Auto-Urine Therapy known as “Shivambu” is an ancient method of treatment, which has been continuing from generation to generation. In the ancient days, many sages and rishimunis followed and practiced urine therapy. Lord Shiva himself recommended the action and ritual of Shivambu Kalpa to Mother Parvati mentioned in ancient book Damar Tantra. The powerful practice for healing, Auto-Urine Therapy, has been referred to as “Shivambu Kalpa Vidhi” in 5000-year-old documents called Damar Tantra in the Vedas. God has given a wonderful gift to man, his own water - Shivambu. Shiv means beneficial and salubrious, and Ambu means water. The combined Sanskrit word is Shivambu (beneficial water). They termed Shivambu as the holy liquid. This book is published to enlighten everyone who is diagnosed with cancer to adopt Urine Therapy before going for surgery or chemotherapy. It is safe and does not have any side effects. It can prevent and control/cure cancer. It is free of cost and can be practiced at home. People living with diabetes can cure diabetes by adopting Urine Therapy.

Understanding The Benefits Of Urine Therapy includes many case histories of people who have successfully treated their ailments with urine, along with cogent explanations of why urine does what it does, how to ensure that the wastes flushed out with your urine aren't taken back in, and why urine may be the best tonic available for your immune system. In addition to protocols for using urine to treat a wide array of diseases, the book offers a program that teaches you step-by-step to overcome any initial aversion to urine therapy. Still playing an important role in the medical systems of countries as diverse as Germany, Japan, and India, this surprising health treatment has been gaining popularity in the United States. The therapy is an entirely drugless system of healing that treats the body as a whole. Moreover, the only ingredient needed is a substance manufactured in the body itself, rich in mineral salts, hormones and other vital substances, namely human urine. It may seem strange to take back into the body something that the body is apparently discarding. Yet the theory is similar to the natural practice of organic composting. Fallen leaves, when dug back into the soil, provide valuable mineral salts to nourish new plant life. The same principle holds true for the human body.

Urine therapy - the drinking and external application of one's own urine as a healing agent - is an ancient Eastern tradition which is gaining popularity in the west. Devotees, who include the actress Sarah Miles, claim that it is the oldest of natural remedies and swear by it's health-enhancing properties. The venerable former prime minister of India, Morarji Desai - who was 99 and in excellent health when the author met him in 1994 - was open about the fact that he drank a glassful of his own urine every day. It was while he was in India in 1990 that Coen van der Kroon was first given the opportunity to experience the therapy's healing benefits first hand, following an accident. Afterwards, he embarked on a long journey around the world to research its history, uses and efficacy. The Golden Fountain, the most complete book to date on urine therapy, is the result of those wide-ranging investigations. The authors tackles his subject with sensitivity and conviction. He provides a comprehensive overview of urine therapy's history throughout the world, together with detailed case histories and a user-friendly guide to its practical application in relation to specific ailments. Swami Pragyamurti Saraswati, a strong advocate of urine therapy who teaches in London, has written an authoritative foreword to the book while individual accounts from people who have tried it and found it beneficial add a fascinating personal touch. As an intriguing do-it-yourself home treatment, urine therapy is often the subject of lively debate, but there's one thing that everyone agrees upon. It's absolutely free!

Integration of complementary and alternative medicine therapies (CAM) with conventional medicine is occurring in hospitals and physicians offices, health maintenance organizations (HMOs) are covering CAM therapies, insurance coverage for CAM is increasing, and integrative medicine centers and clinics are being established, many with close ties to medical schools and teaching hospitals. In determining what care to provide, the goal should be comprehensive care that uses the best scientific evidence available regarding benefits and harm, encourages a focus on healing, recognizes the importance of compassion and caring, emphasizes the centrality of relationship-based care, encourages patients to share in decision making about therapeutic options, and promotes choices in care that can include complementary therapies where appropriate. Numerous approaches to delivering integrative medicine have evolved. Complementary and Alternative Medicine in the United States identifies an urgent need for health systems research that focuses on identifying the elements of these models, the outcomes of care delivered in these models, and whether these models are cost-effective when compared to conventional practice settings. It outlines areas of research in convention and CAM therapies, ways of integrating these therapies, development of curriculum that provides further education to health professionals, and an amendment of the Dietary Supplement Health and Education Act to improve quality, accurate labeling, research into use of supplements, incentives for privately funded research into their efficacy, and consumer protection against all potential hazards.

Laughter is not the best medicine. If you have a weak heart, you can die laughing. But you cannot die by drinking your fresh urine—even if you have a weak heart. On the contrary, your weak heart will become strong because it will be cured of its disease that made it weak. Moreover, if you have other diseases, they will all be cured if you drink your fresh urine. This book will show you how this magic is done by urine. Urine is not a waste. It is a residue. Your body takes and uses the little nutrients it needs from the food and liquid you take. The residue is taken out of your body through your urine. Hence your urine is full of precious healthy nutrients. By drinking your fresh urine, you can give back to your body these nutrients that will cure and prevent all diseases. This book will tell you how this is done. Since urine is a medicine that is manufactured by your body, and since your body is made and designed by God, urine is truly God's medicine. That is why it is so effective and cures all diseases. For this reason, the wise people of India have been using for ages their urine to cure and prevent diseases. And also for this reason, they call urine Shivambu meaning "water of Shiva," who is one of their major gods. Indeed, it is urine which is the best medicine--no other.
