

Big Franks Fire Truck Pictureback R

Brief, visual, and relevant, THE POWER OF ART, 2e delivers an engaging, jargon-free survey for the art appreciation course. Richard and Susan Lewis open students’ eyes to the power of art with their captivating writing, so lively and succinct that students are able to complete their reading quickly, concentrate on the accompanying illustrations, and come to class prepared. The book’s reproductions -- larger than in other art appreciation texts -- make it easier for students to focus on key details important to understanding the artwork. The text does an exceptional job of focusing on the Western tradition while incorporating non-Western material in key points to demonstrate cultural intersections and mutual influences. Clear discussions of artistic forms and art in Western culture are complemented by boxed features like the new Art Issues, Art News, and Global View that highlight the relevance of art today, controversial topics, and the impact of non-Western cultures on the West. In addition to its excellent art history coverage, THE POWER OF ART features a diverse mix of artists and spotlights the latest technologies used to create art. This solid text also is bolstered by innovative supplements like PowerLecture, a Digital Image Library, ArtExperience Online, WebTutor Toolbox, and more. The Advantage pricing of this text delivers an unrivaled value for instructors and students alike. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Local history book commemorating the first seventy-five years, 1882-1958, of Pelican Rapids, Otter Tail County, Minnesota.

Journey from Earth to the outer reaches of the universe with this stunning book about space! You'll encounter bizarre planets, distant stars, and intricate galaxies. From planets and asteroids to black holes and galaxies, every page of this captivating book reveals the secrets behind more than 100 celestial objects. Get ready to explore fun facts and exciting new scientific discoveries! For centuries, the mysteries of space have captured our imaginations. This picture book will illuminate imaginations and spark curious minds to explore the vastness of space. Take your little astronaut on a journey from our planet out into the furthest reaches of the universe! Filled with gorgeous illustrations and incredible photography, young readers will be intrigued by the detailed close-up images of each celestial body. The engaging storybook-style descriptions and simple text shed a light on facts, myths, and key discoveries about the universe. Explore the wonders of our solar system and beyond. This educational book also includes reference pages packed with fascinating information. Journey Through the Vastness of Space Join us on an adventure across the universe, as we rocket to the stars! Discover 100 objects from the universe, arranged from the closest to our planet to the ones the furthest away. The Little Fire Truck

All the Dead Voices

"Contemporary fairy tales, cushioned by goofy humor and a deep tenderness for her characters, that aren't always as dark or as sinister as they initially appear." --The New York Times Book Review Aimee Bender 's Willful Creatures conjures a fantastical world in which authentic love blooms. This is a place where a boy with keys for fingers is a hero, a woman 's children are potatoes, and a little boy with an iron for a head is born to a family of pumpkin heads. With her singular mix of surrealism, musical prose, and keenly felt emotion, Bender once again proves herself to be a masterful chronicler of the human condition.

The Bubble Guppies play a game of fishketball, in which they must toss a ball through a school of fish.

SMALL ENGINES, medium-sized engines, and large engines—everyone has problems with those Troublesome Trucks. But there are cranes of all sizes, too, and they are always ready and able to be Really Useful and help out!

Join these fabulous friends, as they go on a rescue ride on a fire truck. "Let's go on a fire truck, racing through the street. The bell rings—someone needs our help. We jump up to our feet!" As the four friends put on their fireproof suits, fasten their helmets and slip into their boots, there's not a minute to lose as they speed through the streets in their truck. A girl and her cat need to be rescued and it's all systems go to try and put out the flames. This fun, rhyming books for toddlers is vibrantly illustrated and includes a diverse set of characters. With lots to spot and see on every page, this is a perfect introduction to transport for preschoolers.

Places from the Past

Thirteen Years of a busy Woman s Life

The Master-Christian

Willful Creatures

Big Dan's Moving Van

Vehicle-obsessed boys and girls can ride along with Big Frank and the rest of the firefighting crew on one busy day as they race to the scene of an accident, teach schoolchildren about fire safety, and battle a raging brush fire. Detail-packed full-color illustrations will fascinate young readers.

When hunters from around the world gather in Las Vegas for a conference, a creature left over from a World War Two weapons experiment wakes up and goes on a rampage across the desert. A not-so-friendly wager between the rival companies turns into a race to see who can bag the mysterious creature first. Only there is far more to this particular case than meets the eye, and as Hunters fall prey to their worst nightmares, Owen Zastava Pitt and the staff of Monster Hunter International have to stop an ancient god from turning Sin City into a literal hell on earth. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Follows Mike, a police officer, as he and his partner and a police dog go through a day that includes helping at the scene of a traffic accident, searching for lost children, and visiting an elementary school.

Collects four adventures of Thomas the tank engine and his friends, three of which rhyme. On board pages.

The Collection

Four Decades of a City in Transition

The Wheels on the Fire Truck

Let's Be Friends (LOL Surprise!)

