A mixed-race Harvard medical student stumbles upon a hidden Ethiopian city, the inhabitants of which possess both advanced technologies and mystical powers. Long before Marvel Comics gave us Wakanda, a high-tech African country that has never been colonized, this 1903 novel gave readers Reuel Briggs—a mixed-race Harvard medical student, passing as white, who stumbles upon Telassar. In this long-hidden Ethiopian city, the wise, peaceful inhabitants of which possess both advanced technologies and mystical powers. Reuel discovers the incredible secret of his own birth. Now, he must decide whether to return to the life he’s built, and the woman he loves, back in America—or play a role in helping Telassar take its rightful place on the world stage. Considered one of the earliest articulations of Black internationalism, Of One Blood takes as its theme the notion that race is a social construct perpetuated by racists. Minister Faust is best known as author of The Coyote Kings of the Space-Age Bachelor Pad (2004) and 2007’s Kindred Award-winning From the Notebooks of Dr. Brain (retitled Shrinking the Heroes, it also received the Philip K. Dick Award Special Citation). An award-winning journalist, community organizer, teacher, and workshop designer, Faust is also a former television host and producer, radio broadcaster, and podcaster. His 2011 TEDx talk, “The Cure For Death by Smalltalk,” has been viewed more than 840,000 times.

A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In Data Feminism, Catherine D’Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating data feminism in action, D’Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever “speak for themselves.” Data Feminism offers strategies for data scientists seeking to learn how feminism can help them work toward justice, and for feminists who want to focus their efforts on the growing field of data science. But Data Feminism is about much more than gender. It is about power, about who has it and who doesn’t, and about how those differentials of power can be challenged and changed.

In Antibacterial Peptide Protocols, leading authorities review for the first time in one volume all the major biochemical, molecular, bacteriological, and physical techniques available to assess antimicrobial peptides. These state-of-the-art methods ensure easily reproducible results in such important procedures as the isolation and characterization of antimicrobial peptides, the molecular characterization of genes encoding antimicrobial peptides, and the use of expression systems to isolate peptides. Bioassays and microbial genetic techniques are also included, as are antibacterial assays as the final readout system. These methods detailed in Antibacterial Peptide Protocols will play an important role in the treatment of infectious diseases, particularly with the increasing problem of multidrug-resistant microbes and the relative dearth of new antibiotics being provided by pharmaceutical companies.

How long does one have to pray to be heard? It's not about how long but how... There is an art to prayer... you have to pray in a way that God listens Have you been praying for a very long time? Are there important things in your life that you want to improve? Does it seem to you that your prayers are not being heard? Do you feel that life isn't fair? Why are some prayers answered and others not? Why do good people suffer? Why do rascals thrive? Why is God unfair? Have you ever thought about these things? Have you ever wondered why somethings you ask for take a very long time to come? Have you ever wondered why weak and innocent are persecuted? Have you ever wondered why some people can get away with anything? I've been looking for the answers for a very long time. My search has not been in vain. I have discovered that God does have a system for answering prayers. Gods system is perfect and fair every time. Once we understand how it works and start using it effectively we claim our true power. Life becomes easy and fun, and we start looking forward to each day with eagerness. We start understanding that we do have control on how things work out. This art of prayer is at the base of every religion..but it has been misinterpreted in so many ways that those with logic have given up on it. But this is the age of a great Awakening and so the art of prayer is being rediscovered. Some call it the Secret. Others call it the Law of Attraction. The point is to understand that prayer is not a ritual. We are in a state of prayer all the time, and for the most part we're messing it up big time. This book will help you understand how prayer works and how to use it effectively, so that God listens. With a little bit of practice and just ten days of doing it differently, you will start feeling better and more in control, and then the evidence will start showing up, confirming to you that you're finally getting it. This is your life, and you owe it to yourself to make the most of it. Reviews and questions are welcome Much love and appreciation Zehra

This is a compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society. Three decades of societal and cultural alignment of new media yielded to a host of innovations, trials, and problems, accompanied by versatile popular and academic discourse. "New Media Studies" crystallized internationally into an established academic discipline, which begs the question: where do we stand now; which new issues have emerged now that new media are taken for granted, and which riddles remain unsolved; and, is contemporary digital culture indeed all about 'you', or do we still not really understand the digital machinery and how it constitutes us as 'you'. From desktop metaphors to Web 2.0 ecosystems, from touch screens to blogging to e-learning, from role-playing games to Cybergoth music to wireless dreams, this timely volume offers a showcase of the most up-to-date research in the field from what may be called a 'digital-materialist' perspective.

