Gaby LeFevre is a suburban, Midwestern firecracker, growing up in the 80s and 90s and saving the world one homeless person, centenarian, and orphan at a time. With her crew of twin sister, Annie, smitten Mikhail, and frenemy Mel, she's a pamphlet-wielding humanitarian, tackling a broken world full of heroes and heroines, villains and magical seeds, and Northwyth stories. Beginning with a roadkill-burying nine-year-old and a gas-leak explosion, it follows Gaby as she traverses childhood and young adulthood with characteristic intensity and a penchant for disaster.

Meanwhile, the large cast of compelling characters entertains and the Northwyth legends draw you into their magic.

Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

Authors Cal Thomas and Ed Dobson once believed the best way to fight the 'liberal agenda' was to beat them at their own game. Mobilize voters. Organize boycotts. Get invited to the White House. And raise a ton of money to keep the war chest full. Not anymore. *Blinded by Might* takes you inside the early and heady days of the Moral Majority, tracing its well-intentioned but fatally flawed battle plan aimed at reversing America's slide into a moral wasteland. It shows how groups like the Christian Coalition, which stepped in when the Moral Majority ran out of steam, have not changed, cannot change, and will not change the trajectory of America's culture. Written by two conservative Christians who worked closely with Jerry Falwell in the 1980s, *Blinded by Might* explains what you can do for your country that twenty years of heavily financed political activism has failed to do. When Ronald Reagan won the 1980 presidential election by a landslide, conservative Christians discovered what could happen when they flexed their electoral muscles.

Suddenly, faith and politics seemed a promising match and before the eyes of the astonished media, a new movement called the Moral Majority and its leader, Jerry Falwell, rocketed from obscurity to national prominence. The Religious right was born. Today with luminaries including Pat Robertson, James Dobson, James Kennedy, and Ralph Reed, the right remains a powerful political force. Yet, despite nearly twenty years of vigorous and sophisticated activism, it has failed in its mission to end abortion, eliminate pornography, restore the shattered American family, and usher in a better world built on 'traditional values.' Why? Few know the answers better than Cal Thomas and Ed Dobson. Former insiders with the Moral Majority, they share never-reported information on a movement they helped shape in order to show why it could not and did not succeed. And they tell what it will really take to stem the ungodliness that is sweeping our nation. 'Whenever the church cozies up to political power, it loses sight of its all important mission to change the world from the inside out,' writes Thomas. In blurring the lines between politics and Christianity, the Religious Right has traded the only power that can truly change America - the Gospel's power to transform hearts - for the methods of a kingdom that is of this world. What, then, is the alternative? Given such critical issues as abortion, gay activism, are Christians to simply disengage from the political process? Hardly. uninvolved is not the answer, say the authors, but a

shift in perspective. As Christians, they insist we must realize that God's agenda does not rise or fall with political causes; and that we must rediscover our most potent influence is not the ballot booth, but lives that extend God's grace in the home, in the workplace, and in all spheres of our culture. Blinded by Might calls us to realign ourselves with a kingdom infinitely more powerful and certain than politics, that advances initially through changed hearts that inevitably must change and impart government.

When confronted with an ethical dilemma, most of us like to think we would stand up for our principles. But we are not as ethical as we think we are. In Blind Spots, leading business ethicists Max Bazerman and Ann Tenbrunsel examine the ways we overestimate our ability to do what is right and how we act unethically without meaning to. From the collapse of Enron

and corruption in the tobacco industry, to sales of the defective Ford Pinto, the downfall of Bernard Madoff, and the Challenger space shuttle disaster, the authors investigate the nature of ethical failures in the business world and beyond, and illustrate how we can become more ethical, bridging the gap between who we are and who we want to be. Explaining why traditional approaches to ethics don't work, the book considers how blind spots like ethical fading--the removal of ethics from the decision--making process--have led to tragedies and scandals such as the Challenger space shuttle disaster, steroid use in Major League Baseball, the crash in the financial markets, and the energy crisis. The authors demonstrate how ethical standards shift, how we neglect to notice and act on the unethical behavior of others, and how compliance initiatives can actually promote unethical behavior. They argue that scandals will continue to emerge unless such approaches take into account the psychology of individuals faced with ethical dilemmas. Distinguishing our "should self" (the person who knows what is correct) from our "want self" (the person who ends up making decisions), the authors point out ethical sinkholes that create questionable actions. Suggesting innovative individual and group tactics for improving human judgment, *Blind Spots* shows us how to secure a place for ethics in our workplaces, institutions, and daily lives.

It is written in Proverbs, "A beautiful woman who has no sense is like a gold ring in a pig's nose." This may be true but perhaps the greater tragedy is when those closest to her are also blinded by her beauty. This story, "Blinded by Beauty" is a tale of deception and heartache for Joseph, in which the ultimate place of sanctity - marriage - also becomes the very source of pain and sorrow. The former Marine becomes a cop, a father, a husband, a step-father, and ultimately a convicted felon because of the poor choices he makes in trusting the woman closest to him. The aftermath of the break-up of his first marriage and undiagnosed severe depression, PTSD, anxiety disorder, and OCD, leaves Joseph numb and desperate for a family. In this void he meets the beautiful Jezebel who seems to be the exact woman he has been looking for with a ready-made family he can bring his own son into. Blinded by her beauty and a fool for love, Joseph marries Jezebel when she falls pregnant with his child. But even before the nuptials, cracks begin to appear in their relationship. Jezebel is needy, self-harms, pulls a knife on him, bites him, and breaks his ankle. It is also clear she has numerous addictions such as caffeine, alcohol, pills and even a constant need for sex. When they finally marry, Joseph finds himself pulled into a web of lies and deceit that involve convicting her former partner on false charges of molesting her daughter. When it is revealed this partner is actually the son of her former husband, Joseph is horrified and starts to look for ways out of the marriage while still seeking to provide a home for their newborn daughter Paige and his stepchildren. Even though he is working as a police officer and saw how she had her former partner convicted, Joseph still has little idea just how far Jezebel can or will go to

cause him harm. Violent and unhinged, it's like she has a split personality, not allowing him to sleep after night shifts and resenting his own son so much his first wife takes out a court order to get permission to move to another state. As the depth of Jezebel's depravity and adultery becomes apparent, Joseph seeks comfort in another relationship sending Jezebel over the edge. But when she attacks him and he calls the police, they arrest him for assault. With his back up against a wall, Joseph finally serves Jezebel with divorce papers and she responds by reporting him to child welfare officers to have Paige taken away from him. Jezebel is in rehab at the time promising to change, but forms sexual relationships with men in the facility, and even the detective investigating the assault case. As the dream of having a loving family cracks, how will Joseph save himself and his daughter?

Iris recalls her far from exemplary life, and the events leading up to her sister’s death, gradually revealing the carefully guarded Chase family secrets. Among these is “The Blind Assassin,” a novel that earned the dead Laura Chase not only notoriety but also a devoted cult following. Sexually explicit for its time, it was a pulp fantasy improvised by two unnamed lovers who meet secretly in rented rooms and seedy cafés. As this novel-within-a-novel twists and turns through love and jealousy, self-sacrifice and betrayal, so does the real narrative, as both move closer to war and catastrophe. Margaret Atwood’s Booker Prize-winning sensation combines elements of gothic drama, romantic suspense, and science fiction fantasy in a spellbinding tale. *Waltzing Australia* was born out of a dream-and a journey. From Sydney to Perth, Tasmania to Darwin, tropics to desert, city to wilderness, Clampitt carries the reader along on an exhilarating grand tour of a fascinating country.
