

Breaking Point Quebec Canada The 1995 Referendum

The woman. Susannah is very successful. She is pulled in every direction, every day; as a doctor, a researcher, a professor, a wife, a mother and a woman. She doesn't realise it, but she is at breaking point. The unthinkable. After a frantic morning, with a disrupted routine and an emergency call from work, Susannah leaves her young daughter in the car on a hot day. It is hours before she realises her mistake, but it is too late. The trial. Adelaide is a reporter covering Susannah's negligence trial. The story is all too familiar, stirring up the ghosts of her own long-buried past. The verdict. As Adelaide and Susannah circle closer to each other, as the jury considers its verdict, both women are forced recognise that they are both already living out the worst punishment imaginable. But what will the court say? An engaging narrative of the small-unit actions near Sedan during the 1940 campaign for France.

A look at the moment of crisis that many women are forced to confront discusses the conflicting life roles that can lead to this point and suggests how women can transcend such crises and redefine their lives

Wyoming game warden Joe Pickett's hunt for a fugitive reveals a conspiracy in this taut thriller in the #1 New York Times bestselling series. Joe Pickett always liked Butch Roberson—a hardworking local business-owner whose daughter is friends with his own. Little does he know that when Butch says he is heading into the mountains to scout elk, he is actually going on the run. Two EPA employees have been murdered, and all signs point to Butch as the killer. Soon, Joe hears of the land Butch and his wife had bought to retire on—until they are told the EPA declared it a wetland—and the penalties they charged Butch until the family was torn apart by debt. Finally, it seems, the man just cracked. It's an awful story. But is it the whole story? The more Joe investigates, the more he begins to wonder—and the more he finds himself in the middle of a war in which he must choose sides.

The 1995 Referendum

Lionel Groulx on French-Canadian Minorities

Regional and Federal Dynamics in the Harper Era

Sedan and the Fall of France, 1940

"Picketty (the rich get richer), Gordon (the important innovations are already behind us), Tainter (it's too complicated) all have theories about why the 21st century is such a disappointment. James Dale Davidson connects the dots...but more dots...and more unexpected dots...than perhaps anyone." —From the Foreword by BILL BONNER, coauthor of International bestseller The Empire Debt IS YOUR PORTFOLIO POSITIONED FOR THE GLOBAL FINANCIAL REVOLUTION? The global economy as we know it is due for a major correction, and with this will come permanent, systemic change: the greatest economic freedom the world has ever seen. But hard financial times are ahead, and The Breaking Point will help you protect your wealth and prosper through it all. Providing a painfully clear view of the state of the global economy, outspoken economist James Dale Davidson uses the old-fashioned tool of argument—facts—to describe how governments have mismanaged the financial system to the point of no return. It has all led to Brexit—the opening salvo in the war for financial freedom. The Breaking Point shows you where we've been and where we're headed, offering the insight and information you need to ensure you're positioned for the worst of times-and the best of times.

How far would you go to fit in? Paul is new to Gate, a school whose rich students make life miserable for anyone not like them. And Paul is definitely not like them. Then, something incredible happens. Charlie Good, a star student and athlete, invites Paul to join his elite inner circle. All Charlie wants is a few things in return—small things that Paul does willingly. Until one day Charlie wants something big—really big. Now Paul has to decide how far he'll go to be one of the gang. The electrifying follow-up to Alex Flinn's critically acclaimed debut novel, Breathing Underwater, Breaking Point is a tale of school violence that explores why and how a good kid can go 'bad'.

