“In straightforward, staggeringly honest prose,
Nando Parrado tells us what it took—and what it
actually felt like—to survive high in the Andes for
seventy-two days after having been given up for

Nando Parrado was unconscious for three days

carrying his rugby team to Chile had crashed deep in the Andes, killing many of his teammates, his mother, and his sister. Stranded with the few remaining survivors on a lifeless glacier and thinking constantly of his father's grief, Parrado resolved that he could not simply wait to die. So Parrado, an ordinary young man with no particular disposition for leadership or heroism, led an expedition up the treacherous slopes of a snowcapped mountain and across forty-five miles of frozen wilderness in an attempt to save his friends' lives as well as his

own. Decades after the disaster, Parrado tells his story with remarkable candor and depth of feeling. Miracle in the Andes, a first-person account of the crash and its aftermath, is more than a riveting tale of true-life adventure; it is a revealing look at life at the edge of death and a meditation on the limitless redemptive power of love.

While Macy is remembered primarily as Helen Keller's teacher and a straightforward educational superhero, the real story of this brilliant, complex, and misunderstood woman has never been completely told. *Beyond the Miracle Worker* seeks to correct this oversight, presenting a new tale about the wounded but determined woman and her quest for a successful, meaningful life. Born in 1866 to poverty-stricken Irish immigrants, Macy suffered part of her childhood in the Massachusetts State Almshouse at Tewksbury. Many writers fall into the trap of using more words to do the job that most words aren’t even particularly suited for, the ideas growing ever more allusive and abstract as the verbiage piles up. But in trying to unmoor the essence of lived experience from the concepts and stories we use to construct it, author and spiritual teacher John Astin takes a different approach—using fewer words instead of more, and

grounding them with exercises designed to evoke the actual experience of what he's describing. Evoking the true nature of experience in words is a tricky proposition: perceptual reality has no beginning and no end, making it impossible to delineate, and what arises internally as thoughts and feelings are equally limitless, indeterminate, and unresolvable. While we have countless ways to categorize, conceptualize, and label things, the truth of whatever is being felt, seen, tasted, touched, or heard is infinitely more complex and multidimensional than our conceptual or linguistic structures would have us believe. By becoming more intimate with experience itself—rather than trying to narrate, avoid, or escape it—we can begin to
