Companies are forever being more creative in their branding strategies, building identities ranging from the warm-and-fuzzy to the ultra-cool and edgy. But it seems that many of these enterprises forgot that a brand, at its heart, is a promise to deliver. If the brand experience does not live up to that promise, customers will take their business elsewhere. Brand Real is a business strategy guide for making a brand's promise stand up at every customer touch point. Packed with proven, repeatable management practices, the book shows how to establish a clean brand architecture while avoiding the needless complexity that has tripped up many promising companies. Author Laurence Vincent presents cautionary tales of supposed brand superstars as well as instructive case studies of genuine brand giants like American Express, Apple, Cisco, Google, Qualcomm, Virgin, and others. Readers will learn how to connect the outward-facing elements of their brandsùlogos, advertising, imagery, communicationsùdirectly to the core elements of business strategy and forge a powerful and lasting connection with

their customers.

New Business Models for a New Economy

The Rural New-Yorker

OAG Business Travel Planner

Market Growers Journal

Fifty years ago, the campaign for a sovereign Sikh state - Khalistan - went global, proclaiming the birth of the new nation with an advertisement in The New York Times on 12 October 1971. The ensuing decades saw a bloodbath in which thousands, mainly Sikhs, lost their lives. Today, the campaign has all but fizzled out in its homeland but overseas, a politically plugged-in band of hardcore separatists keeps the cause alive. In Blood for Blood, veteran Canadian journalist Terry Milewski takes a close look at the global Khalistan project, its hunger for revenge and the feeble response of India's Western allies. He traces the rise and fall of diaspora militants like Talwinder Singh Parmar - the Vancouver-based founder of the Babbar Khalsa terrorist group and the man behind the 1985 'Kanishka' bomb plot which killed 329 aboard Air India Flight 182. The book provides startling new information about the Khalistan movement in Canada, the

United Kingdom and India, which has been sustained for decades by Pakistan and now threatens to draw in China. Brilliantly researched, Blood for Blood brings new insights to a topic that continues to hold global interest decades after it first came to light.

打造群英薈萃的公司 許多著名的財經雜誌喜歡評選「員工最嚮往的公司」。看到這些出爐的企業名單，員工們總是對它們提供的優渥條件欣羨不已，雇主們也想效法，以提升員工滿意度。其實，如果深究一家企業為什麼會讓員工喜愛，許多因素是超越優渥薪酬、舒適辦公空間等表象的條件，而是深層的管理功夫所造就。那是一種高績效、卻能讓人員適情適性的工作環境。本期雜誌從企業文化、人才策略等層面，來探討如何成為員工嚮往的公司。在動盪不定的環境下，唯一能凝聚企業為一體的，便是文化了。然而，是不是有所謂最好的企業文化呢? 其實，企業會因為面對不同挑戰、所處環境不同，而需要不同的文化（見〈凝聚企業的是……〉）。以頂尖的設計公司*IDEO*為例，由於委託設計的客戶來自電腦業、醫療用品業、玩具業、辦公室家具業和汽車業等不同領域，非常需要員工集思廣益，產出源源不絕的創意，因此講求的是一種互助的文化。*IDEO*的領導人不但身體力行，親身參與公司的腦力激盪會議，協助同仁激發出許多新構想，同時把這種文化融入正式的設計流程。其中以產品設計出來後，指定同仁參與的「設計審核會議」，對同仁助益最大。*IDEO*也會讓員工的工作留點餘裕，以協助別人。就是這種隨時可助人和求助的文化，讓*IDEO*員工樂在其中，且績效卓著（見〈設計互助網

絡圖〉）。人才希望跟優秀的團隊一起工作。許多企業已了解到，成功人才策略的關鍵，是高階主管的參與。它們的做法是，在人力資源部門之外，另外成立一個人力資本的委員會，成員包括來自各事業單位的資深主管、人資部門的最高主管，以及執行長。這個委員會的工作，是處理人資部門例行工作之上，更高層的工作，包括維持公司一體的文化、規畫人才策略、建立雇主品牌以吸引人才、培育領導人及接班規畫等。成功的人才策略，可吸引人才，人才又會帶進更多人才，這家公司便成為大家嚮往的公司了（見〈人才策略改寫戰局〉）。這期我們也探討了匯豐汽車運用中古車銷售聯盟，在競爭激烈的市場中開闢出藍海的案例。原本從事新車銷售的匯豐汽車，在2000年代初，面臨市場萎縮的困境，非常需要找到新的成長動能，經過嚴謹的策略規畫，在2003年，靠著整合中古車商、銀行與消費者三方的需求，成立台灣第一個中古車銷售品牌SUM優質車商聯盟，為匯豐找到第二成長曲線。中古車業務後來取代新車銷售，成為匯豐汽車最主要的獲利來源；2012年，中古車相關業務占了它營收的43%。這個案例，應可給許多掙扎求生存的企業一點啟發。