Regional dynamics and federalism lie at the heart of Canadian politics. In Open Federalism Revisited, James Farney, Julie M. Simmons, and a diverse group of contributors examine the legacy of Prime Minister Stephen Harper in areas of public policy, political institutions, and cultural and economic development. This volume examines how these areas significantly affected the balance between shared rule and self-rule in Canada's federation and how broader changes in the balance between the country's regions affected institutional arrangements. Open Federalism Revisited engages with four questions: 1) Did the Harper government succeed in changing Canadian federalism in the way his initial promise of open federalism suggests he wanted to? 2) How big was the difference between the change Harper's government envisioned and what it actually achieved? 3) Was the Harper government's approach substantially different from that of previous governments? and 4) Given that Harper's legacy is one of mostly incremental change, why was his ability to change the system so relatively minor? With attention to such topics as political culture, the role of political parties in regional integration, immigration policy, environmental policy, and health care, Open Federalism Revisited evaluates exactly how much changed under a prime minister who came into office with a clear desire to steer Canada back towards an older vision of federalism.

Denver journalist Natalie Benoit and Deputy U.S. Marshal Zach McBride find themselves captives of a bloodthirsty Mexican drug cartel. Working together, they escape through the desert toward the border, the attraction between them flaring hotter than the Sonoran sun. They fight to stay ahead of the danger that hunts them as forces more powerful than they can imagine conspire to destroy them both...

Adrien Arcand and Fascist Anti-Semitism in Canada

In the line of fire... OPERATION SHADOW WARRIORS An ongoing U.S. military experiment to test the integration of trained female military operatives in live combat scenarios... The Alpha Platoon. A unit of Navy SEALs stationed in the unforgiving dryness of Afghanistan...who just learned that their newest team member is a woman. But Bay Thorn has a spine of steel—and the chops to prove it. Without a team to back her up, however, she's dead in the water. And her only ally is Gabe Griffin, a lone SEAL who is lethal, dangerous and unbearably attractive.... Between the open hostility from her team and the harsh al Qaeda territory, Gabe is a lifeline for Bay. But mutual respect quickly grows into mutual attraction. And with each day and every assignment, the longing only deepens. They mustn't speak of it. Mustn't act on it. Because in this line of work, falling in love can get you killed....

Discover a renewed biblical vision for sex, singleness, and relationships, and transform into an empowered woman of faith equipped to navigate today's dating culture with vision, clarity, and freedom. Let's face it: being single in today's culture as a woman of faith can be a STRUGGLE FEST. But it doesn't have to be. With real talk and straight wisdom, speaker, podcaster, and founder of The Refined Woman Kat Harris says it's time for a new conversation about singleness, sex, and desire. Growing up at the height of the purity movement, Kat knew this much: good Christians don't have sex until marriage. But approaching 30 and thrust into the New York City dating scene, she found a set of rules was not a compelling enough reason to keep her clothes on. Caught between purity culture's rules and popular culture's do what feels good, Kat began a multi-year journey searching for answers to the biggest questions about sexuality and faith: What does the Bible really say about sex? Why does almost everyone deal with some sort of sexual shame? But really--what's a single girl to do with her sexual desire? What if we never get married . . . then what? It turns out Kat was asking questions that countless women were dying to ask but didn't know they had the permission to do so. Hungry for clarity, she researched, wrestled, and discovered a God who wasn't afraid or ashamed of sex and desire as she thought He might be. In actuality, God created sex and desire within humanity and called it very good. Now she believes God desires to restore a generation disillusioned with purity culture and Christian dating, discouraged about their singleness, ashamed of their sexual desire, and uncertain how to practically walk this season out well. Join Kat on her messy, sometimes painful, and always honest journey to discovering God's heart for sexuality, desire, singleness, and our purpose within it all.

The Blue Shirts

How Female Midlife Crisis Is Transforming Today's Women

A Nation Beyond Borders

Sexless in the City

Our market-based, profit-driven health care system in the United States has put necessary care increasingly beyond the reach of ordinary Americans. Primary health care, the fundamental foundation of all high-performing health care systems in the world, is a critical but ignored casualty of the current system.

Unfortunately, primary care is often poorly understood, even within the health professions. This book describes what has become a crisis in primary care, defines its central role, analyzes the reasons for its decline, and assesses its impacts on patients and families. A constructive approach is presented to rebuild and transform U.S. primary care with the urgent goal to address the nation's problems of access, cost, quality and equity of health care for all Americans.

