MOST ANTICIPATED by Bustle • "Sci-Fi Thriller" recommendation from BuzzFeed • An Indie Next Pick In this stunning follow-up to *Hollow Kingdom* and *Seattle Times/Pacific Northwest Booksellers Association* bestseller, the animal kingdom's "favorite apocalyptic hero" is back with a renewed sense of hope for humanity, ready to take on a world ravaged by a viral pandemic (Helen Macdonald). Once upon an apocalypse, there lived an obscenely handsome American crow named S.T. . . . When the world last checked-in with its favorite Cheeto addict, the planet had been overrun by flesh-hungry beasts, and nature had started re-claiming her territory from humankind. S.T., the intrepid crow, alongside his bloodhound-bestie Dennis, had set about saving pets that had become trapped in their homes after humanity went the way of the dodo. That is, dear reader, until S.T. stumbled upon something so rare—and so precious—that he vowed to do everything in his power to safeguard what could, quite literally, be humanity's last hope for survival. But in a wild world plagued by prejudiced animals, feather-raising environments, new threats so terrifying they make zombies look like baby bunnies, and a horrendous dearth of cheesy snacks, what's a crow to do? Why, wing it on another big-hearted, death-defying adventure, that's what! Joined by a fabulous new cast of animal characters, S.T. faces many new challenges plus his biggest one yet: parenthood. A finalist for the 2020 Thurber Prize for American Humor! "The Secret Life of Pets meets The Walking Dead" in this big-hearted, boundless beautiful romp through the Apocalypse, where a foul-mouthed crow is humanity's only chance to survive Seattle's zombie problem (Karen Fowler, PEN/Faulkner Award-winning author). S.T., a domesticated crow, is a bird of simple pleasures: hanging out with his owner Big Jim, trading insults with Seattle's wild crows (i.e. "those idiots"), and enjoying the finest food humankind has to offer: Cheetos ®. But when Jim's eyeball falls out of his head, S.T. starts to think something's not quite right. His tried-and-true remedies—from beak-delivered beer to the slobbering affection of Big Jim's loyal but dim-witted dog, Dennis—fail to cure Big Jim's debilitating malady. S.T. is left with no choice but to abandon his old life and venture out into a wild and frightening new world with his trusty steed Dennis, where he suddenly discovers that his neighbors are devouring one another. Local wildlife is abuzz with rumors of Seattle's dangerous new predators. Humanity's extinction has seemingly arrived, and the only one determined to save it is a cowardly crow whose only knowledge of the world comes from TV. What possibly go wrong? Includes a Reading Group Guide.

As the bushfire goes out of control, Kira makes a disturbing discovery. Should she keep her mouth shut--or tell a painful truth?

"Elizabeth Dulemba seamlessly melds a coming-of-age story to the reality of life in a single-industry town. This is a book that sings." - Betsy Bird, School Library Journal blog A Fuse #8 Production Living in Coppertown is like living on the moon. Everything is bare--there are no trees, no birds, no signs of nature at all. And while Jack loves his town, he hates the dangerous mines that have ruined the land with years of pollution. When the miners go on strike and the mines are forced to close, Jack's life-long wish comes true: the land has the chance to heal. But not everyone in town is happy about the change.

Without the mines, Jack's dad is out of work and the family might have to leave Coppertown. Just when new life begins to creep back into town, Jack might lose his friends, his home, and everything he's ever known. Dulemba paints a vivid picture of life in the Appalachia in this beautiful story about a boy looking for new beginnings while struggling to hold on to the things he loves most.

Piper has always been told that she needs to compensate for her Deafness in a world made for those who can hear. But when she meets Marley, a new world opens up—one where Deafness is something to celebrate, and where resilience means taking action, building a com-munity, and believing in something better. Raised on a flower farm in California, Sumiko is used to being the only Japanese girl in her class. Even when the other kids tease her, she always has had her flowers and family to go home to. That all changes after the horrific events of Pearl Harbor. Other Americans start to suspect that all Japanese people are spies for the emperor, even if, like Sumiko, they were born in the United States! As suspicions grow, Sumiko and her family find themselves being shipped to an internment camp in one of the hottest deserts in the United States. The vivid color of her previous life is gone forever, and now dust storms regularly choke the sky and seep into every crack of the military barrack that is her new "home." Sumiko soon discovers that the camp is on an Indian reservation and that the Japanese are as unwanted there as they'd been at home. But then she meets a young Mohave boy who might just become her first real friend...if he can ever stop being angry about the fact that the internment camp is on his tribe's land. With searing insight and clarity, Newbery Medal-winning author Cynthia Kadohata explores an important and painful topic through the eyes of a young girl who yearns to belong. *Weedflower* is the story of the rewards and challenges of a friendship across the racial divide, as well as the based-on-real-life story of how the meeting of Japanese Americans and Native Americans changed the future of both.

While growing up in Versailles, an Indiana farm community, Linda Furiya tried to balance the outside world of Midwestern America with the Japanese traditions of her home life. As the only Asian family in a tiny township, Furiya's life revolved around Japanese food and the extraordinary lengths her parents went to in order to gather the ingredients needed to prepare it. As immigrants, her parents approached the challenges of living in America, and maintaining their Japanese diets, with optimism and gusto. Furiya, meanwhile, was acutely aware of how food set her apart from her peers: She spent her first day of school hiding in the girls' restroom, examining her rice balls and chopsticks, and longing for a Peanut Butter and Jelly sandwich. Bento Box in the Heartland is an insightful and reflective coming-of-age tale. Beautifully written, each chapter is accompanied by a family recipe of mouth-watering Japanese comfort food.

