Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peopletto a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Boys Town's trademark manual, offering the step-by-step component behaviors to 183 skills. The skills range from basic to complex, and have been updated, removing several obsolete skills and adding skills to match challenges today's youth face. The manual still offers hallmark treatment examples, demonstrating how and when to teach the skills; but also incorporates references to and information from the latest research findings. The 3rd edition incorporates multi-tiered approaches to social and emotional learning, as well as how the skills relate to executive function.

-- respect, responsibility, trustworthiness, fairness, caring, and citizenship. --References to and information from the latest research findings.The book also features the step-by-step component behaviors to 182 skills, from the basic (following instructions and introducing yourself) to the complex (managing stress and resolving conflict). Opening chapters explain the individual and group teaching techniques that enable youth to recognize when, where, or with whom to use a particular skill. The authors also show how to plan skill-based treatment interventions for youth with difficult problems such as substance abuse, aggression, running away, depression, or attention deficits.

The Story of Dr. Patricia Bath

A very special mouse escapes from a lab to find his missing family in this charming story of survival, determination, and the power of friendship. What makes Isaiah so unique? First, his fur is as blue as the sky -- which until recently was something he'd never seen, but had read all about. That's right: Isaiah can read and write. He can also talk to humans . . . if any of them are willing to listen! After a dramatic escape from a mysterious laboratory, Isaiah is separated from his "mischief" (which is the word for a mouse family) and has to survive in the dangerous outdoors, and hopefully find his missing family. But in a world of cruel cats, hungry owls, and terrified people, it's hard for a young, lone mouse to make it alone. When he meets an equally unusual and lonely human girl named Haley, the two soon learn that true friendship can transcend all barriers.

A storm is brewing . . . Whenever Levi doesn't like the truth, he kinda, sorta makes up other stuff to say. One day his mother explains to him that telling lies will damage the trust of his friends and make him very sad. Whenever you tell a lie, your inside sun goes away. Then a lying cloud forms, and glooms up your day. Each time you tell a lie, another cloud starts to form, and before you can stop it from happening, your insides start to storm. This book is a great resource to help children understand not only the consequences of telling a lie, but also how one lie can often lead to telling several more. It will help parents and teachers understand that lying can be a normal and sometimes healthy response for a child and offers tools to help guide children toward truthfulness.

"Did Mama sing every day?" Caleb asks his sister Anna. "Every--single--day," she answers. "Papa sang, too." Their mother died the day after Caleb was born. Their house on the prairie is quiet now, and Papa doesn't sing anymore. Then Papa puts an ad in the paper, asking for a wife, and he receives a letter from one Sarah Elisabeth Wheaton, of Maine. Papa, Anna, and Caleb write back. Caleb asks if she sings. Sarah decides to come for a month. She writes Papa: I will come by train. I will wear a yellow bonnet. I am plain and tall, and Tell them I sing. Anna and Caleb wait and wonder. Will Sarah be nice? Will she like them? Will she stay?

Use this workbook to introduce important social skills to students from 3rd to 12th grade. Incorporate the suggested activities with your exciting language arts, math, science, phys ed or social studies curricula. Teach children social skills to give them positive behavioural choices, choices that are healthier for them, for you and for your classroom. Lesson plans are written in an easy-to-follow format with talking points to help you define and explain a skill and guide students through an activity. Each lesson has Teacher Notes describing the relevance of each skill and a Proactive Teaching Interaction to use as a script. At the end of each lesson is a Think Sheet for students with questions about how to use a skill in different settings and situations. Role-play scenarios and classroom activities also are provided so students can practice each skill's behavioural steps. This behaviour management resource includes a CD-ROM with reproducible worksheets and skill posters you can hang in classrooms and common areas to remind students of each step to a skill. Basic social skills include being prepared for class, listening to others, following instructions, and completing homework. More complex social skills include expressing empathy, going to an assembly, accepting defeat or loss, using anger control strategies, choosing appropriate friends and resisting negative peer pressure.