Many books have been written about anger management and over coming worry and anxiety and about what to think and believe and how to act, but three things set this book apart from the rest. The first is the depiction of the thinking process in the form of illustrations that make it easy to understand how our thoughts impact our results; the second is a method that helps us to identify the beliefs that operate under the surface and control our lives without our knowing it; third a four step process that helps to deactivate negative beliefs permanently so that we can thrive. The end result: freedom from worry, anxiety, and anger and a set of thinking exercises that can be used in every situation you would ever encounter in life. Zehra has a gift for taking complex ideas and simplifying them so that they can be understood and applied easily by people of all ages and backgrounds. She has applied the concepts in the book to transform her own life, and helped many people to do the same through her books, talks and coaching programs.

While women were part of American history from the outset, they did not win the right to vote until 1920. Readers of this engrossing history of the women’s suffrage movement will discover its roots in the abolitionist movement. They’ll read about the Declaration of Sentiments from the 1848 women’s rights convention in Seneca Falls, New York, which stated, “all men and women are created equal.” The book also discusses how the fight for women’s rights continued after the right to vote had been won. An illustrated timeline, map, and treasure trove of historical photos enrich the learning experience.

Do the teachings of Abraham resonate with you, but you find it hard to follow and understand them in their entirety? Do you intuitively know that Abraham has the answers you have been looking for, but can’t wrap your head around the terminology they use? You are not alone. Over the years, Abraham has created a terminology that they use to explain the law of attraction. Every time they start using a new phrase they take the time to explain it in detail. When they sense that people in the audience are not familiar with a certain terminology they explain it again. But when we listen to Abraham material on YouTube, or purchase audio programs, the original sequence of things is lost and the explanation of terms and phrases and analogies is not included. This makes it hard to follow and understand the teachings in their entirety. This little book contains a synopsis of all the major phrases and analogies commonly used by Abraham. If you are new to the teachings of Abraham, this little book will be your best companion on your journey. The teachings of Abraham are a must for anyone wanting to understand the law of attraction. If you want to learn to create a happy life and manifest the health, wealth and relationships that you want, a study of the teachings of Abraham is a wonderful place to start.

The law of attraction is all about choosing your thoughts in a way that leads you towards the end result you wish to create. Most people understand the intellectual basis of the Law of Attraction, but putting it into practice is a whole other thing. The end result is frustration because although some things start happening, many other important things aren't moving at all. The question for you to answer is: are you someone who gets consistent results from using the Law of Attraction deliberately in order to manifest the life you want? Or are you like most others, whose experience is more of a hit or miss sort of situation? Are you someone who sees others create what they want, but for the life of you, you can't figure out what you're doing wrong? If you relate to either one of these situations then chances are that your understanding of how to use the Law of Attraction is somewhat incomplete or that you are missing something in the practical application of the concepts. No matter where you're starting from, rest assured this quick read book will set things right for you. At the end of this book you will have it all figured out.

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's Space is the Place is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding.

Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

Ten-year-old Sugar lives on the River Road sugar plantation along the banks of the Mississippi. Slavery is over, but laboring in the fields all day doesn't make her feel very free. Thankfully, Sugar has a knack for finding her own fun, especially when she joins forces with forbidden friend Billy, the white plantation owner's son. Sugar has always yearned to learn more about the world, and she sees her chance when Chinese workers are brought in to help harvest the cane. The older River Road folks feel threatened, but Sugar is fascinated. As she befriends young Beau and elder Master Liu, they introduce her to the traditions of their culture, and she, in turn, shares the ways of plantation life. Sugar soon realizes that she must be the one to bridge the cultural gap and bring the community together. Here is a story of unlikely friendships and how they can change our lives forever. From Jewell Parker Rhodes, the author of Ninth Ward (a Coretta Scott King Honor Book and a Today show Al’s Book Club for Kids pick), here's another tale of a strong, spirited young girl who rises beyond her circumstances and inspires others to work toward a brighter future.

Edouard Glissant's Caribbean Discourse is an unflaggingly ambitious attempt to read the Caribbean and the New World experience, not as a response to fixed, univocal meaning imposed by the past, but as an infinitely varied, dauntingly inexhaustible text.

In language that is elegant, yet fun, this adventure invites the reader on an emotionally charged trip to the moon--from reminders of what one should pack on a trip to the moon, to the exciting countdown and lift-off.

