This first book-length analysis of Amazon's Kindle explores the platform's technological, bibliographical, and social impact on publishing. Four Shades of Gray offers the first book-length analysis of Amazon's Kindle and its impact on publishing. Simon Peter Rowberry recounts how Amazon built the infrastructure for a new generation of digital publications, then considers the consequences of having a single company control the direction of the publishing industry. Exploring the platform from the perspectives of technologists, texts, and users, he shows how the Kindle challenges traditional notions of platforms as discrete entities. He argues that Amazon's influence extends beyond "disruptive technology" to embed itself in all aspects of the publishing trade; yet despite industry pushback, he says, the Kindle has had a positive influence on publishing. Rowberry documents the first decade of the Kindle with case studies of Kindle Popular Highlights, an account of the digitization of books published after 1922, and a discussion of how Amazon's patent filings reflect a shift in priorities. Rowberry argues that while it was initially conceived for the book trade to outsource ebook development to Amazon, doing so has had adverse consequences for publishers in the mid- and long term, limiting opportunities for developing an inclusive and forward-thinking digital platform. This is his forecast for the Kindle has also emerged as a new paradigm for intellectual property. Although it still too early to judge the long-term impact of ebooks compared with that of the older technologies of clay tablets, the printing press, and offset printing, the shockwaves of the Kindle continue to shape publishing.

The first novel from the acclaimed author of *The Great Believers* "Rarely is a first novel as smart and engaging and learned and funny and moving as *The Borrower*." —Richard Russo, author of *Pulitzer Prize-winning Empire Falls* Lucy Hull, a children's librarian in Hannibal, Missouri, finds herself both kidnapper and kidnapped when her favorite patron, ten-year-old Ian Drake, runs away from home. Ian needs Lucy's help to smuggle books past his overbearing mother, who has enrolled Ian in weekly antigay classes. Desperate to save him from the Drakes, Lucy allows herself to be hijacked by Ian when she finds him camped out in the library after hours, and the odd pair embarks on a crazy road trip. But is it just Ian who is running away? And should Lucy be trying to save a boy from his own parents? This book provides a comprehensive review of all the question types, concepts, and skills covered on the Reading portion of the redesigned SAT.

We've all been there: stuck in a cycle of what-ifs, plagued by indecision, paralyzed by the fear of getting it wrong. Nobody wants to live a life of constant overthinking, but it doesn't feel like something we can choose to stop doing. It feels like something we're wired to do, something we just can't escape. But is it? Anne Bogel's answer is no. Not only can you overcome negative thought patterns that are repetitive, unhelpful, and unproductive, you can also learn how to put what you've learned into practice. *Choosing to See* challenges readers to change their thinking about the future in each chapter, so that you can become more proactive in your own life. In *Don't Overthink It*, you'll find actionable strategies that can make an immediate and lasting difference in how you deal with questions both small—Should I buy these flowers?—and large—What am I doing with my life? More than a book about making good decisions, *Don't*

Overthink It offers you a framework for making choices you'll be comfortable with, using an appropriate amount of energy, freeing you to focus on all the other stuff that matters in life.

"A free-wheeling vehicle . . . an unforgettable ride!"—The New York Times Cat's Cradle is Kurt Vonnegut's satirical commentary on modern man and his madness. An apocalyptic tale of this planet's ultimate fate, it features a midgest as the protagonist, a complete, original theology created by a calypso singer, and a vision of the future that is at once bleakly fatalistic and hilariously funny. A book that left an indelible mark on an entire generation of readers, Cat's Cradle is one of the twentieth century's most important works—and Vonnegut at his very best. "[Vonnegut is] an unmitigated and inimitable social satirist."—Harper's Magazine "Our finest black-humorist . . . We laugh in self-defense."—Atlantic Monthly

"This funny and fresh take on a classic tale manages to comment on gender roles, racial disparities, and white privilege all while creeping me all the way out. So good." —Zakiya Dailia Harris, author of *The Other Black Girl* Now in paperback, *Steel Magnolias* meets *Dracula* in this New York Times best-selling horror novel about a women's book club that must do battle with a mysterious newcomer to their small Southern town. Bonus features: * Reading group guide for book clubs * Hand-drawn map of M. Pleasant * Annotated true-crime reading list by Grady Hendrix * And more! Patricia Campbell's life has never felt smaller. Her husband is a workaholic, her teenage kids have their own lives, her senile mother-in-law needs constant care, and she's always a step behind on her endless to-do list. The only thing keeping her sane is her book club, a close-knit group of Charleston women united by their love of true crime. At these meetings they're as likely to talk about the Manson family as they are about their own families. One evening after book club, Patricia is viciously attacked by an elderly neighbor, bringing the neighbor's handsome nephew, James Harris, into her life. James is well traveled and well read, and he makes Patricia feel things she hasn't felt in years. But when children on the other side of town go missing, their deaths written off by local police, Patricia has reason to believe James Harris is more of a Bundy than a Brad Pitt. The real problem? James is a monster of a different kind—and Patricia has already invited him in. Little by little, James will insinuate himself into Patricia's life and try to take everything she took for granted—including the book club—but she won't surrender without a fight in this blood-soaked tale of neighborly kindness gone wrong.

In Reading in the Wild, reading expert Donalyn Miller continues the conversation that began in her bestselling book, The Book Whisperer. While The Book Whisperer revealed the secrets of getting students to love reading, Reading in the Wild, written with reading teacher Susan Kelley, describes how to truly instill lifelong "wild" reading habits in our students. Based, in part, on survey responses from adult readers as well as students, Reading in the Wild offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of Education Week and Teacher magazine, Reading in the Wild is packed with ideas for helping students build capacity for a lifetime of "wild" reading. In other words, Donalyn Miller has solved one of the central problems in language education." —Stephen Krashen, professor emeritus, University of Southern California
