***The Psychology of The Arab deals with: The domination of the ruthless Arab rulers who have inflicted enormous pain and suffering on the populace, and who are intoxicated with the pathology of narcissism . The entire energy of the Arab population has to go toward massaging the Ego of these megalomaniacal leaders. They have split personality-both parts evil- Religion is a big piece of the fabric of Arab society. Arab are inclined to focus solely on the ritualistic part of religion and ignore the foundation of religion which is the faith in the Almighty God. Sadly, Arab have never deeply absorbed the true teaching of God. In the time of Jaheliah- time before Islam-, Arab used to feel ashamed of having a baby girl. Thus, they used to bury the girl alive. The strict adherence to the practice of virginity has kept the Arab woman in such miserable place . Psychologically , virginity represents to a man that he is the first conqueror of a woman, as if he is in battle and the blood from deflowering woman represent his victory. Arab are inclined to overemphasize the significant of the words and pay less regard to action. That can be also a result of the psychological replacement of action by words . Throughout history, Arab have been traders. Thus, their way of thinking is inclined to be in terms of benefits and losses, and that has been reflected in the way how they deal with each other.***

***The Count of Monte Cristo is an adventure novel by French author Alexandre Dumas. It is one of the author's most popular works, along with The Three Musketeers. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the Mediterranean during the historical events of 1815-1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown throughout the story as characters slowly reveal their true inner nature. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood."***

***Go beyond the pain and fear of sexual abuse to heal the trauma Childhood sexual abuse (CSA) can be a physically and emotionally painful soul-shattering experience that can traumatize a person for a lifetime. The Wall of Fear: Crossing the Wall from Trauma to Recovery from Childhood Sexual Abuse is a unique exploration of the subjective experiences of both client and therapist as they together travel the path to recovery. Therapists get a clear illustration of the therapy process while CSA survivors are offered a gauge with which to judge their own progress toward recovery. New therapeutic concepts are clearly presented and extensively discussed while sensitively charting the experiences of clients on the journey toward healing. As Winston Churchill once said, "If you're going through hell, keep going." The Wall of Fear charts the arduous progress of a survivor from the initial understanding that they need help and guidance, to choosing the correct therapist, to the emotional roadblocks most clients face on their own personal recovery from the hell of CSA. The authors team up to courageously provide readers with a comprehensive and candid portrait of their experiences of CSA therapy while demonstrating the approaches which effectively enhance healing. Features include schematic drawings of the stages of therapy, the client's own diary from her youth through her therapy in adulthood, client drawings illustrating progress in therapy, and effective art exercises that can be used at the beginning of therapy. The text includes extensive references, useful appendixes, and a helpful glossary of terms for the layperson. Topics in The Wall of Fear include: the nature of sexual trauma (the new concept of the World of Trauma) growing up traumatized—and its effect on friendships, sexual development, dating, and mate selection couples' relationships and sexuality selecting a therapist the new concept of The Wall of Fear closure coping with the therapy process parenting by CSA survivors and the impact on the next generation the subjective experiences of both therapist and CSA survivor The Wall of Fear stands as a testament that no matter what sexual trauma a person may endure, there is hope for recovery. This is insightful, crucial reading for survivors of CSA***

The title of the book, The X-Manual, is taken from the word exousia, from the subtitle. It is the Greek word for authority. The word is used throughout the New Testament. For our purposes, it is used to express the divine authority or right to cast out demons—"I have given you authority [exousia] to trample on snakes and scorpions and to overcome all the power of the enemy; nothing will harm you" (Luke 10:19 NIV). Jesus gives believers authority to cast out demons. This book is about spiritual authority over evil. The X-Manual is a practical "how to" handbook for clergy and laity on deliverance and exorcism. One reason I wrote the book is because so few understand and/or operate effectively in deliverance ministry. Nowhere is the church more inadequate or excessive than in deliverance ministry. The X-Manual contains specific time-tested biblical instructions on selecting and training a deliverance team, pre-deliverance work, the deliverance session, post-deliverance work, and other useful tools like the C1-13 instrument that helps determine if one needs deliverance. Deliverance is essential to the church's New Testament healing and evangelism ministry. It is time for the church to walk in the authority and power that Christ gave us to set the captives free!

