contemporary fashion to new colors, such as the recently viral Millennial Pink, this wide-ranging deep dive into the world of color guides readers through the origins, connotations, specs, brand associations and artistic use of colors throughout history. Unfolding, like a rainbow, across the visible spectrum, the chapters are divided by basic color - from red to violet and including black and white - and introduced with engaging background information. Each chapter takes a closer look at a variety of specific shades in the color family, delving into cultural references that span fashion, art history, traditional and modern crafts, and product design. Readers will learn about woad - an ancient pigment that was employed by William Morris and has resurfaced in sustainable dyes - as well as the earliest known use of violet some 25,000 years ago. Each shade is accompanied by sidebars that offer technical specifications, mood connotations, and examples of its use in art and commerce. Informative and endlessly inspiring, this guide will be indispensable to anyone interested in how to use and combine colors in their life or work.

My Pearly Whites (A Coloring Book for Children)

I intend to leave this book my to children and grandchildren. I hope it is received in the same spirit that I give it. I love every one of them with all my heart. They are all precious individuals, and I am very proud of each one. May God bless them. Times have changed. I miss the 1940's when things were simple. Today kids are smarter than we were. They are on strange electronic games that I do not understand. I suspect they

are addictive and perhaps even harmful, depending on content. The temptations today are many times more problematic than when I grew up. These young people are high-tech, intelligent, and far ahead of me at their age. They are all very smart and are, or will be, well educated. They show signs of becoming very successful in this world. However, my concerns are related to the spiritual side of life and reality. What about life hereafter? Have I prepared them for the next life? I fear I have failed in that regard and I write in order to leave them something about God's word that may take up the slack in things where I have failed. I want to be sure that my kids and grandkids become believing, studious Christians as adults. If there is an afterlife, and I believe there is, it must be of great importance for all so, get ready, I believe we will all have an afterlife. We, in America, are fortunate in that we have freedom of religion and there are churches on every corner teaching the basic principles of our Lord and Savior. My Dad raised me on the bible and denominational doctrine because that's what he knew. He gave me a good start but I have discovered that there is much more to learn than denominational tradition. I believe an open mind is absolutely necessary and denominational training is a closed down system loyal to only one view. I want my children to study God's word. Unfortunately, many churches and church people do not study, but accept a particular traditional

doctrine that has been handed down to them. I am now in my late seventies. I am not an academic and hold no degrees in theology. One might say I have a degree in hard knocks, experience, big mistakes, and corrections. I hope that my years of study and faith are enough. After years of doubting, study, research, and prayer I have come to believe that the bible is the most valuable word of wisdom on earth, The Most Treasured of All books on the planet. Very intelligent men and women have tried to disprove the bible but the more they attack, the better the old book looks. It is still the world's best seller. I believe we can base our whole life in this world and the life hereafter on the bible. I intend to convince my children and grandchildren of that, and I pray they read what I have left them.

People in the Life of Jesus

Longevity with Joy This book, Longevity with Joy, was written mainly to improve the quality of life from birth to a ripe old age. We are globally living longer. Good news! The author already enumerated and discussed the factors contributing to living longer in some parts of the world in this book. As a result, she wrote this book from the research and investigations made on quality, long life. It is not living long that really matters but the quality of the longevity. The author was born and bred in Nigeria. Despite the factors that militated against her survival and education, she got educated, taught in postprimary schools, and worked in the Ministry of Health before she left for Dublin, Ireland, in January 1999. She went further to study health care and ICT. Evangeline Omini has been a writer since 1992. Her latest book, "God's Love Prevails," was published by Xlibris in USA in 2013.

Many Christians do not know the significance of the Tabernacle in their daily walk with God. Many of us do not understand the different aspects of the Tabernacle. Indeed, many of us are amazed at the specific details given by God for the construction of the Tabernacle. The Tabernacle was a carefully constructed, mysterious environment for the presence of God. In this in-depth study, we take a walk through the Tabernacle of God. The seals are broken to enable us understand the Tabernacle of God and the presence of God amongst men.
