

## Brawling Go 102

Long a target of cow rustlers who would steal his cattle and escape from the law, John Titus decides to take the law in his own hands by gathering an army of cowboys and guns, including Dundee, the gunslinger he hires to discover who is behind the thefts. Reprint.

John Armstrong's 2000-line poem *The Art of Preserving Health* was among the most popular works of eighteenth-century literature and medicine. It was among the first to popularize Scottish medical ideas concerning emotional and anatomical sensibility to British readers, doing so through the then-fashionable georgic style. Within three years of its publication in 1744, it was in its third edition, and by 1795 it commanded fourteen editions printed in London, Edinburgh, Dublin, and Benjamin Franklin's shop in Philadelphia. Maintaining its place amongst more famous works of the Enlightenment, this poem was read well into the nineteenth century, remaining in print in English, French, and Italian. It remained a tribute to sustained interest in eighteenth-century sensibility, long after its medical advice had become obsolete and the nervous complaints it depicted became unfashionable. Adam Budd's critical edition includes a comprehensive biographical and textual introduction, and explanatory notes highlighting the contemporary significance of Armstrong's classical, medical, and social references. Included in his introduction are discussions of Armstrong's innovative medical training in charity hospitals and his close associations with the poet James Thomson and the bookseller Andrew Millar, evidence for the poem's wide appeal, and a compelling argument for the poem's anticipation of sensibility as a dominant literary mode. Budd also offers background on the 'new physiology' taught at Edinburgh, as well as an explanation for why a Scottish-trained physician newly arrived in London was forced to write poetry to supplement his medical income. This edition also includes annotated excerpts from the key literary and medical works of the period, including poetry, medical prose, and georgic theory. Readers will come away convinced of the poem's significance as a uniquely engaging perspective on the place of poetry, medicine, the body, and the book trade in the literary history of eighteenth-century sensibility.

The US Marine Corps has traditionally been one of the most innovative branches of the US military, but even it has struggled to learn and retain lessons from past counterinsurgency wars. Jeannie L. Johnson looks at the clash between strategic culture and organizational learning through the US Marine Corps's long experience with counterinsurgency. She first undertakes a fascinating examination of what makes the Marines distinct: their identity, norms, values, and perceptual lens. To do this, Johnson uses an innovative framework for analyzing strategic culture. Next, she traces the history of the Marines' counterinsurgency experience from the expeditionary missions of the early twentieth century, through the Vietnam War, and finally to the Iraq War. She shows that even a service as self-aware and dedicated to innovation as the US Marine Corps is significantly constrained in the lessons-learned process by its own internal predispositions. Even when internal preferences can be changed, ingrained biases endemic to the broader US military culture and American public culture create barriers to learning.

*On 5 May 1725 a Dutch ship's officer, Leendert Hasenbosch, was set ashore on the desert island of Ascension in the South Atlantic Ocean, as a punishment for sodomy. He tried to survive on turtles and birds but found very little water on the barren island. He wrote a diary. He probably died after about half a year. In January 1726 British mariners found his tent, diary and other things and brought the diary to England. In 1728 a first English version of the diary of the Dutch castaway was published. Other versions followed. Who was the castaway? The truth was disclosed by the Dutch historian Michiel Koolbergen (1953-2002), in a posthumously published book in Dutch. With the support of Michiel Koolbergen's family and publisher, this new book discloses the truth in English. This book is illustrated with line drawings,*

This volume provides a portion of the original text of Cicero's speech in Latin, a detailed commentary, study aids and a translation. Ingo Gildenhard's commentary will be of particular interest to students of Latin at both high school and undergraduate level. It will also be of help to Latin teachers and to anyone interested in Cicero, language and rhetoric, and the legal culture of Ancient Rome. A free online interactive edition is also available.

