**Bringing together a range of leading academics and experts on social democratic politics and policy, Why the Left Loses offers an international, comparative view of the changing political landscape, examining the degree to which the centre-left project is exhausted and is able to renew its message in a neo-liberal age.**

**"This book will provide a complete and easy-to-understand reference for the growing band of people wishing to keep their own chickens for both food and pleasure. Pitched at the novice but also containing plenty to interest the experienced chicken-keeper, the book will contain no-nonsense advice, tips, facts and step-by step sequences, as well as plenty of relevant photographs and diagrams. As more people keep chickens nowadays than at any time since the Second World War, this book is a timely addition to the Haynes range."--Publisher description.**

**A collection of recipes, some already published in 300 best comfort food recipes. “Virginia’s recipes are useful for every home cook, and offer a plateful of Southern comfort . . . All this makes for good cooking and reading.”—Nathalie Dupree, author, TV personality, and James Beard Award winner In Secrets of the Southern Table, award-winning chef and cookbook author Virginia Willis takes you on a tour of today’s South—a region rich in history and cultural diversity. With her signature charm and wit, Virginia shares many well-known Southern recipes like Pimento Cheese Tomato Herb Pie and “Cathead” Biscuits, but also some surprising revelations drawn from the area’s many global influences, like Catfish Tacos with Avocado Crema, Mississippi-Style Char Siu Pork Tenderloin, and Greek Okra and Tomatoes. In addition to the recipes, Virginia profiles some of the diverse chefs, farmers, and other culinary influencers who are shaping contemporary Southern cuisine. Together, these stories and the delicious**

decentralization implies a critique of past governing patterns, the emphasis is on such potential consequences of governmental change as the strengthening of democratic participation in government and the improvement of local public service. The book draws upon institutional experiments carried out at the state level to examine which decentralization strategies work best in Latin America. It is organized around three major requirements for the success of decentralization: \* Establishing the national fiscal framework \* Moving government closer to the people \* Improving municipal service delivery. Tables illustrate the shift of revenues and expenditures from central authorities to intermediate levels of government.

*Is there a place for personal beliefs in public life? Is a Catholic health minister in a fit position to legislate on women's issues such as the right to an abortion pill? When the prime minister invokes church leaders' support in going to war with Iraq - and those church leaders tacitly approve this - is there a moral issue at stake? In Acting on Conscience Jesuit priest, human rights lawyer and academic Frank Brennan tackles these issues head on. He explores some of the legal, moral and ethical issues that capture the public imagination - and critically examine the figures in public life who pass judgement on them. Issues covered include: The War in Iraq Same-sex marriage and parenting Late-term abortion Politics and the judiciary Through detailed analysis of examples from both Australia and the US, Brennan asks: Is there a place for personal beliefs in public life? As citizens and voters, how can we ensure that in the future, our leaders will speak for us - but not out of turn? In an age of fear and bigotry here is a welcome book of courage and conscience.'*

The most comprehensive guide to date on raising all-natural poultry for the small-scale farmer, homesteader, and professional grower. The Small-Scale Poultry Flock offers a practical and integrative model for working with chickens and other domestic fowl, based entirely on natural systems. Readers will find information on growing (and sourcing) feed on a small scale, brooding (and breeding) at home, and using poultry as insect and weed managers in the garden and orchard. Ussery's model presents an entirely sustainable system that can be adapted and utilized in a variety of scales, and will prove invaluable for beginner homesteaders, growers looking to incorporate poultry into their farm, or poultry farmers seeking to close their loop. Ussery offers extensive information on: The definition of an integrated poultry flock (imitation of natural systems, integrating patterns, and closing the circle) Everything you need to know about your basic chicken (including distinctive points about anatomy and behavior that are critical to management) Extended information on poultry health and holistic health care, with a focus on prevention Planning your flock (flock size, choosing breeds, fowl useful for egg vs. meat production, sourcing stock) How to breed and brood the flock (including breeding for genetic conservation), including the most complete guide to working with broody hens available anywhere Making and mixing your own feed (with tips on equipment, storage, basic ingredients, technique, grinding and mixing) Providing more of the flock's feed from sources grown or self-foraged on the homestead or farm, including production of live protein feeds using earthworms and soldier grubs Using poultry to increase soil fertility, control crop damaging insects, and to make compost-including systems for pasturing and for tillage of cover crops and weeds Recipes for great egg and poultry dishes (including Ussery's famous chicken stock!) And one of the best step-by-step poultry butchering guides available, complete with extensive illustrative photos. No other book on raising poultry takes an entirely whole-systems approach, or discusses producing homegrown feed and breeding in