This manual describes a rigorous preservice training program for child-care workers. Topics include professionalism issues; principles of behavior; tolerance levels; teaching social skills; problem solving; and youth rights, among others.

This book targets 28 social skills including following instructions, staying on task, working with others, accepting criticism, listening, ignoring distractions, making a good choice, sharing, and showing respect. It includes lesson plans, reproducible skill pages, techniques and examples for 'blending' the teaching of social skills into academic lessons, ideas for using bulletin board displays to motivate and monitor behaviour, and strategies for increasing parental support.

This unique library gives teachers and specialists a stimulating, systematic way to develop positive social behaviors in students of all abilities, grades 4-12. Included are over 125 tested lessons and reproducible worksheets in two separately printed, self-contained volumes, each tailored to the developmental needs of students at a particular grade level, 4-6 or 7-12. For easy use, the lessons in each volume follow a uniform format, including titles, behavioral objective, and simple 8-step lesson plan. The lesson activities and worksheets are based on real-life situations and help build students' self-esteem, self-control, and respect for the rights of others.

All children need to learn how to get along with others. It's an ability that may have as much or more to do with success in later life as children's educational accomplishments. And just like reading and math skills, social skills can be taught to children. Getting Along with Others is an engaging activity book parents will love to share with their children. Twenty-four fun-filled and creatively illustrated charts encourage youth to tell the truth, ask permission, share with others, say they're sorry, and more. Plus, six additional charts allow adults to target skills they want kids to learn. Also included, suggestions on how to effectively use the book and offer rewards that will keep children interested and motivated to improve. Getting Along with Others is a simple, satisfying way for parents to enjoy quality time and, ultimately, more meaningful relationships with their children.

21 days without power. 2 brothers on a desperate trek. 72 hours before time runs out... The Lockwood brothers are supposed to be able to survive anything. Their dad, a hardcore believer in self-reliance, has stockpiled enough food and water at their isolated Nevada home to last for months. But when they are robbed of all their supplies during a massive blackout while their dad is out of town, John and Stew must walk 96 miles in the stark desert sun to get help. Along the way, they're forced to question their dad's insistence on self-reliance and ask just what it is that we owe to our neighbors, to our kin, and to ourselves. From talented newcomer J. L. Esplin comes this story of survival and determination as two young brothers confront the unpredictability of human nature in the face of desperate circumstances. "A suspense thriller, survival story, and a story of the love between brothers. You'll turn the pages and be surprised again and again."--Gary D. Schmidt, Newbery Honor Award-winning author of The Wednesday Wars "Fast-paced, believable, funny, and poignant. 96 Miles is a great read from the first sentence to the surprising and satisfying ending. This guidebook provides a handy reference for youth to the eight most important social skills and their behavioural steps. Each step includes a rationale for why it is important and hints on how it can best be applied. Eight social skills are included: following instructions, disagreeing appropriately, accepting criticism or a consequence, talking with others, showing respect, accepting "no" for an answer, introducing yourself, and showing sensitivity to others. The behavioural steps to each skill are presented, each with a rationale that youth will respond to and helpful hints on how they can accomplish the behavior.

Teaching Social Skills to Youth

A Step-by-step Guide to 182 Basic to Complex Skills Plus Helpful Teaching Techniques

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Using Your Head as Well as Your Heart to Raise School-Aged Children This 4th edition of Common Sense Parenting® offers parents of children ages 6-16 a menu of proven techniques to use while facing family challenges: a teen who's defiant; siblings who constantly bicker; a child having trouble in school; and parents and kids who don't communicate or have fun together anymore. Step-by-step strategies aid parents in building good family relationships, preventing and correcting misbehavior, using consequences to improve behavior, teaching self-control, and staying calm. This updated edition shows parents how to approach discipline as positive teaching rather than punishment. As each new parenting technique is introduced, the authors explain each step, provide many clear examples, and give you an action plan for implementing it in your home. Also addressed are topics of special interest - how to deal with school problems, computer misuse, and Internet and social media dangers.