Discussing contemporary perspectives and new developments in the field of English language studies has gained ascendancy in view of the fact that such concerns about learning and teaching English make important contributions to society. Such discussions are of critical importance in today's globalised societies and more needs to be done towards collaboratively presenting the growing wealth of quality research in linguistics and literature. Linguists and scholars continue to champion the need to interrogate the discourse of literary and language texts using a number of critical frameworks that help sensitise readers to the ideological nature of literary discourse and the ways in which certain dominant ideas of nation, race, ethnicity and gender are ratified or challenged. Readers need to be constantly challenged to think, interpret and evaluate differing views and perspectives. The collection of chapters in this book explores contemporary issues and perspectives in linguistics and literature among educators and researchers whose primary focus is to examine the manner in which English is used for various educational purposes from traditional curriculum demands to answering broader questions about human knowledge, global citizenship and social engagement.

"Describes a series of situations in which people are reconciled to some injustice and manage to come to a better understanding and, sometimes, to forgive . . . For anyone interested in the subject, I would highly recommend it." --Rachel Billington, "Inside Time" in the National Newspaper for Prisoners How could survivors of the Burma Road, the Siberian Gulag, or Nazi atrocities forgive those who harmed them? How can representatives of entire populations--Australian Aborigines, African Americans, and black South Africans--be reconciled with whites who exploited them? And how can the offenders find the grace to apologize? Michael Henderson writes about dozens of remarkable people of many nations and faiths who have, by repentance and forgiveness, been able to break the chain of hate through repentance and forgiveness.

"Testimony of Life's Journey: Breaking the Silence," is a short story of real-life facts. Every day a detrimental crime is committed and is often thrown into the unknown. My works of art are designed to show, that no matter what we do, there is a consequence that follows disobedient behavior. Then there is another side as well, which conquers the negativity into a brighter positive light. Some Individuals lack spiritual beliefs and is not connected with the power source of our life. God the Father created each of us and we must understand, our lives would be divinely fulfilled if his principles are followed. We think we don't have to listen to any of his commands, but that is far from the truth. When we're drowning in overbearing detriments, our psychological abilities are weakened. Once we realize God has the power to change our wrongdoings, from bad to good, we blossom like a flower. We must also realize, with a blink of an eye, any unwise decision, could reverse the good deed, back to bad. Continuous behavior will cause a domino chain reaction; not good. When we become an obedient follower, we are no longer imprisoned within our mind, body and spiritual soul; we gain strength. We must trust in the Lord with all our hearts, and lean not to our understanding, but acknowledge him, and he will direct our path. Our pain that we manifest, will reverse, into purpose. Many of us have abused either our children, our mates, and our negative worldly habits. Until we get an understanding, that disobedient behavior is abnormal

and is not favored by God, the cycle will continue. I was abused as a child, by adults with undesirable disobedient characteristics. In my teen years, I gained confidence and felt, I could protect myself against any negativity that came my way. I decided not to walk with my head down anymore, but prayed to God and asked for help. I needed the wisdom and understanding, of how not to get in trouble. In my mind, I wanted to get revenge on anyone that stepped upon me, negatively. Often, we don't think about the things we say and do, but the smallest actions could cause the biggest problems. We overlook defiled behavior until we lose control, then we want to cry and plead insanity. Abuse is a major offense, it comes in many forms: physical, sexual, mental, emotional, and many more. My question, "why would a parent that birthed a child, and supposed to love them, embarrass them in front of others? Why would an adult exercise their unethical character, by belittling others, especially children?" It's hurtful and degrading when the cruelty is being admonished by the person you live with. Beware, because they could be hiding behind a mask.

