

Bim Nation 1 Volume 1

Writing the Caribbean in Magazine Time examines literary magazines generated during the 1940s that catapulted Caribbean literature into greater international circulation and contributed significantly to social, political, and aesthetic frameworks for decolonization, including Pan-Caribbean discourse. This book demonstrates the material, political, and aesthetic dimensions of Pan-Caribbean literary discourse in magazine texts by Suzanne and Aimé Césaire, Nicolás Guillén, José Lezama Lima, Alejo Carpentier, George Lamming, Derek Walcott and their contemporaries. Although local infrastructure for book production in the insular Caribbean was minimal throughout the twentieth century, books, largely produced abroad, have remained primary objects of inquiry for Caribbean intellectuals. The critical focus on books has obscured the canonical centrality of literary magazines to Caribbean culture, politics, and social theory. Up against the imperial Goliath of the global book industry, Caribbean literary magazines have waged a guerrilla pursuit for the terms of Caribbean representation.

The Life of Thomas Paine
Discover BIM: A better way to build better buildings Building Information Modeling (BIM) offers a novel approach to design, construction, and facility management in which a digital representation of the building product and process is used to facilitate the exchange and interoperability of information in digital format. BIM is beginning to change the way buildings look, the way they function, and the ways in which they are designed and built. The BIM Handbook, Third Edition provides an in-depth understanding of BIM technologies, the business and organizational issues associated with its implementation, and the profound advantages that effective use of BIM can provide to all members of a project team. Updates to this edition include: Information on the ways in which professionals should use BIM to gain maximum value New topics such as collaborative working, national and major construction clients, BIM standards and guides A discussion on how various professional roles have expanded through the widespread use and the new avenues of BIM practices and services A wealth of new case studies that clearly illustrate exactly how BIM is applied in a wide variety of conditions Painting a colorful and thorough picture of the state of the art in building information modeling, the BIM Handbook, Third Edition guides readers to successful implementations, helping them to avoid needless frustration and costs and take full advantage of this paradigm-shifting approach to construct better buildings that consume fewer materials and require less time, labor, and capital resources.

Bringing together the most exciting recent archival work in anglophone, francophone, and hispanophone Caribbean studies, Raphael Dalleo constructs a new literary history of the region that is both comprehensive and innovative. He examines how changes in political, economic, and social structures have produced different sets of possibilities for writers to imagine their relationship to the institutions of the public sphere. In the process, he provides a new context for rereading such major writers as Mary Seacole, José Martí, Jacques Roumain, Claude McKay, Marie Chauvet, and George Lamming, while also drawing lesser-known figures into the story. Dalleo's comparative approach will be important to Caribbeanists from all of the region's linguistic traditions, and his book contributes even more broadly to debates in Latin American and postcolonial studies about postmodernity and globalization.

During the same period in which Derek Walcott was pouring immense physical, emotional, and logistical resources into the foundation of a viable first-rate West Indian theatre company and continuing to write his inimitable poetry, he was also busy writing newspaper reviews, chiefly for the Trinidad Guardian. His prodigious reviewing activity extended far beyond those areas with which one might most readily associate his interests and convictions. As Gordon Rohlehr once presciently observed, "If one wants to see a quotidian workaday Walcott, one should go back to [his] well over five hundred articles, essays and reviews on painting, cinema, calypso, carnival, drama and literature," articles which "reveal a rich, various, witty and scrupulous intelligence in which generous humour counterpoints acerbity." These articles capture the vitality of Caribbean culture and shed additional light on the aesthetic preoccupations expressed in Walcott's essays published in journals. The editors have examined the corpus of Walcott's journalistic activity from its beginnings in 1950 to its peak in the early 1970s, and have made a generous selection of material from the Guardian, along with occasional pieces from such sources as Public Opinion (Kingston) and The Voice of St. Lucia (Castries). The articles in Volume 1 are organized as follows: Caribbean society, culture, and the arts generally; literature and society; periodicals; anglophone poetry, prose fiction, and non-fiction; African and other literatures; and the visual arts (Caribbean and beyond). The volume closes with a selection of Walcott's miscellaneous satirical essays. The volume editor Gordon Collier has written a searching introductory essay on a central theme - here, a critical, comparative analysis of Walcott's development as journalist against the historical background of press activity in the Caribbean, coupled with an illustrative discussion (drawing on Walcott's newspaper articles) of his attitudes towards prose fiction and poetry.
