Jonathan St. Honore is a federal narcotics agent living a nightmare within the dark walls of a Saigon prison. He has been convicted of murdering a crewman after he intercepted a fishing boat he suspected was smuggling opium into the country that instead turned out to be pure gold. Even as he is ruthlessly tortured, Jonathan refuses to reveal where he has hidden what everyone believes to be narcotics worth millions of dollars. As a result, he is left behind to rot in prison at wars end. As time passes, the CIA and an influential senator on track to become the next president of the United States finally step in to help. As a spectacular rescue mission unfolds that leaves five grisly murders in its wake and instigates an attack that threatens to ignite World War III, now only time will tell if both Jonathan and the vast fortune will finally be liberated or if he will die in prison. Code Name: C.I.N.D.E.R. shares a thrilling tale of the intrigue, murder, and greed that unfolds after an American holding an enormous secret is left in Vietnam at the close of the war.

"Brinkley Saunders has a secret. To everyone in the academic world she left behind, she lost it all when she dropped out of grad school. Once a rising star following in her mother's footsteps, she's now an

administrative assistant at an insurance agency--or so they think. In reality, Brinkley works at Heartbreak for Hire, a secret service that specializes in revenge for jilted lovers, frenemies, and long-suffering coworkers with a little cash to spare and a man who needs to be taken down a notch. It might not be as prestigious as academia, but it helps Brinkley save for her dream of opening an art gallery and lets her exorcise a few demons, all while helping to empower women. But when her boss announces she's hiring male heartbreakers for the first time, Brinkley's no longer so sure she's doing the right thing--especially when her new coworker turns out to be a target she was paid to take down. Though Mark spends his days struggling up the academic ladder, he seems to be the opposite of a backstabbing adjunct: a nerd at heart in criminally sexy sweater vests who's attentive both in and out of the bedroom. But as Brinkley finds it increasingly more difficult to focus on anything but Mark, she soon realizes that like herself, people aren't always who they appear to be"--

The deeply reported story of two supremely ambitious figures, Barack Obama and Hillary Clinton—archrivals who became partners for a time, trailblazers who share a common sense of their historic destiny but hold very different beliefs about how to project American power In *Alter Egos*, veteran New York Times White House correspondent Mark Landler takes us inside the fraught and fascinating relationship between Barack Obama and

Hillary Clinton—a relationship that has framed the nation's great debates over war and peace for the past eight years. In the annals of American statecraft, theirs was a most unlikely alliance. Clinton, daughter of an anticommunist father, was raised in the Republican suburbs of Chicago in the aftermath of World War II, nourishing an unshakable belief in the United States as a force for good in distant lands. Obama, an itinerant child of the 1970s, was raised by a single mother in Indonesia and Hawaii, suspended between worlds and a witness to the less savory side of Uncle Sam's influence abroad. Clinton and Obama would later come to embody competing visions of America's role in the world: his, restrained, inward-looking, painfully aware of limits; hers, hard-edged, pragmatic, unabashedly old-fashioned. Spanning the arc of Obama's two terms, *Alter Egos* goes beyond the speeches and press conferences to the Oval Office huddles and South Lawn strolls, where Obama and Clinton pressed their views. It follows their evolution from bitter rivals to wary partners, and then to something resembling rivals again, as Clinton defined herself anew and distanced herself from her old boss. In the process, it counters the narrative that, during her years as secretary of state, there was no daylight between them, that the wounds of the 2008 campaign had been entirely healed. The president and his chief diplomat parted company over some of the biggest issues of the day: how quickly to wind down the wars in Iraq and

