Originally published as a separate book packaged inside The NoMad Cookbook, this revised and stand-alone edition of The NoMad Cocktail Book features more than 100 additional recipes, a service manual explaining the art of drink-making according to the NoMad, and 30 new full-color cocktail illustrations. Organized by type of beverage from aperitifs and classics to light, dark, and soft cocktails and syrups/infusions, this comprehensive guide shares the secrets of bar director Leo Robitschek's award-winning cocktail program. The NoMad Bar celebrates classically focused cocktails, while delving into new arenas such as festive, large-format drinks and a selection of reserve cocktails crafted with rare spirits.

The smartphone was an incredibly successful Canadian invention created by a team of engineers and marketers led by Mike Lazaridis and Jim Balsillie. But there was a third key player involved — the community of Kitchener-Waterloo. In this book Chuck Howitt offers a new history of BlackBerry which documents how the resources and the people of Kitchener-Waterloo supported, facilitated, benefited from and celebrated the achievement that BlackBerry represents. After its few short years of explosive growth and pre-eminence, BlackBerry lost its market to digital juggernauts Apple, Samsung and Huawei. No surprises there. Like Nokia and Motorola before it, BlackBerry was eclipsed. Shareholders lost billions. Thousands of employees lost jobs. Bankruptcy was avoided but the company's founding geniuses were gone, leaving an operation that today is only a fragment of what had been. For Kitchener-Waterloo — as Chuck Howitt tells the story — the BlackBerry experience is a mixed bag of disappointments and major ongoing benefits. The wealth it generated for its founders produced two very important university research institutes. Many recent digital startups have taken advantage of the city's pool of talented and experienced tech workers and ambitious, well-educated university grads. A strong digital and tech industry thrives today in Kitchener-Waterloo — in a way a legacy of the BlackBerry experience. Across Canada, communities hope for homegrown business successes like BlackBerry. This book underlines how a mid-sized, strong community can help grow a world-beating company, and demonstrates the importance of the attitudes and decisions of local institutions in enabling and sustaining successful innovation. Canada has a lot to learn from BlackBerry Town.

How high tech success has played out for Canada's Kitchener-Waterloo

An introduction to the art of rhetoric explains how persuasion can profoundly influence personal and professional successes and reveals an array of techniques employed by such personalities as Aristotle and Winston Churchill.

By his early thirties, Paul Allen was a world-famous billionaire-and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.