View the Author's website! Seely, the youngest elected president of California's chapter of the National Organization for Women, combines her own story of third-wave feminism with an overview of the feminist movement and words to guide others. Third-wave feminists are aware of both the victories won by earlier feminists and the problems of class, race, sexual orientation, and internationalism that must still be overcome. This book weaves a deep respect for the foremothers with commonsense discussion of current obstacles and suggestions for direct action, resulting in a work that reminds us of what too many activists forget--every progressive movement has a long history, few organizing tricks are new, and problems must be understood before they can be solved. Seely includes booklists, time lines, web sites, and how-to tips that will help readers over the bridge from her insights to real world activism. For midsize to larger public libraries, academic libraries, and all feminist collections. —Library Journal "Want to know what it means to be a feminist of the third wave? Megan Seely's Fight Like a Girl is the answer; there's enough information here to make you angry and enough resources to make you an effective activist.

—Jennifer Baumgardner and Amy Richards, co-authors of Manifesta: Young Women, Feminism and the Future "Always engaging, interesting, and insightful. Fascinating and sure to engage many young women!" —Sherrie A. Inness, editor of Action Chicks "The resources, helpful hints about organizing and working with the press, the short bios of companies and fabulous feminists are great!" —Caryn Aviv, co-editor of American Queer, Then and Now Fight Like a Girl is packed with both information and inspiration for young women by a young woman who knows her stuff. It's a terrific practical feminist resource book with an optimistic attitude that says in clear language, "You're in charge of your life and here's how to stay that way". —Gloria Feldt, former president, Planned Parenthood Federation of America and author of The War on Choice: The Right-Wing Attack on Women's Rights and How to Fight Back Fight Like a Girl offers a fearless vision for the future of feminism. By boldly detailing what is at stake for women and girls today, Megan Seely outlines the necessary steps to achieve true political, social and economic equity for all. Reclaiming feminism for a new generation, Fight Like a Girl speaks to young women who embrace feminism in substance but not necessarily in name. With an eye toward what it takes to create actual change, Seely offers a practical guide for how to get involved, take action and wage successful events and campaigns. The book is full of valuable resources for novice and committed activists alike, including such features as “How to Write a Press Release,” “Guidelines to a Good Media Interview,” “A Feminist Shopping Guide,” and a list of over 100 Fabulous Feminist Resources, including organizations, websites, and events to attend. Each chapter is full of ideas, both big and small, for ways to get involved, get active, and make a difference. Exploring such issues as body image and self-acceptance, education and empowerment, health and sexuality, political representation, economic justice, and violence against women, Fight Like a Girl looks at the challenges that women and girls face while emphasizing the strength that they independently, and collectively, embody. Seely delves into the politics of the feminist movement, exploring both women's history and current-day realities with easy-to-follow lists and timelines like those on “Women Who Made a Difference,” “Chronology of the U.S. Women’s Movement,” and “Do’s and Don’ts for Young Feminists.” A Third Wave manifesto as well as an introduction to feminism for a new generation, Fight Like A Girl is a powerful blueprint for young women today.

Prosperity Puzzle looks at the role of thoughts, emotions and beliefs in producing the results we get in our lives. It explains how we can control the thinking process by changing its building blocks. The book contains 14 easy to learn tools that help shift our thoughts, emotions and beliefs on the subject of money allowing improved prosperity. A continued use of the tools will lead to a magical life where all things are possible.

Everything we want, is because we think that when we get it, we will experience joy. So, we set up our goals and start working towards them, only to discover that this is a never ending trek. This happens because of the proverbial cart before the horse. We have to find joy within first, and when we do everything else falls into place. Yes, that's right. The relationship, the money, the health, the confidence and self worth are all a result of joy and NOT the reason for it. That sort of joy isn't elusive or transient at all. Once you get it, and know how to get it you can find it at will with the snap of your fingers. This workbook is about discovering your internal "well" of never ending joy.The exercises in this workbook span over three aspects: 1) Cleaning up the past, and the beliefs developed in the past that are holding us back from finding joy; 2) Learning to be mindful in the now, so that we create from a conscious space; 3) Generating positive momentum towards Joy. The end result - well, JOY of course! That's the main event. But, let me tell you that the side effects of the work you will do are definitely desirable, including but not limited to, manifesting all the things you want. The relationship joy, the prosperity joy, the healthy body joy, the self-worth joy are all waiting inside these covers.

Meditation is made out to be way more difficult than it truly is. One of the reasons for this is that there are so many different ways being taught. The purpose of this little book is to dig down to the foundation of the process of meditation and talk about why things are done in various different ways. The fewer the rules and rituals the easier it is.
