The most important factor in passing any exam is plenty of question practice. The questions in the F2 Practice and Revision Kit cover all areas of the syllabus and are in the same order as the Study Text chapters. They include preparation questions for the harder topics, as well as plenty of exam standard questions. Therefore students can tailor their question practice to concentrate on areas of weakness, such as basic groups, or dip into topics as they revise them. There are also two mock exams to test the whole syllabus.

exam. In preparing the Text we have taken note of past papers, questions put to the examiners, the assessment methodology and previous case study exams. The key to the case is to prepare and to practise. Prepare by working through this Study Text before CIMA issues the pre-seen data. Later, practise with the BPP Learning Media TOPCIMA Toolkit that is written around the real pre-seen data. The Toolkit contains analyses and exercises to get you thinking, as well as a number of 'mock' unseens to get you ready for the real thing

Suitable for: exams in 2012 and 2013

fifty objective test questions. The syllabus has five sections: \* Cost determination \* Cost behavior and breakeven analysis \* Standard costing \* Costing and accounting systems \* Financial planning and control

The C1 Study Text contains all you need to know for C1, featuring step-by-step guides to management accounting techniques such as process costing, which many students find tricky. All areas of the syllabus are explained

fully and no prior knowledge is assumed. Key terms are identified throughout as grasping terminology is vital for both C1 and for future studies.

Designed primarily for middle and junior management who deal with financial information without really understanding the content; students who are studying accounting as a non-specialist subject, for example on a business studies or engineering course.

The book serves as a basic reference to be used throughout the course. It will also be particularly helpful in providing the basic grounding that is required before moving on to the more technical and in-depth study of the subject that may be required on some courses. Students who are embarking on a course of study to become a professional accountant will also find this book of major benefit. In addition to revisions through out, a new new

chapter 'Making long-term investment decisions' covering capital investment decisions, extends and rounds out the final part of the book: using Financial Information to Manage a Business. The chapter deals with the investment appraisal process and covers the main investment appraisal techniques from the point of view of a non-specialist: payback periods, accounting rate of return and discounted cash flow methods are just some of the new topics

covered. The focus will be on the level of understanding that a non-specialist requires in the work place as such, in keeping with the rest of the book, the chapter includes practical examples and exercises to enhance the reader's understanding. \* Jargon free and easy to understand - no prior knowledge of the subject necessary \* Focuses on the principles and use of accounting information \* Review questions to assess progress at each stage and many

fully worked exercises and examples

have. It includes the methods organisations use to reduce risks, including:

- \* Management and accounting systems
- \* Corporate governance
- \* Control environment and procedures
- \* Internal audit

Key skills are:

- \* Recognising risks
- \* Recommending appropriate actions to counter those risks.

The syllabus also requires appreciation of how risks and control systems link with the strategies the organisation pursues. The Study Text provides all you need to know for P3. It gives many examples of the strategic and

**BPP Learning Media provides comprehensive materials that highlight the areas to focus on for your exams and complement the syllabus to increase your understanding.**

**CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper E3**

**'Enterprise Strategy' is a wide-ranging exam that includes aspects of strategic analysis, choice and implementation. To pass, candidates need both technical knowledge and the ability to apply their knowledge to specific scenarios. The syllabus is split into four areas: \* Interacting with the Competitive Environment (20%) \* Change Management (20%) \* Evaluation of Strategic Options (30%) \* Implementation of Strategic Plans (30%)** The first section explores the impact and influence of an organisation's environment on its strategy. An organisation needs to take account of its environmental

context as well as its own internal capabilities when assessing the strategic options available to it. Having identified these options, it then has to evaluate them to decide which is the most appropriate to pursue. The E3 syllabus recognises that implementing strategic plans involves managing change, and 20% of the syllabus is now devoted to issues involved in managing the change process. Change Management has not previously been examined at Strategic Level in the CIMA exams. The final section of the syllabus looks at the ways organisations control and measure the performance of the

strategies they have implemented. The E3 Study Text provides you with comprehensive coverage of the principles of business strategy and how they can be applied to design and implement enterprise strategies. The Text also offers a range of short case studies which illustrate how business strategy ideas are applied in the real world. In the E3 exam, your ability to apply knowledge to a scenario is as important as pure knowledge, but it is still crucial to have a sound understanding of the key terms and ideas. The 'key terms' feature in the text will help you identify these key terms,

while the 'section summaries' provide a convenient overview of each section of the text.&quot;

The Enterprise Management Practice & Revision Kit allows you to apply your knowledge by putting theory in to practice. This is especially important for the E2 assessment because it is an integrated paper. Practicing exam standard questions will help you draw different areas of knowledge together. Two full mock exams allow you to apply your knowledge to both section A questions and longer section B questions. Through practice, you are equipped with the best techniques to