***Is the person you love most in the world actually destroying you? Sometimes, it's not so simple for individuals in abusive relationships to just break free. Author Tracy S. Deitz, a trained advocate for victims of domestic violence, tells the story of Lydia, a survivor of an abusive marriage who offers a lifeline to anyone who feels trapped in a destructive home. Break the Cycle: Healing from an Abusive Relationship is Lydia's profoundly honest and hopeful guide to gaining the strength, insight, and resources necessary to inspire anyone who wants to forge a new and positive path in life. Encouraging and easy to read, this invaluable book will help both victims and those who care about them to break through the confusion of this complex emotional struggle. By sharing Lydia's personal account about many years on a relational roller coaster, the author offers a vital perspective to individuals who are torn between keeping their covenant vow and trying to survive in a dysfunctional relationship with an unrepentant spouse. Integrating research, Scriptures, and personal anecdotes, the text illustrates practices for healing and finding clarity. From discussing isolation to awakening courage, each chapter identifies challenges and solutions, culminating with study questions for individual reflection or small-group discussions. The guide tackles issues surrounding alcoholism, Christianity and what the faith community teaches about honoring a vow, with daily illustrations of the challenges victims face. While illuminating the dilemmas of loving someone who is an abuser, Break the Cycle: Healing from an Abusive Relationship offers those suffering from this national epidemic a chance to find security, confidence, and peace. Millions of people in this country desperately need to discover the hope that is available to them through a personal relationship with God, rather than religiosity. This poignant, inspiring guide can do just that.***

***This inter-disciplinary collection explores the wealth of nuances surrounding the concept and practice of forgiving. The essays within this work ask what it means to forgive, what constitutes an appropriate space to forgive, what is to be expected of the victim and wrongdoer, what actions must be connected to political forms of forgiveness?***

***This book represents the first serious consideration of the 'domestic noir' phenomenon and, by extension, the psychological thriller. The only such landmark collection since Lee Horsley's The Noir Thriller, it extends the argument for serious, academic study of crime fiction, particularly in relation to gender, domestic violence, social and political awareness, psychological acuity, and structural and narratological inventiveness. As well as this, it shifts the debate around the sub-genre firmly up to date and brings together a range of global voices to dissect and situate the notion of 'domestic noir'. This book is essential reading for students, scholars, and fans of the psychological thriller.***

***Is therapy's relational turn only something to celebrate? It is a major worldwide trend taking place in all the therapy traditions. But up to now appreciation of these developments has not been twinned with well-informed and constructive critique. Hence practitioners and students have not been able to engage as fully as they might with the complex questions and issues that relational working presents. Relational Psychotherapy, Psychoanalysis and Counselling: Appraisals and reappraisals seeks to redress this balance. In this unique book, Del Loewenthal and Andrew Samuels bring together the contributions of writers from several countries and many therapy modalities, all of whom have engaged with what 'relational' means – whether to espouse the idea, to urge caution or to engage in sceptical reflection. Relational Psychotherapy, Psychoanalysis and Counselling: Appraisals and reappraisals presents clinical work of the highest standard in a way that is moving and draws the reader in. The more intellectual contributions are accessible and respectful, avoiding the polarising tendencies of the profession. At a time when there has been a decline in the provision and standing of the depth therapies across the globe, this book shows that, whatever the criticisms, there is still creative energy in the field. It is hoped that practitioners and students in psychoanalysis, psychotherapy counselling and counselling psychology will welcome this book for its cutting edge content and compassionate tone.***

**Traditionally, criminal profiling texts have focused exclusively on the technicalities of conducting an investigation, but recent developments in criminal justice have encouraged greater consideration of the related fields of psychiatry, forensics, and sociology. Highlighting the current paradigm shift in criminology towards a cross-disciplinary understanding of behavior, *Police and Profiling in the United States: Applying Theory to Criminal Investigations* provides investigators with the insight necessary to view events, data, and evidence in the context of contemporary theory. Topics include: Classical and determinist views on criminal behavior and social theories on crime Inductive and deductive logic and the dangers of fallacies in logical reasoning Childhood deviant behaviors and research on the historical search for an explanation of criminal behavior Developing typologies based on different criminal characteristics Sexually based offenses, serial and rage killings, and hero complex killers The critical role of crime scenes in investigations and the Locard exchange principle The value of geographic profiling in solving crimes and modern approaches such as COMPSTAT Balancing the role of victims in crime solving with concern for their well-being The book concludes with scintillating profiles of 13 of the most notorious serial killers. Written in a practical and approachable manner, this book enables investigators to combine theory, instinct, and hunches with contemporary technology to construct a solid criminal profile.**

