

## ***Biology Study Guide Answer Section***

Revise AS Biology gives complete study support throughout the year. This Study Guide matches the curriculum content and provides in-depth course coverage plus invaluable advice on how to get the best results in the AS exam.

Following the text's content, Richard Straub offers a Chapter Overview and Chapter Review, which is divided by major section. Each group of fill-in-the-blank and short-answer questions is preceded by the relevant objective from the text. The Study Guide also includes three self-tests (one of which encourages students to think critically about the chapter's concepts), answers (with page references for the self-tests and explanations of why a choice is correct or incorrect), and a Focus on Language and Vocabulary section, which explains idioms and other phrases used by David Myers in the text that may not be clear to some readers.

Chapter summaries, learning objectives, and key terms along with multiple choice, fill-in-the-blank, true/false, discussion, and case study questions help students with retention and better test results. Prepared by Nancy Shontz of Grand Valley State University. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