Former cop Bella Caruso disappeared while working undercover to find a teenager sold into the sex trade. FBI Special Agent Lucy Kincaid is asked by Bella's brother, JT Caruso, for help in finding his sister. Lucy knows that Bella is in over her head, and she must use every resource at her disposal—even if it means losing her job, or her life. Tall Premium Edition. Original.inal.

Cameron has been in trouble with the law more than once for breaking and entering. After his latest conviction, he's sent to an outdoors program for young offenders rather than a standard juvenile detention facility. There he meets Brianna, a girl who has been caught selling drugs at her school. They bond quickly, and she convinces Cameron to steal two sea kayaks and head off with her into the wilderness of bays and coves of Nova Scotia's Eastern Shore. It's a fearless but ill-timed escape as a hurricane is about to pound the coast. They must use all their courage and newfound survival skills if they are going to make it back to shore alive.

And Cameron suspects that Brianna may not be telling him the truth about her real plans.

The way we plan and build cities in Australia needs to change. Australia's population is growing: between 2017 and 2046 it is projected to increase by 11.8 million, the equivalent of adding a city the size of Canberra each year for thirty years. Most of this growth will occur in the major cities, and already its effects are being felt: inner-city property prices are skyrocketing and the more affordable middle and outer suburbs lack essential services and infrastructure. The result is inequality: while wealthy inner-city dwellers enjoy access to government-subsidised services – public transport, cultural and sporting facilities – new home buyers, pushed further out, pay the lion's share of the costs. So how can we create affordable housing for everyone and still get them to work in the morning? What does sustainable urban development look like? In this timely critique of our nation's urban development and planning culture, Peter Seamer argues that vested interests often distort rational thinking on our cities. Looking to the future, he sets out cogent new strategies to resolve congestion, transport and expenditure problems, offering a blueprint for multi-centred Australian cities that are more localised, urban and equitable in nature.

How Today's Women Are Navigating Midlife Crisis

Radio-Canada Under Siege

Why Women Fall Apart and how They Can Re-create Their Lives

A Sometimes Sassy, Sometimes Painful, Always Honest Look at Dating, Desire, and Sex

With her family problems mounting, people pressuring her to tell them what is bothering her, Vicky Fallon knows something is about to snap.

Today our emergency care system faces an epidemic of crowded emergency departments, patients boarding in hallways waiting to be admitted, and daily ambulance diversions. Hospital-Based Emergency Care addresses the difficulty of balancing the roles of hospital-based emergency and trauma care, not simply urgent and lifesaving care, but also safety net care for uninsured patients, public health surveillance, disaster preparation, and adjunct care in the face of increasing patient volume and limited resources.

This new book considers the multiple aspects to the emergency care system in the United States by exploring its strengths, limitations, and future challenges. The wide range of issues covered includes:

- *The role and impact of the emergency department within the larger hospital and health care system.*
- *Patient flow and information technology.*
- *Workforce issues across multiple disciplines.*
- *Patient safety and the quality and efficiency of emergency care services.*
- *Basic, clinical, and health services research relevant to emergency care.*
- *Special challenges of emergency care in rural settings.*

Hospital-Based Emergency Care is one of three books in the Future of Emergency Care series. This book will be of particular interest to emergency care providers, professional organizations, and policy makers looking to address the deficiencies in emergency care systems.

Canadian comic actor Mike Myers writes from the heart about his native land, Canada, and what it means to be a Canadian.