**All her life, Sophie's tried to earn her father's love to no avail. Even her one chance for happiness was crushed beneath his tyrannical thumb, leaving her firmly on the shelf at forty-one. Sophie accepts her fate until she impulsively uses her father's criminal activities to escape a life of servitude and right a wrong at the same time. She never really expected the Devil of Devlyn to actually accept her rash proposal, and she certainly hadn't planned on falling in love with a younger man. When Quentin Blackwell, Earl of Devlyn, discovered the woman he loved was carrying another man's child, he refused to marry her. In retaliation, her father ruined Devlyn. When Sophie Hamilton, the man's eldest daughter, comes to him with an unexpected offer, Devlyn seizes the chance for vengeance. What he doesn't bargain on is how revenge could cost him the one thing he wants the most. Sophie's love.**

**This book provides an easily accessible, practical yet scholarly source of information about the international concern for the philosophy, theory, categories and concepts of lifelong learning. Written in a straightforward understandable manner, the book examines in depth the range of philosophical perspectives in the field of lifelong learning theory, policy, practice and applied scholarship.**

**Violence so often begets violence. Victims respond with revenge only to inspire seemingly endless cycles of retaliation. Conflicts between nations, between ethnic groups, between strangers, and between family members differ in so many ways and yet often share this dynamic. In this powerful and timely book Martha Minow and others ask: What explains these cycles and what can break them? What lessons can we draw from one form of violence that might be relevant to other forms? Can legal responses to violence provide accountability but avoid escalating vengeance? If so, what kinds of legal institutions and practices can make a difference? What kinds risk failure? *Breaking the Cycles of Hatred* represents a unique blend of political and legal theory, one that focuses on the double-edged role of memory in fueling cycles of hatred and maintaining justice and personal integrity. Its centerpiece comprises three penetrating essays by Minow. She argues that innovative legal institutions and practices, such as truth commissions and civil damage actions against groups that sponsor hate, often work better than more conventional criminal proceedings and sanctions. Minow also calls for more sustained attention to the underlying dynamics of violence, the connections between intergroup and intrafamily violence, and the wide range of possible responses to violence beyond criminalization. A vibrant set of freestanding responses from experts in political theory, psychology, history, and law examines past and potential avenues for breaking cycles of violence and for deepening our capacity to avoid becoming what we hate. The topics include hate crimes and hate-crimes legislation, child sexual abuse and the statute of limitations, and the American kidnapping and internment of Japanese Latin Americans during World War II. Commissioned by Nancy Rosenblum, the essays are by Ross E. Cheit, Marc Galanter, Fredrick C. Harris, Judith Lewis Herman, Carey Jaros, Frederick M. Lawrence, Austin Sarat, Ayelet Shachar, Eric K. Yamamoto, and Iris Marion Young.**

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck’s in the elevator? Just as Will’s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck’s cigarette. Will doesn’t know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

The Saga of the Aryan Race is a historical epic about the origins of the Aryan people. The Saga chronicles the ancient Indo-Europeans of twenty thousand years ago, who proudly called themselves the Aryans - the Noble Ones. They were the first worshippers of Ahura Mazda, the name of God in the ancient Aryan tongue of Avestan. The Saga is a work of historical fiction based on Zoroastrian scriptures. Volumes I and II speak of the early days of the Aryans in the ancestral homeland Airyane Vaejahi, the seedland of the Aryans, and the great migrations to Iran, land of the Aryans. Volumes III, IV and V carry on with the childhood and youth of the first Aryan prophet, Asho Zarathustra, his revelations from the Creator Ahura Mazda and his divine mission to rejuvenate the ancient religion in Iran. Ancient Avestan words and concepts from sacred texts such as the Gathas, Vendidad, and Yashts, are woven into the story in a way that makes these lofty ideals easy to understand. This is a wonderful legend from the time of the Aryan ancestors that is little known in the Western world. The author, Porus Homi Havewala, born in India, is descended from the Aryan forefathers who settled in Iran. A group of Aryans, known as Parsi Zoroastrians, migrated to India after the Arab conquest of Iran in order to preserve their ancient Aryan religion. The aim of the author in writing this book is to inspire his fellow Aryan Zoroastrians, especially the young, with faith and righteous pride in their religion, like their Aryan ancestors in ancient times, as well as to educate others about the remarkable history and beliefs of the Aryan peoples.