Afghanistan; whether to arm the rebels in Syria; how to respond to the upheaval in Egypt; and whether to trust the Russians. In Landler's gripping account, we venture inside the Situation Room during the raid on Osama bin Laden's compound, watch Obama and Clinton work in tandem to salvage a conference on climate change in Copenhagen, and uncover the secret history of their nuclear diplomacy with Iran—a story with a host of fresh disclosures. With the grand sweep of history and the pointillist detail of an account based on insider access—the book draws on exclusive interviews with more than one hundred senior administration officials, foreign diplomats, and friends of Obama and Clinton—Mark Landler offers the definitive account of a complex, profoundly important relationship. As Barack Obama prepares to relinquish the presidency, and Hillary Clinton makes perhaps her last bid for it, how both regard American power is a central question of our time. Advance praise for *Alter Egos* "A superb journalist has brought us a vivid, page-turning, and revelatory account of the relationship between Barack Obama and Hillary Clinton, as well as of their statecraft. *Alter Egos* will make a signal contribution to the national debate over who should be the next American president."—Michael Beschloss, bestselling author of *Presidential Courage* "Mark Landler, one of the best reporters working in Washington today, delivers an inside account of Hillary Clinton's relationship with Barack Obama that brims with insight and high-level intrigue. 900 quotes mostly from actors but also directors, writers, casting directors, and more. The book is conveniently divided into five chapters: Acting, Auditioning, Connecting, Working, and Coping. Here's a sampling of quotes from each section: (Acting) "Of course we all learn that acting is basically reacting. The least acting you ever have to do is close-up. The close-up may require an actor's reaction, but it's a small, subtle one. Generally speaking, the less you 'act' in a close-up, the better." Sir John Gielgud. (Connecting)

"Acting, especially in motion pictures, is very hierarchical, like a caste system. The stars are royalty, the other actors are serfs-okay, commoners... If you're not a big shot, you gotta be careful not to push or intrude. You gotta watch what you say, how you say it, and, especially, when you say it." Bruce Dern. (Working)

"Acting in front of a camera or a live audience requires intense concentration, to shut out the real world and create the character's reality. Focus is just as important for an actor as for a cinematographer." Keira Knightley. (Coping) "Partly I got into show business to become rich and famous and thus show up anyone who'd treated me badly growing up. But doesn't one evolve with maturity? My focus ultimately changed from negative to positive, as I found that I enjoyed the work, even the struggle, for its own sake." Michael Landon

He was fearsomely articulate and had a wide and varied circle of friends ranging from Graham Greene to Frank Sinatra and Stan Getz. *Letters I Never Mailed*, hailed at its first publication [in 1975, by Little, Brown], tells the story of Wilder's musical and personal life through unsent letters addressed to various friends. In it, he shares his insights -- and sometimes salty opinions -- on composing, musical life, and the tension between art and commercialism. This new, scholarly edition leaves Wilder's original text intact but decodes the mysteries of the original through an annotated index that identifies the letters' addressees, a biographical essay by David Demsey, and photographs by renowned photographer and lifelong friend of Wilder, Louis Ouzer. The instant Wall Street Journal, USA Today, and international bestseller "While the history books are filled with tales of obsessive visionary geniuses who remade the world in their image with sheer, almost irrational force, I've found that history is also made by individuals who fought their egos at every turn, who eschewed the spotlight, and who put the

higher goals above their desire for recognition.” —from the prologue

Many of us insist the main impediment to a full, successful life is the outside world. In fact, the most common enemy lies within: our ego. Early in our careers, it impedes learning and the cultivation of talent. With success, it can blind us to our faults and sow future problems. In failure, it magnifies each blow and makes recovery more difficult. At every stage, ego holds us back. *Ego Is the Enemy* draws on a vast array of stories and examples, from literature to philosophy to history. We meet fascinating figures such as George Marshall, Jackie Robinson, Katharine Graham, Bill Belichick, and Eleanor Roosevelt, who all reached the highest levels of power and success by conquering their own egos. Their strategies and tactics can be ours as well. In an era that glorifies social media, reality TV, and other forms of shameless self-promotion, the battle against ego must be fought on many fronts. Armed with the lessons in this book, Holiday writes, “you will be less invested in the story you tell about your own specialness, and as a result, you will be liberated to accomplish the world-changing work you’ve set out to achieve.”

When a killer arrives in Christchurch, kidnapping Dr. Stanton and his three young daughters, private detective Theodore Tate must find the connection between the killer, “the Laughterhouse,” an abandoned slaughterhouse with the “S” painted over, and the city’s growing murder rate.