A Practical Guide to Reducing IT Costs

"Precalculus is intended for college-level precalculus students. Since precalculus courses vary from one institution to the next, we have attempted to meet the needs of as broad an audience as possible, including all of the content that might be covered in any particular course. The result is a comprehensive book that covers more ground than an instructor could likely cover in a typical one- or two-semester course; but instructors should find, almost without fail, that

the topics they wish to include in their syllabus are covered in the text. Many chapters of OpenStax College Precalculus are suitable for other freshman and sophomore math courses such as College Algebra and Trigonometry; however, instructors of those courses might need to supplement or adjust the material. OpenStax will also be releasing College Algebra and Algebra and trigonometry titles tailored to the particular scope, sequence, and pedagogy of those courses."--Preface.

This text provides a toolkit of innovative ideas to assess and decrease costs in an organization. It outlines a compilation of practical advice based on interviews and comments from more than 60 CIOs and IT leaders and includes many other proven ideas that will successfully reduce IT costs.

How Smart Companies Live Their Brand Promise and Inspire Fierce Customer Loyalty

In 2009, BlackBerry controlled half of the smartphone market. Today that number is one percent. What went so wrong? Losing the Signal is a riveting story of a company that toppled global giants before succumbing to the ruthlessly competitive forces of Silicon Valley. This is not a conventional tale of modern business failure by fraud and greed. The rise and fall of BlackBerry reveals the dangerous spee at which innovators race along the information superhighway. With unprecedented access to key players, senior executives, directors and competitors, Losing the Signal unveils the remarkable rise of a company that started above a bagel store in Ontario. At the heart of the story is an unlikely partnership between a visionary engineer, Mike Lazaridis, and an abrasive Harvard Business school grad, Jim Balsillie. Together, they engineered a pioneering pocket email device that became the tool of choice for presidents and CEOs. The partnership enjoyed only a brief moment on top of the world, however. At the very moment BlackBerry was ranked the world's fastest growing company internal feuds and chaotic growth crippled the company as it faced its gravest test: Apple and Google's entry in to mobile phones. Expertly told by acclaimed journalists, Jacquie McNish and Sean Silcoff, this is an entertaining, whirlwind narrative that goes behind the scenes to reveal one of the most compelling business stories o the new century.

The first introductory book to developing apps for the BlackBerry If you're eager to start developing applications for the BlackBerry, then this is the hands-on book for you! Aimed directly at novice developers, this beginner guide introduces you to the basics of the BlackBerry API and shows you how to create a user interface, store and sync data, optimize code, manage applications, connect to a network, create enterprise applications using MDS Studio, create Web content, and more. Creative Genius

Time and space. Genetics and robotics. Education and fashion. Possibilities limited only by our imaginations. The future is yours to create. Could you be the Leonardo da Vinci of our times? Most ideas are incremental, quickly copied and suffocated by conventions. "Future back" thinking starts with stretching possibilities then makes them a reality "now forward". The best ideas emerge by seeing what everyone has seen, and thinking like nobody else. Newness occurs in the margins not the mainstream. Solutions emerge through powerful fusions of the best ideas into practical, useful concepts. Creative people rise up.

Visionaries, border crossers and game changers. Engage your right brain, open your eyes, think more holistically... intuition rules. From Apple to Blackberry, GE to Google, innovative companies stand out from the crowd not so much for their exceptional products, despite what one might assume, but for the way they challenge conventions, redefine markets, and change consumer expectations. Apple didn't just create the iPod; it envisioned the future of music and then made a product to service that future. And the same holds true for every highly innovative company. In Creative Genius, Peter Fisk presents ten tracks for innovation and provides business blueprints for making that innovation happen. Creative Genius is inspired by the imagination and perspective of Leonardo da Vinci, in order to drive creativity, design and innovation in more radical and powerful ways. It includes practical tools ranging from scenario planning and context reframing to accelerated innovation and market entry, plus 50 tracks, 25 tools, and 50 inspiring case studies. Creative Genius is "the best and last" in the Genius series by bestselling author Peter Fisk. Others include Business Genius, Marketing Genius and Customer Genius.
