The Leland Stanford Junior University Circulars and Registers

*This comprehensive book presents emerging research findings and promising reform practices in the field of teacher education, curriculum, assessment, teaching and learning approaches, pedagogical innovations, and professional development in educating the next generation of globally competent students. It reflects the current trends and highlights contemporary teacher education programs in twenty greater Asian countries and regions. It offers insight into improving teacher education in Singapore, Malaysia, Thailand, Philippines, Vietnam, Cambodia, Laos, Myanmar, Indonesia, Brunei, India, Pakistan, Bangladesh, Bhutan, China, Korea, Taiwan, Japan, Hong Kong, and Macau. The handbook contains chapters written by experienced international teacher educators who draw on their experience and expertise to perennial issues and formidable challenges in teacher preparation and meaningful school reforms. This volume is a valuable resource and essential companion for teacher educators, faculty members, staff developers, trainee teachers, undergraduate and postgraduate students, researchers, school leaders, policy-makers, and professional learning communities to refresh their knowledge and improve their understanding. This book is a must-read for anyone interested in evolving issues in teacher education.*

Introduction to Plant Physiology

This textbook has been designed to meet the needs of BSc Fourth Semester students of Botany as per the UGC Choice Based Credit System (CBCS). It acquaints the students with plant-water relations and throws light on mineral nutrition. It also covers translocation in phloem, photosynthesis, respiration and enzymes. In addition to these, the book also deals with the nitrogen and lipid

metabolism, plant growth regulators and plant response to light and temperature. While it provides strong conceptual understanding of the subject, it also helps in developing scientific outlook of the student.