The previously untold story of the violence in Congress that helped spark the Civil War In *The Field of Blood*, Joanne B. Freeman recovers the long-lost story of physical violence on the floor of the U.S. Congress. Drawing on an extraordinary range of sources, she shows that the Capitol was rife with conflict in the decades before the Civil War. Legislative sessions were often punctuated by mortal threats, canings, flipped desks, and all-out slugfests. When debate broke down, congressmen drew pistols and waved Bowie knives. One representative even killed another in a duel. Many were beaten and bullied in an attempt to intimidate them into compliance, particularly on the issue of slavery. These fights didn't happen in a vacuum. Freeman's dramatic accounts of brawls and thrashings tell a larger story of how fisticuffs and journalism, and the powerful emotions they elicited, raised tensions between North and South and led toward war. In the process, she brings the antebellum Congress to life, revealing its rough realities—the feel, sense, and sound of it—as well as its nation-shaping import. Funny, tragic, and rivetingly told, *The Field of Blood* offers a front-row view of congressional mayhem and sheds new light on the careers of John Quincy Adams, Henry Clay, and other luminaries, as well as introducing a host of lesser-known but no less fascinating men. The result is a fresh understanding of the workings of American democracy and the bonds of Union on the eve of their greatest peril.

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

**The birthplace of Boccaccio, Machiavelli, and the powerful Medici family, Florence was also the first great banking and commercial centre of continental Europe. The city's middle-class merchants, though lacking the literary virtuosity of its most famous sons, were no less prolific as writers of account books, memoirs, and diaries. Written by ordinary men, these first-hand accounts of commercial life recorded the everyday realities of their businesses, families, and personal lives alongside the high drama of shipwrecks, plagues, and political conspiracies. Published in Italian in 1986, Vittore Branca's collection of these accounts**

established the importance of the genre to the study of Italian society and culture. This new English translation of Merchant Writers includes all the texts from the original Italian edition in their entirety. Moreover, it offers a gripping personal introduction to the mercantile world of medieval and Renaissance Florence.

In one of Shakespeare's bawdier comedies, contemporary audiences still take great pleasure in the rapid-fire verbal battles between the shrewish Katharina and the canny Petruchio, determined to subdue Katharina's legendary temper and win her dowry. Celaena has survived deadly contests and shattering heartbreak—but at an unspeakable cost. Now, she must travel to a new land to confront her darkest truth . . . a truth about her heritage that could change her life—and her future—forever. Meanwhile, brutal and monstrous forces are gathering on the horizon, intent on enslaving her world. Will Celaena find the strength to not only fight her inner demons, but to take on the evil that is about to be unleashed? The bestselling series that has captured readers all over the world reaches new heights in this sequel to the New York Times best-selling Crown of Midnight. Packed with heart-pounding action, fierce new characters, and swoon-worthy romance, this third book will enthrall readers from start to finish.

The History of Scottish Poetry

The epic battle of the fascinating, flawed figures behind America's deal culture and their fight over who controls and who benefits from the immense wealth of American corporations. Bloodsport is the story of how the mania for corporate deals and mergers all began. The riveting tale of how power lawyers Joe Flom and Marty Lipton, major Wall Street players Felix Rohatyn and Bruce Wasserstein, prominent jurists, and shrewd ideologues in academic garb provided the intellectual firepower, creativity, and energy that drove the corporate elite into a less cozy, Hobbesian world. With total dollar volume in the trillions, the zeal for the deal continues unabated to this day. Underpinning this explosion in mergers and acquisitions—including hostile takeovers—are four questions that radically disrupted corporate ownership in the 1970s, whose force remains undiminished: Are shareholders the sole "owners" of corporations and the legitimate source of power? Should control be exercised by autonomous CEOs or is their assumption of power illegitimate and inefficient? Is the primary purpose of the corporation to generate jobs and create prosperity for the masses and the nation? Or is it simply to maximize the wealth of shareholders? This battle of ideas became the "bloodsport" of American business. It set in motion the deal-making culture that led to the financialization of the economy and it is the backstory to ongoing debates over competitiveness, job losses, inequality, stratospheric executive pay, and who "owns" America's corporations.

