I have been training horses since I was a boy. I have some stories to tell, and some advice for horse owners and everyone else, and I would like to share it here. Horses have been part of my life since the day I was born. They have taught me a great deal. I was so excited about sharing my passion with everybody who has horses and who wants to build a real

God created a game -
it's called The Game of
Life. Planet Earth is
the playing field, the
10 love commandments are
the rules, and we humans
are the players who can
win or lose. The game is
played by two teams,
like the game of
football. One team's
head coach is Jesus and
the other team's head
coach is Satan. All of
us on earth are playing
for one of these two
teams! Gabriel Ansley

Bible. The handbook
says, "God declared the
end from the beginning"
(Isaiah 46:10) by using
7 days in the creation
event. Each 24 hour
creation day foretold of
a future 1,000 year
period for a total 7,000

And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium! Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red

AC Ace chassis with an American Ford V8 engine. It was retained by the Shelby family until 2016, when it sold at auction for a record \$13.75 million.

CSX2001 was the first production Cobra, and was delivered to American racing driver Ed Hugus. It was later sold to Frenchman Jean-Marie Vincent, who raced in the Tour de France and in numerous European hillclimbs. CSX2002 was the first Cobra to race and nearly won its inaugural outing at Riverside, driven by Bill Krause, until sidelined by a broken rear hub. It did take the first ever Cobra win, with Dave MacDonald at Tucson

in March 1963. Its success led to a series of competition wins that made Shelby's Cobras famous and admired across the globe. All three cars are now the pride of car collections in the United States of America. CSX2000 and CSX2002 are part of the Larry Miller Collection, and CSX2001 belongs to California-based motorsport aficionado Bruce Meyer.

This book tells the remarkable history of an Alfa Romeo Monza and its characterful drivers and owners, some with life stories worthy of a movie script. Built in 1933, '221130' was raced that year by the Hon. Brian Lewis and

For many years the British motorcycle industry was the largest in the world, not counting low - powered mopeds and scooters and the like. After World War II the motorcycle industry was the third largest source of foreign exchange for the United Kingdom after motor cars and Scotch whiskey. Yet by 1975 the industry was essentially dead. What led to the fall of the

motorcycle industry in Britain, after virtually defining the country for so long? Shooting Star: The Rise and Fall of the British Motorcycle Industry is the first comprehensive look at the motorcycle industry with a critical look at business and trade practices that led to its demise. The full romance, beauty and excitement of the machines and especially the top racers who rode them is captured here, but it's all blended for the first time with information about the lesser known businessmen who built the companies and then ran them into the ground, as well as a critical look at some of the engineers and designers who were brilliant and badly flawed at once. The failures of the British motorcycle industry are a painful object lesson for the

Indian is a magic name in motorcycling. Its mention brings to mind machines with flamboyant bold striping, lithe of appearance and, seemingly even at rest, poised for flight. There were over two dozen makes of motorcycle on the market during the heyday of motorcycling in the United States. Yet in the minds of many enthusiasts, none of these quite approached the verve, style, artistic functionality of design or handling abilities of the Indian. The Iron Redskin is the story of the most loved of American motorcycles. It is a vast work that has taken many thousands of hours to compile, yet it is one of the most readable and

set off on the challenge
of a lifetime. His dream
to ride a 102 year-old FN
motorcycle across the
world - to the Belgian
factory where the bike
originated - had all the
hallmarks of an epic
adventure: one that was

For eight months Ron rode 14,600 kilometres through 15 countries under grueling conditions, into some of the world's most hostile territory. He faced desert sandstorms, mountains too steep for the motorcycle's capability, the threat of rockslides and bombings when he took a detour, and pressure from armed police through conflict zones. He was robbed, and when held at gunpoint, Ron came face-to-face with his own mortality. The motorcycle's limited capacity - no gears,

Beautifully illustrated in full colour throughout, *No Room for Watermelons* is co-written by Ron and Lynne.

It is an engaging, and entertaining account of one man's stoic determination to fulfill his dream. You will be carried along for the ride, and inspired to

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of

the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and
