Banned in many Arab countries and where it was not, an instant bestseller, The Proof of the Honey is a superb celebration of female pleasure—a tribute to sex, eroticism, language and liberty. “I conjure bodies,” claims the narrator of this daring novel. “I have no knowledge of my soul or of the souls of others. I know only my body and theirs. Which is enough for me.” She is a Syrian scholar working in a research library in Paris. An invitation to contribute to a conference on the subject of classic erotic literature in Arabic provides occasion for her to evoke memories from her own life, to exult in her personal liberty, her lovers, her desires, and to revisit moments of shared intimacy with other women as they discuss life, love, and sexual desire. Far more than an erotic novel, The Proof of the Honey offers a surprising and illuminating glimpse into the realities of contemporary Arab societies. It is likewise a voyage through the history of Arabic literature: borrowing inspiration from The Thousand and One Nights, erudite asides are woven into the fabric of the protagonist’s story and the stories of her lovers. Affirming that “Arabic is the language of sex,” and making desire the source of her own personal liberty, Al Neimi has written a stirring novel about the place afforded sex in modern Arabic society and its relationship to the long, rich tradition of Arabic erotica.

This report takes a broad view of the link between work and human development. Work is a critical tool for economic growth and security, poverty reduction and gender equality. It enables full participation in society while affording people a sense of dignity and worth. Humans working together not only increase their material well-being, they also accumulate a wide body of knowledge that serves as the basis for cultures and civilizations. The report finds that work enhances human development when policies are taken to expand productive, remunerative and satisfying work opportunities. Workers’ skills and potentials are enhanced, their well-being in terms of rights, safety and benefits are ensured with targeted interventions, and an agenda incorporating decent work, a new Social Contract and a Global Deal is pursued.

This book examines significant issues in geography teaching and learning from the perspectives of an international network of academic geographers and postgraduate students. Drawing on classroom experiences and research in a wide variety of educational settings, the authors describe conceptually interesting and practical applications for enhancing student learning through problem-based learning, field study, online collaboration, and other highly engaging forms of pedagogy. Other articles focus on approaches for improving the experiences of distance learners, strategies for enhancing the employability of geography students, and preparing students to engage ethical issues in the discipline. An international audience of educators will find this book valuable through the use of comparative examples, literature reviews encompassing research in multiple national contexts, and an underlying awareness of the diversity of practices in higher education internationally. This book is a collection of articles previously published in two special issues of the Journal of Geography in Higher Education.

The Pandemic of Padre Pio Disciple of Our Lady of Sorrows

Hasan, the local imam's son, has the strange ability to smell a menstruating woman among a thousand others. This helps him classify members of the opposite sex with whom he has little contact until the day he has a brief affair with a married woman. This sexual initiation irrevocably transforms him and shakes his entire system of beliefs. Hasan no longer knows what to believe in nor who he is, he just knows he has to avoid the marriage his father has arranged for him. Hasan's story runs in tandem with Wisam's, a friend of his sister's, who is unhappily married and having her first lesbian relationship. Her sense of alienation from her husband, her frustration and her newfound sexuality echo Hasan's questions about religion, identity and sexuality. Hasan and Wisam will both experience frustration, doubts and ultimately liberation in different ways. Their previously held notions about religion and sexuality are dramatically shaped by their new experiences and the influence of Nadim and Kindah, the progressive intellectuals who help them formulate a new worldview. Abdulhamid's daring debut novel explores contemporary themes related to sexuality, self-realization and repression within a conservative religious framework and the ways people are able to reconcile themselves with a changing world. 'Going out on a limb almost comes naturally for Ammar Abdulhamid ... he is one of Syria's daring modernizers.' -- Washington Post 'Set in contemporary Damascus, Ammar Abdulhamid's debut novel is going to upset people. Its title, Menstruation, leaves readers in no doubt that Abdulhamid is not about to pull any punches when it comes to taboo subjects. Clearly a reaction to repression in itself, the novel looks at the effect of conservative values on society, particularly the young.' -- Cairo Times