Features more than three hundred thousand synonyms and ten thousand antonyms, as well as nearly two hundred collections of nouns to add detail to writing and quick guides to easily confused words.

Sethe, an escaped slave living in post-Civil War Ohio with her daughter and mother-in-law, is haunted persistently by the ghost of the dead baby girl whom she sacrificed, in a new edition of the Nobel Laureate's Pulitzer Prize-winning novel. 25,000 first printing.

**Canucks left-winger Geoff Courtnall knew the scouting report on Calgary Flames goaltender Mike Vernon. High, glove side. The Canucks filed into the visitors' dressing room at the Calgary Saddledome after the third period of game five of the 1994 Stanley Cup playoffs. The players knew if they didn't score a goal in overtime, their season was finished. Courtnall took a few seconds to visualize a goal his former teammate, Wayne Gretzky, had scored against Vernon during the 1988 Stanley Cup playoffs. Shorthanded, Gretzky had skated down the left wing. With Vernon high in the crease to challenge him, he had blasted a slapshot high over the goaltender's glove-hand shoulder. During the intermission, Courtnall walked out of the dressing room into the corridor where he could light a propane torch to doctor his stick. He put a massive - maybe even illegal - curve on his Easton. If he could get a shot during the overtime period, he was going to shoot high on Vernon. Eight minutes into the first overtime period, Courtnall got the opportunity he had prepared his stick for. As he hopped over the boards to replace Greg Adams on a line change, Courtnall skated opportunistically down the left wing. A Canucks defenceman broke up a play at the Canucks blueline. The puck bounced fortuitously between a Calgary defenceman's legs and onto the streaking Courtnall's stick. Courtnall cruised down towards the Calgary net and wired a slapshot from the top of the face-off circle...**

**With hundreds of thousands of copies sold, a Ron Howard movie in the works, and the rise of its author as a media personality, J. D. Vance's Hillbilly Elegy: A Memoir of a Family**

*and Culture in Crisis has defined Appalachia for much of the nation. What about Hillbilly Elegy accounts for this explosion of interest during this period of political turmoil? Why have its ideas raised so much controversy? And how can debates about the book catalyze new, more inclusive political agendas for the region's future? Appalachian Reckoning is a retort, at turns rigorous, critical, angry, and hopeful, to the long shadow Hillbilly Elegy has cast over the region and its imagining. But it also moves beyond Hillbilly Elegy to allow Appalachians from varied backgrounds to tell their own diverse and complex stories through an imaginative blend of scholarship, prose, poetry, and photography. The essays and creative work collected in Appalachian Reckoning provide a deeply personal portrait of a place that is at once culturally rich and economically distressed, unique and typically American. Complicating simplistic visions that associate the region almost exclusively with death and decay, Appalachian Reckoning makes clear Appalachia's intellectual vitality, spiritual richness, and progressive possibilities.*

*[Siren Classic ManLove: Erotic Romance, Alternative, Paranormal, Contemporary, Werewolves, Shape-shifter, MM, HEA] Devlin - One bar. Four rough, possessive, and sexy werewolf brothers looking for love. Dominant werewolf Devlin is the oldest of the Winter brothers. The Howling Wolf bar and taking care of his brothers is his life. Dev has no time for love or mates, only one-night stands. But when a brave little Omega enters the bar looking as though he needs to prove something, Dev knows Saz is trouble. Saz isn't his usual type, and the Omega certainly deserves more than what Dev could give, but Dev has a problem staying away. Saz is an Omega wolf on the run from his abusive ex. He's eager to start fresh in a new town and bravely enters The Howling Wolf bar. The bar caters to the rough crowd in town, but Saz's wolf instantly recognizes the rude but sexy bartender as his mate. Dev thinks this is just a hookup—but Saz knows there could be so much more between them. Cade - Omega wolf Jon can't stop thinking about the gorgeous Greek god in human skin who saved him from his abusive ex. Everyone knows the Winter brothers, especially Cade, don't date. The attraction between them is instantaneous but, for some reason, Cade's insistent on keeping his distance. When the ice finally breaks, Jon's past comes back to haunt him, threatening the fragile bonds he's built with Cade. Dominant wolf Cade was a soldier, part of a special ops team composed entirely of shifters. And yet, Jon proves to be a bigger challenge than PTSD. From the moment they meet, Cade instantly knows Jon is his mate. He's never had a problem finding guys to warm his bed, but he's scared of screwing up his chances with Jon. Jon's too good for him, but Jon claims they're two damaged souls who are meant to be. Can they conquer their private demons and make a future for themselves as mates?*