When we talk about Pakistan’s nuclear weapons, armed forces and civilian governments, then controversies and uninvited misperceptions swirl in our minds. If we take in the broad picture, we inevitably conclude that not all is going in the right direction in the country; and that is because the

army, politicians and the establishment perceive jihadism a profitable business. They run this business of killings and torture through their proxies. While we study the militarized mind of Pakistani generals and recognize their resentment towards civilian governments, we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations. International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future. When we study the militarized mind of Pakistani generals and recognize their resentment towards civilian institutions, we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations. The Pakistan military controls the financial market, stock exchange, real estate business, banking sector and smuggling of narcotics. Ethnic representation within the armed forces raises serious concerns. Some experts say that it is not a national army but view it as the club of Pashtun and Punjabi generals. The army has failed to develop a true ethnic representation process or motivate Baloch and Sindhis to join the armed forces; but they certainly have gained experience in killing innocent civilians. Then there is the question of the Saudi investment in Pakistan's "Islamic" nuclear bomb. Saudi Arabia's link with Pakistan's nuclear and missile program has long been the source of speculation that Pakistan might export nuclear forces on Saudi sand or provide a nuclear umbrella to the Wahabi state, in return for oil supply; or that the Saudis would purchase nuclear weapons from Pakistan. International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future.

David Weinberg's multi-national study focuses on the efforts by the Jews of France, Belgium, and the Netherlands to reconstruct their lives after the Second World War. These efforts have largely been ignored, perhaps because the emphasis on assisting survivors in displaced persons camps in occupied Germany, Austria, and Italy and in developing Israel as the centre of the Jewish world after the Holocaust diverted attention from the struggle by Jews in western Europe to recover their voice and sense of purpose. Weinberg attempts to set the record straight, presenting the challenges that were faced both in the national context and in the world Jewish arena and examining how they were dealt with. Weinberg begins his study by reviewing the action taken to revive Jewish communities in the three countries materially and institutionally, remodelling them as efficient, self-sustaining and assertive bodies that could meet new challenges. With the creation of the State of Israel, Jews who stayed in western Europe had to defend their decision to do so while nevertheless showing public support for the new nation. There was also a felt need to respond quickly and effectively to any sign of antisemitism. In addition, tensions arose between Jews and non-Jews concerning wartime collaboration in deportations, and the need to memorialize Jewish victims of Nazism. The Cold War offered challenges of its own: the perceived need to exclude communist elements from communal affairs was countered by a resistance to pressures from American Jewish leaders to sever links with Jews in eastern Europe. Yet beneath the show of assertiveness Jewish life was fragile, not only because of the physical depletion of the population and of its leadership but because the Holocaust had shaken religious beliefs and affiliations and had raised

questions about the value of preserving ethnic and religious identity. At the same time, new forms of Jewish consciousness had evolved, meaning that Jewish leaders had to provide for diverse educational, religious, and cultural needs. This book's comprehensive approach offers a broad and valuable addition to existing studies on the regeneration of Jewish life in individual European countries. Underscoring the similar political, cultural, social, and economic issues facing Jewish survivors in France, Belgium, and the Netherlands after the Holocaust, David Weinberg demonstrates how, with the aid of international Jewish organizations, they used unprecedented means to meet unprecedented challenges. It is a story worth telling that adds much to our understanding of postwar European Jewish life.