This book approaches consumer psychology from a unique perspective - it covers the entire lifespan, from birth to old age. Childhood and youth are not discussed as areas special, different and remote from the rest of consumer research but are integrated into our development as humans. Consumption is viewed as a process by groups and individuals with the cycle continuing through to disposal or ownership and possession. The author discusses how people's natural lifespan influences their relationship to the things they own, how preferences are developed from childhood and how motivations for purchases change throughout their lives from childhood to old age. This book brings together the most recent findings and theories on child and youth consumption, including children's understanding of advertising and marketing, teen and youth identities and their consumption tastes. Moving through Erikson's life stages chapters continue on to adulthood, the mid-life 'crisis' and possessions and ownership in older consumers. This is a deeply interdisciplinary work that will be of interest to scholars across the fields of psychology, business and marketing, as well as to the more general consumer.

Meet the little truck who never gives up--Elbow Grease--and his four monster truck brothers in this Step 1 Step Into Reading leveled reader from superstar entertainer and #1 New York Times bestselling author John Cena! Twiddlebugs at Work

Bubble Ball Game!

Richard Scarry's a Day at the Fire Station

Cengage Advantage Books: The Power of Art

A collection of essays and personal reminiscences to help make sense of, and come to terms with, our mortality. Young readers are introduced to the daily work of firefighters and fire safety as Big Frank and the rest of his crew race to the scene of an accident, inspect a local store, work at the firehouse, and fight a brush fire. Original.

Newbery Honor winner Joan Bauer's new novel will touch your heart When twelve-year-old Sugar's grandfather dies and her gambling father takes off yet again, Sugar and her mother lose their home in Missouri. They head to Chicago for a fresh start, only to discover that fresh starts aren't so easy to come by for the homeless. Nevertheless, Sugar's mother has taught her to be grateful no matter what, so Sugar does her best. With the help of a rescue dog, Shush; a foster family; a supportive teacher; a love of poetry; and her own grace and good humor, Sugar comes to understand that while she can't control the hand life deals her, she can control how she responds.

When Jim Botticelli launched the Dirty Old Boston Facebook page as a salute to the gritty city of his past, he unwittingly galvanized thousands of people who were also nostalgic for and curious about this crucial time in the city's development. Now captured in a rich and compelling collection, Dirty Old Boston chronicles the people, streets, and buildings from the postwar years to 1987, when a new wave of transformation began. Along with the ball games and dive bars, the four decades covered in this book document some of the city's most dramatic changes and tumultuous events--wholesale razing of neighborhoods, Boston's busing crisis, and the continual fight for affordable housing.Photographs are drawn from family albums, student photography projects, institutional archives, and professional collections, revealing a view of Boston shot from the street. What emerges is a narrative of a city tearing down and rebuilding, protesting and celebrating, fading and thriving. Illuminating Boston's singular tenacity and spirit, Dirty Old Boston presents her proud moments and doesn't shy away from her growing pains. Dirty Old Boston recalls the city as it used to be, the challenges it faced, the maddening traffic and outlandish politics, the simple pleasures of block parties and parades, and those neighborhood haunts where people found camaraderie amidst it all. Raw and beautiful, this book is a tribute to a city and its people.

The Mysteries of the Universe

Furry Friends Forever: Elmo & Tango (Sesame Street)

What the Nose Tells the Mind

The Tradition of Gardez Bien in Montgomery County, Maryland

Smellosophy

Kids will love this simple, rhyming Step 1 reader about all kinds of trucks! A brother and sister discover all kinds of trucks as they travel through their own neighborhood, drive on a highway, and visit a county fair! Young vehicle-enthusiasts will take pride in cruising through the simple, rhyming text. Bright, bouncy art will help them along the reading journey. Step 1 Readers feature big type and easy words for children who know the alphabet and are eager to begin reading. Rhyme and rhythmic text paired picture clues help children decode the story.

A pioneering exploration of olfaction that upsets settled notions of how the brain translates sensory information. Decades of cognition research have shown that external stimuli "spark" neural patterns in particular regions of the brain. This has fostered a view of the brain as a space that we can map: here the brain responds to faces, there it perceives a sensation in your left hand. But it turns out that the sense of smell—only recently attracting broader attention in neuroscience—doesn't work this way. A. S. Barwich asks a deceptively simple question: What does the nose tell the brain, and how does the brain understand it? Barwich interviews experts in neuroscience, psychology, chemistry, and perfumery in an effort to understand the biological mechanics and myriad meanings of odors. She argues that it is time to stop recycling ideas based on the paradigm of vision for the olfactory system. Scents are often fickle and boundless in comparison with visual images, and they do not line up with well-defined neural regions. Although olfaction remains a puzzle, Barwich proposes that what we know suggests the brain acts not only like a map but also as a measuring device, one that senses and processes simple and complex odors. Accounting for the sense of smell upsets theories of perception philosophers have developed. In their place, Smellosophy articulates a new model for understanding how the brain represents sensory information.