THE #1 NEW YORK TIMES BESTSELLER IS NOW A MAJOR-MOTION PICTURE DIRECTED BY RON HOWARD AND STARRING AMY ADAMS, GLENN CLOSE, AND GABRIEL

BASSO "You will not read a more important book about America this year."—The Economist "A riveting book."—The Wall Street Journal "Essential reading."—David Brooks, New York Times  
Hillbilly Elegy is a passionate and personal analysis of a culture in crisis—that of white working-class Americans. The disintegration of this group, a process that has been slowly occurring more than forty years, has been reported with growing frequency and alarm, but has never before been written about as searingly from the inside. J. D. Vance tells the true story of his region, and class decline feels like when you were born with it hung around your neck. The Vance family story begins hopefully in postwar America. J. D.'s grandparents were "dirt poor and in love," and moved north from Kentucky's Appalachia region to Ohio in the hopes of escaping the dreadful poverty around them. They raised a middle-class family, and eventually one of their grandchildren would graduate from Yale Law School, a conventional marker of success in achieving generational upward mobility. But as the family saga of Hillbilly Elegy plays out, we learn that J.D.'s grandparents, aunt, uncle, sister, and, most of all, his mother struggled profoundly with the demands of their new middle-class life, never fully escaping the legacy of abuse, alcoholism, and trauma so characteristic of their part of America. With piercing honesty, Vance shows how he himself still carries around the demons of his chaotic family history. A deeply moving and often hilarious story, filled with its share of humor and vividly colorful figures, Hillbilly Elegy is the story of how upward mobility really feels. And it is an urgent and troubling meditation on the loss of the American Dream for a large segment of this country.

Against the backdrop of the glitz and glamour of Hollywood, California, the Los Angeles Lakers have become not only one of professional basketball's most treasured gems, but an iconic and renowned sports icon. With the wizardry of players who require only one name—Elgin, West, Wilt, Kareem, Magic, Shaq, Kobe—the Lakers grew from a promising Midwestern team in the City of Angels and becoming one of the most successful corporate giants in the history of athletic competition. This definitive encyclopedia of the Lakers provides all vital data for each season of the team's first 50 years in Los Angeles, including biographies of Hall of Famers, other great performers, and coaches; complete rosters; season-by-season schedules; draft picks; and records and individual accomplishments.

"An ingenious reappraisal of a classic text, Dracula's Crypt presents Stoker's novel as a subtly ironic commentary on England's preoccupation with racial purity. Probing psychobiographical, political, and cultural elements of Stoker's background and milieu, Joseph Valente distinguishes Stoker's viewpoint from that of his virulently racist, hypermasculine vampire hunters, and the author's dual Anglo-Celtic heritage and uncertain status as an Irish parvenu among London's theatrical elite led him to espouse a progressive racial ideology at odds with the dominant Saxon supremacism. In the light of Stoker's experience, the shabby-genteel Count Dracula can be seen as a doppelganger, an ambiguous figure who is at once the blood-conscious Irishman and the bloodthirsty foreign invader."--BOOK JACKET.