You are NOT who you think you are. In fact, according to bestselling author Craig Groeschel in *Altar Ego*, you need to take your idea of your own identity, lay it down on the altar, and sacrifice it. Give it to God. Offer it up. Why? Because you are who GOD says you are. And until you 've sacrificed your broken concept of your identity, you won 't become who you are meant to be. When we place our false labels and self-deception on the altar of God 's truth, we discover who we really are as his sons and daughters. Instead of an outward-driven, approval-based ego, we learn to live with an "altar" ego, God 's vision of who we are becoming. Discover how to trade in your broken ego and unleash your altar ego to become a living sacrifice. Once we know our true identity and are growing in our Christ-like character, then we can behave accordingly, with bold behavior, bold prayers, bold words, and bold obedience. Altar

Good Vs. Evil . . . Overcoming Degradation Through the Love and Brilliance of God Book One: Evil . . . and the Destruction of Lives

The truth is we are all just a little bit crazy in some areas of our life to a whole lot of crazy. Being miss-directed is one of the things mankind has in common as the various forms of insanity work the same way in every one of us. We've all been programmed to unknowingly believe in a host of lies and it's our belief in the need to uphold the lies that do us in. There are laws that pertain to the universe. These laws cannot be broken without creating diverse consequences. With every action there is an opposite reaction of effect. And where do the decisions we make come from? They generally come from our minds. The question then becomes, "Who's controlling the mind?" If your mind is at work and in agreement with you then you would rightly say you are controlling your mind. But if you

occasionally find that your mind is working against you then you should consider "you are not solely in control." Jesus referred to Satan as, "the father of lies." I intend to show how the workings of evil are constructed through the placement of lies and how these lies in combination are at work to disrupt our lives. I will show how the longest and greatest lie is packaged and how the "six major steps" that makes up "a combined package" works powerfully against you. Then I will show how the effects from the lies get all mixed in with the pain you experience and how the end results can be devastating. This book is about our need for revelation and offers the reader an opportunity to begin a personal journey with life as it truly is. This is a lifelong journey in Spirit and truth and it begins with your full recognition of the need for having God working continuously in your life.

For Donald W. Tucker, life from the get-go was a two-edged sword-a "damned if you do/damned if you don't" black & white shades & wing-tips jungle existence of working the streets of Southside Chicago undercover ("with no cover") as a Federal narcotics and SS agent. Tucker was quick, sharp and street smart. Ultimately he rose through the ranks to become one of America's foremost federal law enforcement administrators and

reformers. The Two-Edged Sword is a grim, gutsy, raw in-your-face first-hand account of what it was like to be Black and work as an undercover agent for the Federal Bureau of Narcotics (now called the DEA), and United States Secret Service from 1961-1990-some of the toughest years in this country's history of Civil Rights. Tucker's life story reads like a best-selling 007 whodunit, more fiction than fact-yet all of it really happened. "Too many times the risks were far greater than anticipated, but I was young and dumb," writes Tucker. "I didn't know what I was doing until I felt a .45 slammed against my head. Or, until I found myself being cuffed and dragged into a police car manned by an officer who had no way of knowing I was an undercover agent." "That I survived to tell my story is sheer luck," admits Tucker, whose office walls are plastered with certificates, awards and citations for his outstanding service. Tucker was born and raised in a postage stamp apartment that housed five children and four adults. A football scholarship to the University of Iowa served as his ticket to a better life. In 1961 he received his B.A. with a major in sociology and was immediately hired as an undercover agent for the Chicago FBN. In 1962, Tucker was serving in one of the U.S. Military units called in to escort black

student James Meredith through the front door of Ole Miss in Oxford, Mississippi. Just as they were about take off for Oxford, however, Tucker and all other blacks were singled out and ordered to stay on base. This act of segregation was a turning point in Tucker's adult life. From that time on and for the rest of his life, he became a voice to be reckoned with as a Civil Rights advocate. In the Federal Law Enforcement agencies and in subsequent positions as U.S. Marshal for the District of Arizona and Protector for the Federal Courts, he was nicknamed "Tucker the Troublemaker." After a career with the USSS for almost 25 years, Tucker retired in March 1990. On March 26, 1990, he was sworn in as U.S. Marshal for the District of Arizona. In August 1994, Tucker was appointed Chief of Court Security for the Administrative Office of the United States Courts in Washington, D.C. In this capacity, he monitored the security provided to the Federal Judiciary and supervised the \$150 million budget. He also coordinated the investigation of the bombing of the Federal Courthouse in Oklahoma City, Oklahoma. Tucker returned to Arizona in March 1996, and in January 1997, he started his own Investigations Company, T.I.P.S. (Tucker Investigations and Protective Services).

