Even if the lunatics of the Consortium have gone underground along with their leader, the cold-blooded Faline, Reece and Emma

know the criminals could resurface at any time and threaten everything about the new life they're building together. But secrets take on new meanings when a night of glamour and celebration exposes old wounds—and new dangers. When Reece uncovers evidence that there may be a connection between his family and the Consortium's insane experiments, his quest for answers leads him, Emma, and the rest of Team Bolt to Paris. In the City of Light, truths are exposed and a trap is set, leading to a clash in the city's caverns that permanently alters everything for Reece and Emma—and reveals that no superpower on earth is more potent than the pulse of their true love.

**A WAR FOR THE SOUL OF DETROIT.** Elena Abbott is one of Detroit's toughest reporters—and after defeating the dark forces that murdered her husband, she's focused on the most important election in the city's history. But when someone uses dark magic to sabotage the campaign of the prospective first Black mayor of Detroit, it becomes clear to Abbott that the supernatural conspiracy in her city is even greater than she ever imagined. Now Abbott must exhaust all her abilities as a reporter and a supernatural savior to rescue Detroit—but at what cost to her own life?

In this first book of a trilogy, see an Earth-like planet and its population shaped by I AM (God) to perform a special task. I AM, An Alternate Saga of Biblical Proportions takes readers to a world where some very bad things happen, as a determined I AM shapes mankind into the most ruthless of warriors. Who better than Humans to wage war upon the Empire of Satan?

Meet the players: Clan MacLee who rebuilds their community after a devastating flood; the evil Order of Ra who control the world by shaping its leaders with drugs and debauchery; and the Sisters of the Khan, whose ancient sorority dictates all large-scale farming. The primary sport is long-boat rowing, which develops the huge powerful shoulders needed to perform I AM's task. It also ties up a large portion of the world's economy in wagering on races. The tale is an oral history being recited four thousand years into the future. The students hearing it are Cactus Monkeys, one of the original sentient species inhabiting this planet. Be aware of this novel's violence, sensuality, and religious controversy. About the Author: Galen H. Mullis is a native New Mexican, Navy veteran, thespian, avid balloonist, and Jack of all trades. "Lying in the hospital trying to survive a major heart attack, I was granted a vision of this wondrous story. I sat in amazement as words flowed from my fingertips. This story was truly inspired by something beyond my humble understanding of the universe." Publisher's website: <http://sbpra.com/galenhmullis>

"Chippendale's . . . obsessively detailed [comics] feel like [they've] been shot straight from his brain onto the page." -Village Voice

Puke Force is social satire written dark and dense across Brian Chippendale's deconstructed multiverse of walking, talking M&Ms, hamsters, and cycloptic-yet-glamorous trivia hosts. In scathingly funny single-page strips that build and build, he takes on social media narcissism, governmental propaganda, racism, and a culture of violence,

skewering the malice of the right and the hypocrisies of the left. A bomb explodes in a coffee shop: the incident is played out over and over again from the perspective of each table in the shop, revisiting moments from ten and twenty years before. We see the inevitable as the characters bicker or celebrate, unaware of what's coming. Throughout this dystopic graphic novel, Chippendale uses humor and a frantic drawing style to show how the insidious nature of corporate greed and the commodification of everything have warped society into a killing machine. Sardonic and self-aware, Puke Force asks all the right questions, providing a startling and on-point take on contemporary social issues. Chippendale's artwork makes each panel a masterpiece of thrumming linework and lo-fi magic, as his storytelling wends and winds its way to a fascinating conclusion.

What many of us do not realize is that Franklin used this breakthrough in his day's intensely competitive field of electrical science to embarrass his French and English rivals. His kite experiment was an international event and the Franklin that it presented to the world—a homespun, rural philosopher-scientist performing an immensely important and dangerous experiment with a child's toy—became the Franklin of myth. In fact, this sly presentation on Franklin's part so charmed the French that he became an irresistible celebrity when he traveled there during the American Revolution. The crowds and the journalists, and the ladies, cajoled the French powers into joining us in our fight against the British. What no one has successfully proven until now—and what few have suggested—is that Franklin never flew the kite at all. Benjamin Franklin was an enthusiastic hoaxer. And with the electric kite, he performed his greatest hoax. As Tucker shows, it was this trick that may have won the American Revolution.**

Each book is a freestanding work that relies on the others but can be read independently. In Book One, we find out that Galanor is the last in an ancient line of humanoids who had found their way to Earth thousands of years earlier. They were an exceptional race of creatures and established outposts in various parts of the primeval Earth. One of those places was Atlantis. Raised as an orphan by a man of extraordinary skill and wisdom, he amasses great wealth and prominence. The book opens with him standing at the site of his mentor's funeral pyre, alone and forlorn. He vows revenge on the entity whose agents caused his friend's death. As the book unfolds he finds out that he is not an orphan; that his father is the Atlantean High Priest and head of the ruling elite. Their first meeting doesn't go very well; but love and patience win out. Father and son are ultimately reconciled; but, not soon enough. Atlantis is doomed; and Galanor must watch as his

new found father, is taken from him by the forces of nature and the demands of the universe. Book two finds Galanor at the helm of a might Atlantean warship: The Salafar. It opens with them docking in port city, in kingdom controlled by the most foul and corrupt of rulers. After taking decisive revenge for the brutal murder one of his most trusted and loyal comrades, he and his crew are pursued to an island where he engages the enemy fleet. During the heat of the battle he is approached by two corrupt and destructive forces: a wizard who promises him a prize of great value in exchange for his assistance; and the incarnation of the demon (Azool) whom he has vowed to destroy. Following the victorious outcome of the battle, the demon takes residence in his soul, sending him into a deep coma. His crew, under the sway of the wizard. Decide to sail to an island where, presumably, a great treasure resides. Galanor escapes Azool's coma; rescues his crew; discovers the "treasure" is, in fact an ancient map, leading to an island at the top of the world; an island the existence of which had been erased from human memory a thousand generations before; an island that is his ancestral home, and site of the city built and inhabited by those who first discovered this planet. Once there, he discovers a portal to a realm between realities. Book three, finds Galanor entering the portal and slipping into that interim realm. There, he meets the specters who are it's sole inhabitants.

They explain something of his lineage and of their plight. They want to ask for his help but feel it would mean his doom. He accepts the challenge, knowing full well that he will not survive. With that he passes into the next realm. It is a realm that exist as the so creation and province of a mad god; and god he has sworn to kill. It is here that Galanor meets the woman the fates have created to be his life mate, Kara-Ma-Nea. She is a strong, skilled and dedicated warrior; a guardian of the borders of her homeland; and heir to an ancient lineage. She is also the most beautiful woman he has ever seen. Their loves develops and grows, as he is stricken blind while fighting bat-like creatures in her defense; and she risks everything to save him. In time, she takes him to the mountain retreat of the god whose will sustains her world. He climbs the mountain; encounters the god (whom he discovers is another of his ancestors); and slays him, only to discover that his soul had become a refuge for the the demon-god, Azool. During their exchange, Galanor learns many things about his true nature; things that are to unimaginitive for him to accept. He slays Azool (or so he thinks), and discovers that a grey mist is sweeping over the world. It is destroying everything. In killing the god, who was the substance supporting this reality, he has doomed an entire universe, including Kara. He tries to save her, but can't. He returns to his world a broken and self destructive

man. He has to live with the fact that he was responsible for death on an unprecedented scale; and that he taken the life of the only woman he will ever love.
