“Riveting. . . a testament to a misconceived war, and to the ease with which ordinary men, under certain conditions, can transform into monsters.”—New York Times Book Review This is the story of a small group of soldiers from the 101st Airborne Division’s fabled 502nd Infantry Regiment—a unit known as “the Black Heart Brigade.” Deployed in late 2005 to Iraq’s so-called Triangle of Death, a veritable meat grinder just south of Baghdad, the Black Hearts found themselves in arguably the country’s most dangerous location at its most dangerous time. Hit by near-daily mortars, gunfire, and roadside bomb attacks, suffering from a particularly heavy death toll, and enduring a chronic breakdown in leadership, members of one Black Heart platoon—1st Platoon, Bravo Company, 1st Battalion—descended, over their year-long tour of duty, into a tailspin of poor discipline, substance abuse, and brutality. Four 1st Platoon soldiers would perpetrate one of the most heinous war crimes U.S. forces have committed during the Iraq War—the rape of a fourteen-year-old Iraqi girl and the cold-blooded execution of her and her family. Three other 1st Platoon soldiers would be overrun at a remote outpost—one killed immediately and two taken from the scene, their mutilated corpses found days later booby-trapped with explosives. Black Hearts is an unflinching account of the epic, tragic deployment of 1st Platoon. Drawing on hundreds of hours of in-depth interviews with Black Heart soldiers and first-hand reporting from the Triangle of Death, Black Hearts is a timeless story about men in combat and the fragility of character in the savage crucible of warfare. But it is also a timely warning of new dangers emerging in the way American soldiers are led on the battlefields of the twenty-first century.

In Women Who Rock, writer and professor of journalism Evelyn McDonnell leads a team of women rock writers and pundits in an all-out celebration of 104 of the greatest female musicians. Organized chronologically, the book profiles each artist and places her in the context of both her genre and the musical world at large. The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn’t make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel – the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon’s colorful characters – rock stars, hippies, murderers and politicians – happily coexisted alongside a covert military installation.

(Book). Bad Reputation is the unexpurgated story of Joan Jett, the single most exciting rocker of the American 1980s, one of the biggest-selling acts of the age, and one of punk rock's most valued elder statespeeps. Through its pages, a welter of exclusive interviews and observations paint what might well be the last great tale of rock hedonism, but one that comes with a twist in its tail. The rockers are women, the groupies are guys. It could have been the plot line for a movie or even a sitcom, but the Runaways, Jett's first band, made it happen, and Jett made it last. The first serious female rocker of the 1980s, Jett became the template for everyone that followed. But unlike so many of her peers and counterparts, she never lost her credibility, never sold out, and never gave up. And she has backed her reputation up with genuine star power, following the chart-topping "I Love Rock 'n' Roll" one of the most played '80s anthems of all time with "Crimson and Clover," "Do You Wanna Touch Me," and "I Hate Myself for Loving You" before the decade ended. And, while the 1990s saw Jett purposefully step away from the spotlight, she remained, and remains, America's number one Queen of Noise.

**While the growing field of scholarship on heavy metal music and its subcultures has produced excellent work on the sounds, scenes, and histories of heavy metal around the world, few works have included a study of gender and sexuality. This cutting-edge volume focuses on queer fans, performers, and spaces within the heavy metal sphere, and demonstrates the importance, pervasiveness, and subcultural significance of queerness to the heavy metal ethos. Heavy metal scholarship has until recently focused almost solely on the roles of heterosexual hypermasculinity and hyperfemininity in fans and performers. The dependence on that narrow dichotomy has limited heavy metal scholarship, resulting in poorly critiqued discussions of gender and sexuality that serve only to underpin the popular imagining of heavy metal as violent, homophobic and inherently masculine. This book queers heavy metal studies, bringing discussions of gender and sexuality in heavy metal out of that poorly theorized dichotomy. In this interdisciplinary work, the author connects new and existing scholarship with a strong ethnographic study of heavy metal's self-identified queer performers and fans in their own words, thus giving them a voice and offering an original and ground-breaking addition to scholarship on popular music, rock, and queer studies.**
