Americans conceive of the process of political representation as operating like a "transmission belt." Elections convey citizens' preferences unchanged into the legislative assembly and thereby allow them to participate, through their representatives, in the political affairs of the nation. This conception stands firmly in the tradition of liberal thought, as does much theory about political representation. In that tradition, government is defined primarily in terms of power, and elections are little more than the means by which that power is transferred from the people to their representatives. In *The Blue Guitar* (the title alludes to a poem by Wallace Stevens), Nancy L. Schwartz offers a radically new understanding of representation. As she sees it, representatives should be—and, in the past, have been—more than mere delegates or trustees of individual desires and interests and the process of representation more than the appropriation of power and control. Ideally, representation should transform both representative and citizen. Representatives should be caretakers of the community, not the watchdogs of special interest groups or individuals. Citizens in turn should feel increased personal responsibility for the whole that membership in the community entails. Moreover, representatives should serve as founders of their constituencies, constituting communities whose members value citizenship as an end in itself. In her analysis, Schwartz canvasses the political experience of ancient, medieval, and Renaissance city-states to discover the communitarian meaning of citizenship, and she draws on classical political theory from Plato to Rousseau and Hegel, on the political sociology of Marx and Weber, and on such contemporary theorists as Arendt and Pitkin. Schwartz also enters the controversy over whether local, state, and national legislators should be selected by district or at-large elections. After examining a set of key Supreme Court cases on voting rights and district elections, she proposes that representatives come from single-member geographic districts.

Named one of the world's great blues-rock guitarists by Rolling Stone, Mike Bloomfield (1943–1981) remains beloved by fans nearly forty years after his untimely death. Taking readers backstage, onstage, and into the recording studio with this legendary virtuoso, David Dann tells the riveting stories behind Bloomfield's work in the seminal Paul Butterfield Blues Band and the mesmerizing Electric Flag, as well as the Super Session album with Al Kooper and Stephen Stills, Bob Dylan's Highway 61 Revisited, and soundtrack work with Peter Fonda and Jack Nicholson. In vivid chapters drawn from meticulous research, including more than seventy interviews with the musician's friends, relatives, and band members, music historian David Dann brings to life Bloomfield's worlds, from his comfortable upbringing in a Jewish family on Chicago's North Shore to the gritty taverns and raucous nightclubs where this self-taught guitarist helped transform the sound of contemporary blues and rock music. With scenes that are as electrifying as Bloomfield's music, this is the story of a life lived at full volume.

*John Banville, the Man Booker Prize-winning author of *The Sea* and *Ancient Light*, now gives us a new novel—at once trenchant, witty, and shattering—about the intricacies of artistic creation, about theft, and about the ways in which we learn to possess one another, and to hold on to ourselves. Equally self-aggrandizing and self-deprecating, our narrator, Oliver Otway Orme (“O O O. An absurdity. You could hang me over the door of a pawnshop”), is a painter of some renown and a petty thief who has never before been caught and steals only for pleasure. Both art and the art of thievery have been part of his “endless effort at possession,” but now he’s pushing fifty, feels like a hundred, and things have not been going so well. Having recognized the “man-killing crevasse” that exists between what he sees and any representation he might make of it, he has stopped painting. And his last act of thievery—the last time he felt its “secret shiver of bliss”—has been discovered. The fact that the purloined possession was the wife of the man who was, perhaps, his best friend has compelled him to run away—from his mistress, his home, his wife; from whatever remains of his impulse to paint; and from a tragedy that has long haunted him—and to sequester himself in the house where he was born. Trying to uncover in himself the answer to how and why things have turned out as they have, excavating memories of family, of places he has called home, and of the way he has apprehended the world around him (“one of my eyes is forever turning towards the world beyond”), Olly reveals the very essence of a man who, in some way, has always been waiting to be rescued from himself.*