As a child, Madden lived a life of extravagance, from her exclusive private school to her equestrian trophies and designer shoe-brand name. But under the surface was a wild instability. The only child of parents continually battling drug and alcohol addictions, Madden confronted her environment alone. Facing a culture of assault and objectification, she found lifelines in the desperately loving friendships of fatherless girls. With unflinching honesty and lyrical prose, spanning from 1960s Hawai'i to the present-day struggle of a young woman mourning the loss of a father while unearthing truths that reframe her reality, Long Live the Tribe of Fatherless Girls is equal parts eulogy and love letter. It's a story about trauma and forgiveness, about families of blood and affinity, both lost and found, unmade and rebuilt, crooked and beautiful. "My mother had four daughters by four different men." There's only one way Shelby and her sisters can describe their mother: She's a sexpot. Helen Kimura collects men (and loans, spending money, and gifts of all kinds) from all over the country. Sure, she's not your typical role model, but she's also not just a pretty face and nail polish. She is confident and brave; she lives life on her own terms, and her four daughters simply adore her. These girls have been raised outside the traditional boundaries. They know how to take the back exit. They know how to dodge crazed lovers in highway car chases. They do not, however, know how to function without one another. Then suddenly they must. A late-night phone call unexpectedly shreds the family apart, catapulting the girls across the country to live with their respective fathers. But these strong-willed sisters are, like their mother, determined to live life on their own terms, and what they do to pull their family back together is nothing short of beautiful. At turns wickedly funny and insistently thought-provoking, Outside Beauty showcases Cynthia Kadohata's unerring ability to explore the bonds that bind.

CRACKER IS ONE OF THE UNITED STATES ARMY'S MOST VALUABLE WEAPONS: a German shepherd trained to sniff out bombs, traps, and the enemy. The fate of entire platoons rests on her keen sense of smell. She's a Big Deal, and she likes it that way. Sometimes Cracker remembers when she was younger, and her previous owner would feed her hot dogs and let her sleep in his bed. That was nice, too. Rick Hanski is headed to Vietnam. There, he's going to whip the world and prove to his family and his sergeant -- and everyone else who didn't think he was cut out for war -- wrong. But sometimes Rick can't help but wonder that maybe everyone else is right. Maybe he should have just stayed at home and worked in his dad's hardware store. When Cracker is paired with Rick, she isn't so sure about this new owner. He's going to have to prove himself to her before she's going to prove herself to him. They need to be friends before they can be a team, and they have to be a team if they want to get home alive. Told in part through the uncanny point of view of a German shepherd, Cracker! is an action-packed glimpse into the Vietnam War as seen through the eyes of a dog and her handler. It's an utterly unique powerhouse of a book by the Newbery Medal-winning author of Kira-Kira.

Twelve-year-old Hanako and her family, reeling from their confinement in an internment camp, renounce their American citizenship to move to Hiroshima, a city devastated by the atomic bomb dropped by Americans.

Naked. Yea I know what you're thinking. But its not that kind of naked. Think bare. Completely emotionally and mentally exposed for the entire world to see. Nothing to hide only stories to tell through poetry. Step into my naked world.

Despite the claim by many Christian leaders that the pro-life/antiabortion position is the only faithful response to the debate about reproductive rights, many people of faith find themselves in a murky middle of this supposedly black-and-white issue. Christians who are pro-abortion rights are rarely pro-abortion. However, they view the decision to carry a pregnancy to term as one to be made by the woman, her medical team, her family, or personal counsel rather than by politicians. Pro-Choice and Christian explores the biblical, theological, political, and medical aspects of the debate in order to provide a thoughtful Christian argument for a pro-choice position with regard to abortion issues. Kira Schlesinger considers relevant Scriptures, the politics of abortion in the United States, and the human realities making abortion a vital issue of justice and compassion. By examining choice from a Christian perspective, Schlesinger provides a common

vocabulary for discussing faith and reproductive rights.

Raw but relatable, 'The Soul in the Mirror' is a collection of poetry, which takes readers on an intimate journey through self-discovery. Deeply vulnerable, it sheds light on the shadow of a past, breaks down heartache that haunts, and dismantles anxiety's grip in resolve to find peace within. Romantic but bold, it takes stock of the past, meditates on the present, and pursues a future enriched with passion. It speaks to new beginnings, society's unreliable rule book, mental health, and listening to heart's intuition. Experiences of anxiety, depression, fear, femininity found, and strength in rising up are witnessed in the journey to become. Lost but found through the very nature of writing, it's a reunion between the soul, mind, body, and one's own reflection.

When you control minds, only your heart can be used against you. Eight months ago, Kira Moore revealed to the mindreading world that mindjackers like herself were hidden in their midst. Now she wonders if telling the truth was the right choice. As wild rumors spread, a powerful anti-jacker politician capitalizes on mindreaders' fears and strips jackers of their rights. While some jackers flee to Jackertown—a slum rife with jackworkers who trade mind control favors for cash—Kira and her family hide from the readers who fear her and jackers who hate her. But when a jacker Clan member makes Kira's boyfriend Raf collapse in her arms, Kira is forced to save the people she loves by facing the thing she fears most: FBI agent Kestrel and his experimental torture chamber for jackers.