Colonel Conor Campbell said goodbye to Washington, DC, the Pentagon, and the whole Beltway Complex. He had enough of the climb of success, the constant moves of a US Army intelligence officer, and above all, a failed marriage. He wanted to go home to the beloved Ozark foothills of eastern Oklahoma to seek the comfort of familiar places and live on his own land. Adair County had always given Conor a sense of peace, a place where four generations of the Campbell family had made their home after the great walk of sorrows, also known as the Trail of Tears. Being a proud member of the Cherokee Nation had always given him a sense of belonging no matter how far he traveled. What Conor did not know at the time was that he was about to step into a world very different from his memories, a world that would overshadow anything he had encountered in his life thus far. The verdant hills and secluded hollows of eastern Oklahoma held secrets meant to be retained only by those of the initiated. This new world of mystery, intrigue, and danger, which awaited him, far surpassed anything Conor encountered in the army.

The New York Times bestselling author of Reality-Based Leadership rejects the current fad of "engaging" employees and the emotional drama of "meeting their needs"--returning leadership to leaders and productivity to businesses. For years now, leaders in almost every industry have accepted two completely false assumptions--that change is hard, and that engagement drives results. Those beliefs have inspired expensive attempts to shield employees from change,

involve them in high-level decision-making, and keep them happy with endless “satisfaction surveys” and workplace perks. But what these engagement programs actually do, Cy Wakeman says, is inflate expectations and sow unhappiness, leaving employees unprepared to adapt to even minor changes necessary to the organization’s survival. Rather than driving performance and creating efficiencies, these programs fuel entitlement and drama, costing millions in time and profit. It is high time to reinvent leadership thinking. Stop worrying about your employees’ happiness, and start worrying about their accountability. Cy Wakeman teaches you how to hire “emotionally inexpensive” people, solicit only the opinions you need, and promote self-awareness in your whole team. No Ego disposes with unproven HR maxims, and instead offers a complete plan to turn your office from a den of discontent to a happy, productive place.

It's 1902, James is about to turn eighteen and experience his first taste of freedom. He has been aboard The Mars, a floating reformatory for orphaned boys, since his parents' violent death and mysterious disappearance of his little sister six years earlier. He is not the average run-of-the-mill orphan, struggling to survive the daily perils of life, but the custodian of a millinery secret passed down generations. He knows, the legacy bequeathed to him will test his resolve to the bitter end, especially when the lives of so many are at stake. The ancient enemies have hunted his family long before he was born, waiting patiently in the shadows for the right moment to strike and wreak their revenge. Will he cling to life against all odds and find the place where it all began three thousand years ago? Legacy is suited to readers of historical fiction, or those who enjoy an exhilarating, well-paced adventure novel.

Women Aren't from Venus, Men Are Pigs! rejects the notion that men and women are from different planets. It offers a more realistic view of the relationships between men and women. It is semi-autobiographical, and it is written as a conversation between the author and the reader, like girlfriends having a talk over coffee or lunch. It is filled with humorous jokes and stories. Some of the stories are difficult, if not painful, to read. All of the stories are true. The women who shared their stories showed remarkable strength and courage. The reader will find it easy to identify with and empathize with the women who shared their stories. The stories will easily evoke a response from the reader, who will want to scream, "Men are pigs!"

Claradon never led his House's forces into battle before. But now he has to. His father, the mighty lord of Dor Eotrus, went missing, along with all his men, heroes all, while investigating a mysterious fog and otherworldly howling. It's up to Claradon to find him, to bring him home, or to avenge his death if he has fallen. Claradon is a brave young knight — noble, skilled, and courageous; a warrior born and bred; a northman, tall and strong. But he's not prepared to face the ancient evil that has entered his lands. An evil with powers beyond any mortal's imagination. An evil that threatens to overrun Midgaard and destroy all that Claradon holds dear. * Hammer of Doom was previously published as Gateway to Nifleheim Praise for The Gateway by Glenn G. Thater "Thater is one of the most talented and exciting authors of our time. He is right up there with Tolkien, maybe even better. His unique writing technique leaves you pondering what is going to happen next and yearning for more."

