to use them and a look at some of the most commonly used ones. Given that there are more than 400 functions alone and not much less in the way of formulas, I couldn't possibly go over every single one of them. First carved on the walls of the burial chambers in the pyramids of kings and queens of the Old Kingdom, they provide the earliest comprehensive view of the way in which the ancient Egyptians understood the structure of the universe, the role of the gods, and the fate of human beings after death. Their importance lies in their antiquity and in their endurance throughout the entire intellectual history of ancient Egypt. This volume contains the complete translation of the Pyramid Texts, including new texts recently discovered and published. It incorporates full restorations and readings indicated by post-Old Kingdom copies of the texts and is the first translation that presents the texts in the order in which they were meant to be read in each of the original sources.

Emmert's Little Miss Fortune is a twisted tale of love, deception, and the blurring of lines between reality and make-believe.... Sans Emmert has created an atmosphere that draws readers in, almost holding our breath as we fall deeper into the mind and perceptions of Damon's world and his writing. Razor taut throughout, readers will balance precariously on the edge of their seats waiting for that final shoe to fall.... Not for the faint of heart, this is a true test of the nature of man versus the nurturing of the soul.

Highly recommended reading that is both chilling and haunting long after that final page." -Tome Tender Book Blog With high IQ and GQ looks, Damon's coming of age should be spectacular. Instead, he's traumatized over his dad's graphic demise and the dark family secret that caused it. Damon retreats into a world of movies like he and Dad enjoyed, then decides to become a screenwriter. Life becomes worth living when Damon meets Deidre, an aloof nursing student. Sure she's a sultry Savannah

beauty, but the deal is sealed when he discovers her passion-acting! After a sexually charged summer, Damon vows to make her a star in his imagined storylines. But alas, Deidre's a paramour of Michael, a married millionaire who regales her with promises of the champagne life. All seems lost until a surprise conception transforms Damon's pursuit into the joys of raising his own boy. But Damon's screenplays aren't selling, and Deidre becomes restless. When his wife and son disappear without a trace, Damon

knows whom to blame. Spiraling into demonic inspiration, Damon creates a brilliant screenplay targeting Michael's "Little Miss" beauty pageant daughter-one sure to win his family back through fame and fortune. But when the dark family secret recurs, Damon's tenuous grip on reality slips. Suddenly face to face with the real little princess, will her innocent eyes snap him from his deathly delusion? During a brief seventeen-year reign (ca. 1353-1336 B.C.) the pharaoh Amenhotep IV/Akhenaten,

founder of the world's first known monotheistic religion, devoted his life and the resources of his kingdom to the worship of the Aten (a deity symbolized by the sun disk) and thus profoundly affected history and the history of art. The move to a new capital, Akhenaten/Amarna, brought essential changes in the depictions of royal women. It was in their female imagery, above all, that the artists of Amarna departed from the traditional iconic representations to

emphasize the individual, the natural, in a way unprecedented in Egyptian art. A picture of exceptional intimacy emerges from the sculptures and reliefs of the Amarna Period. Akhenaten, his wife Nefertiti, and their six daughters are seen in emotional interdependence even as they participate in cult rituals. The female principle is emphasized in astonishing images: the aging Queen Mother Tiye, the mysterious Kiya, and Nefertiti, whose painted limestone bust in Berlin is the best-known work from ancient Egypt - perhaps

from all antiquity. The workshop of the sculptor Thutmose - one of the few artists of the period whose name is known to us - revealed a treasure trove when it was excavated in 1912. An entire creative process is traced through an examination of the work of Thutmose and his assistants, who lived in a highly structured environment. All was left behind when Amarna was abandoned after the death of Akhenaten and the return to religious orthodoxy.

It is the first novel in the Derivatives of Displacement series. Imagine if you could travel back in time and relive one weekend as your sixteen year-old self - would you change anything? Everything wrong with Craig Pelling's life can be traced back to 1986 and the moment he popped in to a newsagent for a can of Coke. Now in his mid-forties, all he has to look back on is twenty-five years of marriage to a woman he doesn't

love and an unfulfilled career selling electrical goods. He could have been so much more, achieved so much more. But as bitter as Craig feels about his mundane existence, fate hasn't finished with him yet. A series of unfortunate events pushes the hapless Craig to breaking point as his life crumbles around him. All looks lost until he's thrown a lifeline - the miraculous lifeline of a brief trip back to 1986,
