A rhyme for each letter of the alphabet describes the misbehavior of a child, from Angry Abby to Zany Zelda.

Lej is five years old. There are a lot of great things about being five: your siblings can't call you a toddler anymore, you're taller than you were before, and you even get to throw a big party in celebration of your birthday! There are some not-so-great things about being five, too. Like kindergarten. Kindergarten is at the big kid school that Lej's brother and sister go to, and they always have homework and aren't allowed to play outside whenever they want to, like you can in preschool. Lucky for Lej, his friends Pete and Abe are going to kindergarten, too. But when Lej arrives, he doesn't always listen to the adults in charge. Instead, he runs around his classroom and does things he knows he shouldn't do, just because Pete and Abe tell him to. One day, Lej's bad behavior catches up with him, as he overhears his mom talking to someone on the phone. Did she just say, "Naughty Boys Camp?!" Then suddenly, as if by magic, the picture Lej is drawing comes to life, sucking him into Naughty Boys Camp. Is it really as bad as they say it is there? Do the boys really have to eat broccoli for breakfast and scoop poop on the farm? Please say this is all just a dream! Follow Lej as he learns the hard way that listening to the adults in charge maybe isn't so bad after all, and that true friends are the people who help you to be the best person you can be!

In this wonderfully inventive book, Bella is taking her dog for a stroll

across the page but halfway across, he disappears! Unable to quite believe what's just happened Bella watches, transfixed, with changing emotions of surprise, indignation, moments of renewed hope (as the authorities arrive to take control) followed by shock (as they too succumb to the book's inexplicable behaviour) and finally action when Bella marches toward the dangerous middle of the book . . . only to disappear herself! At this point, the book has consumed its characters and it's down to the reader to step in to help. A note from Bella appears directly appealing for assistance and, with a rigorous shake, the characters reappear. Normality is restored and Bella is finally able to take her dog for an uninterrupted walk . . . or is she?!

Constance thinks that her parents are evil, so she runs away with her beloved cat Tiny.

Through the eyes of children, we see life beautifully and magically. I's of Autism was divinely created to highlight the exceptionality of children with autism. It will encourage and empower the children, families, and anyone who reads the book. Although it may have an intended audience, I hope it opens the eyes of the world. The book includes vivid full-color photographs of children's eyes accompanied by an affirmation. Each set of eyes will have an affirmation that begins with "I am..." If your eyes were captured, what would they tell the world? Would your eyes display resiliency or a caring spirit? Would your eyes

display power or a courageous heart? As William Shakespeare eloquently stated, "The eyes are a window to the soul."