The inside story of decades of government interference in the work of our national public broadcaster, CBC/Radio-Canada. Is there a quiet campaign to hamstring and silence the CBC? In Losing Our Voice Alain Saulnier, long-time head of news and public affairs at Radio-Canada, documents the decades of political interference that have jeopardized the very existence of one of Canada's most important cultural institutions. For French-speaking Canadians, with limited options in their own language, the national broadcaster is all the more important. But tensions surrounding national unity and identity have exacerbated the tendency of federal politicians to meddle in CBC/Radio-Canada's content and management. Saulnier takes us behind the scenes as these tensions play out, and culminate in the punitive Harper budget cuts.

Open Federalism Revisited

At the Breaking Point

Article 5

Political Turmoil in a Tumultuous World

Canada and Its Provinces: The Dominion. Industrial expansion

"[The Breaking Point] suggests that the national conversation is about to have a hot flash. . . . guarantees that some rules may have to be rewritten and boundaries moved to accommodate them." -Time magazine From the cover of Time to Desperate Housewives, the phenomenon of women in midlife experiencing a period of tumultuous personal upheaval—a breaking point—has reached a peak in our culture. Today, more than 15 million baby boomer women report having a midlife crisis compared to 14 million men. In The Breaking Point, Wall Street Journal columnist Sue Shellenbarger looks beyond the numbers to discover the root of all this angst and examine the ways, both successful and not, that women are navigating this crucial transition period. Drawing on original research data and interviews with more than fifty women, The Breaking Point uses real-life stories to illustrate the different archetypes and modes the course of reinvention follows. The book also shows women how to avoid the pitfalls of a midlife meltdown—ruined relationships and jettisoned careers—and instead transform this turbulent time into a period of personal growth that will enrich the rest of their lives. Once every decade or so a book comes along that defines the collective experience of an entire generation. Provocative, insightful, and resonant, The Breaking Point is just such a book. "Every once in a while you read a book that transforms you. Like the shift of a kaleidoscope, it reconfigures your view of life's journey. This is such a book. It may stimulate you to change directions, perhaps even enable you to find life's greatest joy: fulfillment. An invigorating read." -Helen Fisher, author of Why We Love "This catchy work is tailor-made for the 36 percent of women who will eventually have what they regard as midlife crises' . . . an illuminating guide." -Publishers Weekly

The author explores the case of Andrea Yates, the Houston, Texas, mother suspected in the deaths of her five children, ages six months to seven years, whom she allegedly drowned in the family home's bathtub in June 2001.

While Adolf Hitler was seizing power in Germany, Adrien Arcand was laying the foundations in Quebec for his Parti national social chr é tien. The Blue Shirts, as its members were called, wore a military uniform and prominently displayed the swastika. Arcand saw Jewish conspiracy wherever he turned and his views resonated with his followers who, like him, sought a scapegoat for all the ills eroding society. Even after his imprisonment during the Second World War, the fanatical Adrien Arcand continued his correspondence with those on the frontlines of anti-semitism. Until his death in 1967, he pursued his campaign of propaganda against communists and Jews. Hugues Th é or é t describes a dark period in Quebec's ideological history using an objective approach and careful, rigorous research in this book, which won the 2015 Canada Prize (Federation for the Humanities and Social Sciences).

Alex and Jan Bradley have just started their dream vacation in the wilds of Northeast Canada, when mysterious assailants tried to kill them. They find themselves running for their lives through the wild, unpopulated mountains with trained killers on their trail.

Jan is shot, and Alex turns on his tormentors, becoming like a wild animal, until he hunts them down one at a time. Framed for murder and with the CIA and the killers of an unknown organization after him, Alex follows a clue to Detroit and someone higher up. There he discovers a world wide conspiracy and the horrible knowledge that nuclear bombs have been placed in key cities around the world. With a Canadian inspector and a young police officer, Alex races against time to prevent the destruction of the Northeast United States.

Emotional Breaking Point?