I was always intrigued by the question: Why are some people successful in life while others just can't get it right, even if they are from the same background. I have researched this phenomenan over many years, and now I believe I have a fairly accurate list of the characteristics of successful people. As this book is meant for the man in the street, I have written it in layman's terms and I used examples and humor to bring the points across. Furthermore, I attempted to show how to learn the characteristics of successful people in order for the reader to internalize the principles and become successful himself.

Critics and writers are raving about Paul Cleave's outstanding, internationally bestselling crime thrillers. Now experience three of them in this ebook-only collection. Blood Men, winner of the Ngaio Marsh Award for Best Crime Novel of 2011: Edward Hunter has it all—a beautiful wife and daughter, a great job, a bright future... and a very dark past. Twenty years ago, a serial killer was caught, convicted, and locked away in the country's most hellish of penitentiaries. That man was Edward's father. Edward has struggled his entire life to put the nightmares of his childhood behind him. But a week before Christmas, violence once again makes an unwelcome appearance into his world. Suddenly he's going to need the help of his father, a man he hasn't seen since he was a boy. Is Edward destined to be just like him, to become a man of blood? Collecting Cooper, a Suspense Magazine Best Book of 2011: People are disappearing in Christchurch. Cooper Riley, a psychology professor, doesn't make it to work one day. Emma Green, one of his students, doesn't make it home. When ex-cop Theodore Tate is released from a four-month

prison stint, he's asked by Green's father to help find Emma. After all, Tate was in jail for nearly killing her in a DUI accident the year before, so he owes him. Big time. What neither of them knows is that a former mental patient is holding people prisoner as part of his growing collection of serial killer souvenirs. Now he has acquired the ultimate collector's item—an actual killer. Meanwhile, clues keep pulling Tate back to Grover Hills, the mental institution that closed down three years ago. Very bad things happened there. Those who managed to survive would prefer keeping their memories buried. Tate has no choice but to unearth Grover Hills' dark past if there is any chance of finding Emma Green and Cooper Riley alive. The Laughterhouse: Theodore Tate never forgot his first crime scene—ten-year-old Jessica found dead in "the Laughterhouse," an old abandoned slaughterhouse with the S painted over. The killer was found and arrested. Justice was served. Or was it? Fifteen years later, a new killer arrives in Christchurch, and he has a list of people who were involved in Jessica's murder case, one of whom is the unfortunate Dr. Stanton, a man with three young girls. If Tate is going to help them, he has to find the connection between the killer, the Laughterhouse, and the city's suddenly growing murder rate. And he needs to figure it out fast, because Stanton and his daughters have been kidnapped, and the doctor is being forced to make an impossible decision: which one of his daughters is to die first. "An intense adrenalin rush from start to finish." —S.J. Watson "A bloody noir thriller, one often descending into a violent abyss reminiscent of Thomas Harris, creator of Hannibal Lecter." —Kirkus

Does Satan exist? If so, how does he operate? Are good and evil forces in a struggle for the soul of America?

Letters from Perverse University answers these questions! Dr. Harvey provides a satirical treatment of contemporary American society that is humorous, and biting, yet profound and informative. The author deals with issues such as homosexuality, abortion, gambling, adultery, criminal justice, evolution, national debt, and a host of other topics. No one escapes the sharp pen of Dr. Harvey including Bill Clinton, professional athletes, the Kennedys, TV evangelists, K-Street bandits, Supreme Court, and the ACLU. Letters from Perverse University is composed of 68 letters and 6 memos from a Professor of Deception and Senior Vice President of Tempters at Perverse University in Hell to some of his former students who have been sent to America to tempt America away from its basic Judeo/Christian values and to destroy it. The book provides a novel and entertaining way to view contemporary social issues. The book makes an excellent vehicle around which to structure discussion and study groups wishing to look at contemporary issues from a Christian perspective.
