many people conjure up when you mention curiosity. An image perpetuated by a dusty old proverb that has long represented the extent of our understanding of the term. This book might not put the proverb to rest, but it will flip it upside down: far from killing anything, curiosity breathes new life into almost everything it touches. In *Curious?* Dr. Todd Kashdan offers a profound new message missing from so many books on happiness: the greatest opportunities for joy, purpose, and personal growth don't, in fact, happen when we're searching for happiness. They happen when

we are mindful, when we explore what's novel, and when we live in the moment and embrace uncertainty. Positive events last longer and we can extract more pleasure and meaning from them when we are open to new experiences and relish the unknown. Dr. Kashdan uses science, story, and practical exercises to show you how to become what he calls a curious explorer—a person who's comfortable with risk and challenge and who functions optimally in an unstable, unpredictable world. Here's a blueprint for building lasting, meaningful relationships, improving health, increasing

al-Ghazali (1058-1111CE) This enchanting tale illustrates how that the human heart is like a rusty mirror which, when polished through beautiful doings, is able to reflect the real essence of all things. In addition to this story is a poem by the renowned poet, Coleman Barks. Both draw on the same account found in Ghazali's The Marvels of the Heart, Book XXI, of his magnum opus, The Revival of Religious Sciences.