How the Primary Care Crisis Endangers the Lives of Americans

The Breaking Point

Beyond the Breaking Point

Losing Our Voice

She heard his footsteps as he came up the hall, and wondered why he was back so soon. He walked into the room, over to the bed, dropped onto it with a deep groan and said, "I can sleep now. I've just killed Paul." A small town in mid-America is shocked when its most successful merchant commits murder. His daughter tells her father's story as she lived it at age thirteen. Breaking Point is a brief story of three generations of one family. It concerns an Irish immigrant great-grandfather and how his influence spread down through the generations into the lives of his grandsons: one the obedient grandson, one the alcoholic. The pressure between them, the weaker against the stronger, grew until all rationalization failed, thus, the breaking point. What will the verdict be?

There is a saying that goes "New Level. New Devil." Breaking Point is the next level testimonial of BMacWrites' fight for her life after suffering a heart attack. The new level of success God blessed her with brought on a new devil that drove BMacWrites to her breaking point.

This book, first published as Quand la nation d é bordait les fronti è res (Hurtubise HMH, 2004), is considered the most comprehensive analysis of Lionel Groulx's work and vision as an intellectual leader of a nationalist school that extended well beyond the borders of Qu é bec. Recipient of the 2005 Governor General's Literary Award in non-fiction, the original French edition also won the Michel-Brunet Award (Institut d'histoire de l'Am é rique fran ç aise), the Prix Champlain (Conseil de la vie fran ç aise en Am é rique), and a medal awarded by the Qu é bec National Assembly. It was also shortlisted for the Jean-Charles-Falardeau Award (F é d é ration canadienne des sciences humaines du Canada) and the City of Ottawa Book Award. For over five decades, historians and intellectuals have defined the nationalist discourse primarily in territorial terms. In this regard, Groulx has been portrayed—more often than not—as the architect of Qu é b é cois nationalism. Translated by Ferdinanda Van Gennip, A Nation Beyond Borders will continue to spark debate on Groulx's description of the parameters of the French-Canadian nation. Highlighting the often neglected role of French-Canadian minorities in his thought, this book presents the Canon as an uncompromising advocate of solidarity between all French-Canadian communities.

This book centres on the effects of the political and later economic crisis which seriously affected the European Union and its impact on the seemingly endless UK debate over Britain's position within the EU.

The Most Gripping Debut of 2022 - You Won't Be Able to Look Away

Breaking Point

Canada and Its Provinces

A History of the Canadian People and Their Institutions

After escaping prison, Ember Miller and Chase Jennings are taken in by the Resistance but when Ember tops the government's most-wanted list, Chase urges her to run and Ember must decide whether to hide again or fight back.

New York, Los Angeles, and Washington, D.C., have been abandoned. The Bill of Rights has been revoked, and replaced with the Moral Statutes. There are no more police—instead, there are soldiers. There are no more fines for bad behavior—instead, there

are arrests, trials, and maybe worse. People who get arrested usually don't come back. Seventeen-year-old Ember Miller is old enough to remember that things weren't always this way. Living with her rebellious single mother, it's hard for her to forget that people weren't always arrested for reading the wrong books or staying out after dark. It's hard to forget that life in the United States used to be different. Ember has perfected the art of keeping a low profile. She knows how to get the things she needs, like food stamps and hand-me-down clothes, and how to pass the random home inspections by the military. Her life is as close to peaceful as circumstances allow. That is, until her mother is arrested for noncompliance with Article 5 of the Moral Statutes. And one of the arresting officers is none other than Chase Jennings...the only boy Ember has ever loved. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

In the last two years, Canadian society has been marked by political and ideological turmoil. How does an increasingly divided country engage a world that is itself divided and tumultuous? Political instability has been reinforced by international uncertainty: the COVID-19 pandemic, populism, Black Lives Matter, and the chaotic final year of the Trump presidency that increased tensions between the West, China and Russia. Even with a Biden presidency, these issues will continue to influence Canada's domestic situation and its ability to engage as an effective global actor. Contributors explore issues that cause or reflect these tensions, such as Canada's willingness to address pressing crises through multilateralism, including the COVID-19 pandemic. Can Canada forge its own path in a turbulent world?