*In this book "World Peace," we will found out that, there is not separation between our individual lives and the universe. It is why i am relating my daily life with the celebration of the "World Peace." "World Peace" is not a theory. It is not an expectation!!! "World Peace" is and eternal and unlimited reality that we all possess, since the time without beginning and end. Each individual is the manifestation of the law of life. The celebration of "World Peace" is the awareness and the awakening of our Buddhahood or our divine nature within each of us!!! To the contrary of what we all think and believe in our society, we have never lost our peace, it is not a given thing in life. "World Peace" is a sleeping quality that we can awaken anytime!!! We have our free will to continue to fool ourselves. But human beings are at the center of "World Peace" and are the question and answer of it. "World Peace" will never come from anything outside our lives like, the government, any secular and religious institutions, any country, any groups, any culture and any tradition!!! It will only come from the heart of each individual. When we talk about our heart, we don't mean our level of emotions and thoughts. But our reality beyond the subconscious!!! Every single phenomenon in life has two aspects, that is the preparatory and the definitive. Birth and death are not beginning and end of anything. They are just means or passages from one existence to another throughout the eternity of life!!! At birth we all are very tiny babies. When we reach our maturity we all are bigger and capable to think. It is why spiritually throughout the eternity of life, we have teachings that are transitory or preparatory to the one that are definitives. We are not going to give names but it is up to each one of us to find out!!! In the "World Peace" celebration, we don't assess life in terms of what is wrong and what is right or what is good and evil. This is a polar thinking that puts us in a box of extremities. Life is an eternal and unlimited one way progression!!! The dynamic definition of wisdom is to be able to adapt a solution at each circumstance in life. We go against life by trying to crystallize things. The individuality is something that is absolute. People who are still suffering dependency, submission, following, adoration of anything outside themselves will work hard to find their freedom!!! There is no need to look for what is wrong or what is right. Life being a dynamic motion, it is important to find what is appropriate for the moment. It is important to be able to live in the now. Our present moment contains our eternity which are our past, our present and our future!!! It is how we develop a peace of mind and strong faith. When we say strong faith, we don't imply any kind of dependency that takes us away from ourselves. But the conviction and confidence that comes with the knowing or the perception of our true nature or reality!!! It is just like flipping the switch of the electrical light in a dark room. Knowledge does to ignorance, what light does to darkness. In between there is action that needs courage that takes full responsibility of our lives, knowing that at each moment we write eternally the whole script of our own lives!!! We always look for easy ways to go through life. We even think that happiness is the absence of conflicts, violence, fights and wars. But that is not the case, everything being eternal, happiness is an indestructible state of life that uses everything without exception, positively throughout the eternity!!! The key point here is to raise our awareness of true reality. The time has arrived for each of us to clean up our subconscious in order to enjoy the full functioning of all our consciences. In doing so, the energy coming from our ninth consciousness, the palace of our entity of life will flow in full harmony without any obstruction and disturbance!!! The essence of life becomes the main actor!!!*

PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one

of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Real World Application of the Judeo-Christian faith for the Military, Intelligence, and Law Enforcement communities. Principles and guidelines for those serving in all nations and cultures. The Lord God says "Thou shalt not kill", yet kill we do. Cain killed Abel. Criminals steal, destroy, and kill. Soldiers kill the enemy. The enemy kills us. Then comes the day you pull the trigger and send someone into eternity. You did what must be done. Some say it had to be done, but you still sinned. Others say it's all a sin and should not be done it all. But, where does that leave you? This book has the answers. Is "Thou shalt not kill" really that cut and dry? Are there Biblical precedents or provisions for Christians to do what is necessary in the line of duty without sinning? Is doing your duty, to God and Country, the dirty work, really a sin? No, it's just the opposite. What God authorizes and the support He provides will surprise, encourage, and empower you. Ministers of Vengeance Gives Biblical guidance during undercover ops: for lying, stealing, sabotage, and more. Looks at subjects like lethal force authority, and different religious views of warfare. Draws a blueprint for prayer and a covenant mindset toward the enemy and for yourself. Discusses PTSD; concepts of mental, emotional and physical healing, help, and prevention. Examines spiritual gifts and help from the Holy Spirit and angels for the dirty work. Tackles the Problem of Evil and presents a Biblical Just War Theory or Doctrine of Violence. Pro Deo Et Patria (For God and Country)

Describes how to develop greater self-esteem in children and build open, caring relationships.
