Smugglers and Saints of the Sahara describes life on and around the contemporary border between Algeria and Mali, exploring current developments in a broad historical and

In a book that is "a must for anyone who has

Pierson captures in
vivid, writerly prose
the mysterious
attractions of
motorcycling. She sifts

through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a

mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts-the beginnings of the machine, the often hidden tradition

of women who ride, the tale of the defiant ones who taunt death on the racetrack-are intertwined with Pierson's own story, which, in itself, shows

that although you may think you know what kind of person rides a motorcycle, you probably don't.

that accompanied Rommel ' s Panzers in North Africa; the Earles-forked R69S that offered the perfect platform for mounting a Steib sidecar; the R90S café racer; the K1 “ flying brick ” ; and the GS (Gelände

helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes

silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in

balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering

the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are
