When the people of Flint, Michigan, turned on their faucets in April 2014, the water pouring out was poisoned with lead and other toxins. Through a series of disastrous decisions, the government had switched the city's water supply to a source that corroded Flint's aging lead pipes. Complaints about the foul-smelling water were dismissed: the residents of Flint, mostly poor and African American, were not seen as credible even in matters of their own lives. It took eighteen months of activism by city residents and a band of dogged outsiders to force the state to admit that the water was poisonous. By that time, twelve people had died and Flint's children had suffered irreparable harm. The long battle for accountability and a humane response to this man-made disaster has only just begun. In the first full account of this American tragedy, Arundhati Clark's *The Poisoned City* recounts the gripping story of Flint's poisoned water through the people who caused it, suffered from it, and exposed it. It is a chronicle of one town but could also be about any American city, all made precarious by the neglect of infrastructure and the erosion of democratic decision making. Places like Flint are set up to fail—and for the people who live and work in them, the consequences can be fatal.

This book analyzes immigration policies in East Asia in the context of contemporary global migration flows and mobility. To assess how global norms of migration have impacted the East Asian migration region and explore regional migration trends, the book contains 13 case studies which investigate the regulation of immigration in China, Hong Kong, Japan, South Korea, and Taiwan. Three analytical strands, namely, norm

diffusion, identity politics, and citizenship, build the theoretical framework for the case studies which investigate how regional and national norms, discourses, and institutions affect local communities and migration patterns. In particular, the book analyzes contemporary issues such as immigration policy reforms, practices of inclusion and exclusion in local communities, and discourses on multiculturalism and risk. The book utilizes a comparative perspective which enables readers to reflect on the role of national identity, international organizations and law, public security concerns, and labour market demands in the articulation and implementation of contemporary immigration policy in East Asia. This book substantially complements the existing literature on immigration governance and interregional migration mobility in East Asia and will be of interest to academics in the fields of East Asian studies, public policy, immigration and migration studies, and comparative politics.

New York Times bestselling author and star of *2 Dope Queens*, Phoebe Robinson is back with a new, hilarious, and timely essay collection on gender, race, dating, and the dumpster that is our world. Wouldn't it be great if life came with instructions? Of course, but like access to Michael B. Jordan's house, none of us are getting any. Thankfully, Phoebe Robinson is ready to share everything she has experienced and prove that if you can laugh at her topsy-turvy life, you can laugh at your own. Written in her trademark unfiltered and witty style, Robinson's latest collection is a call to arms. Outfitted with on-point pop culture references, these essays tackle a wide range of topics: giving feminism a tough-love talk on intersectionality, telling society's beauty standards to kick rocks, and calling foul on our culture's obsession with

work. Robinson also gets personal, exploring money problems she's hidden from her parents, how dating is mainly a war over a bowl of hot mess, and definitely most important, meeting Bono not once, but twice. She's struggled with being a woman with a political mind and a woman with an ever-changing jeans size. She knows about trash because she sees it every day--and because she's seen roughly one hundred thousand hours of reality TV and zero hours of Schindler's List. With the intimate voice of a new best friend, *Everything's Trash, But It's Okay* is a candid perspective for a generation that has had a rug pulled out from under it too many times to count.

In *The Revival of the Anu Cult*, Julia Krul reconstructs the role of the sky god Anu at Late Babylonian Uruk (ca. 480-100 B.C.) and offers an analysis of the yearly fire ceremony at the Anu temple, the B?t R?š.

Join young Cam as he explores San Francisco from Above. His imagination affords him the flight of a lifetime as he takes off from his neighborhood of Painted Ladies and soars high above the Golden Gate Bridge, Coit

Tower, the Transamerica Building, the constant and mysterious fog, crooked Lombard Street, the Ferry Building and more! The beloved photographs of Robert Cameron and his hometown of San Francisco take on a child-like wonder when viewed through the eyes of Cam. **NEW YORK TIMES BESTSELLER** From the mind of Broad City's Abbi Jacobson, author of *I Might Regret This*, a wonderfully weird and weirdly wonderful illustrated look at the world around us—all through the framework of what we carry. "Jacobson's art is warm, textured, and carefully composed, a little bit Maira Kalman and a little bit Roz Chast. It's also genuinely funny." *Vox* With bright, quirky, and colorful line drawings, Jacobson brings to life actual and imagined items found in the pockets and purses, bags and glove compartments of real and fantastical people—whether it's the contents of Oprah's favorite purse, Amelia Earhart's pencil case, or Bernie Madoff's suitcase. How many self-tanning lotions are in Donald Trump's weekender? What's inside Martha Stewart's hand-knit fanny pack? What kind of protein bars does Michelle Obama hide in her tiny clutch at the White House Correspondents' Dinner? An instant New York Times bestseller, *Carry This Book* provides a humorous and insightful look into how the things we carry around every day make up who we are.

An eye-opening and essential tour of the vanishing world What if Atlantis wasn't a myth, but an early precursor to a new age of great flooding? Across the globe, scientists and civilians alike are noticing rapidly rising sea levels, and higher and higher tides pushing more water directly

into the places we live, from our most vibrant, historic cities to our last remaining traditional coastal villages. With each crack in the great ice sheets of the Arctic and Antarctica, and each tick upwards of Earth's thermometer, we are moving closer to the brink of broad disaster. By century's end, hundreds of millions of people will be retreating from the world's shores as our coasts become inundated and our landscapes transformed. From island nations to the world's major cities, coastal regions will disappear. Engineering projects to hold back the water are bold and may buy some time. Yet despite international efforts and tireless research, there is no permanent solution — no barriers to erect or walls to build — that will protect us in the end from the drowning of the world as we know it. *The Water Will Come* is the definitive account of the coming water, why and how this will happen, and what it will all mean. As he travels across twelve countries and reports from the front lines, acclaimed journalist Jeff Goodell employs fact, science, and first-person, on-the-ground journalism to show vivid scenes from what already is becoming a water world. "This harrowing, compulsively readable, and carefully researched book lays out in clear-eyed detail what Earth's changing climate means for us today, and what it will mean for future generations ... It's a thriller in which the hero in peril is us." —John Green, bestselling author of *The Fault in Our Stars* "Jeff Goodell grabs you on the first page and doesn't hold up until this essential story is told. He presents a vivid warning and a call to arms to the generation that gets to decide how fast, and how high, the water will come." —Scott Ludlam, former

Australian Greens Senator "A well-rounded, persuasive survey.... A frightening, scientifically grounded, and starkly relevant look at how climate change will affect coastal cities." "Kirkus, Starred Review "In this engaging book, environmental writer Goodell points out that while sea levels have always risen and fallen, the current rise is driven primarily by the dramatically accelerating melting of the arctic ice caps, and with so many cities on seashores, this will be devastating." The Sinitic Civilization A Factual History through the Lens of Archaeology, Bronzeware, Astronomy, Divination, Calendar and the Annals The book covered the time span of history of the Sinitic civilization from antiquity, to the 3rd millennium B.C. to A.D. 85. A comprehensive

review of history related to the Sinitic cosmological, astronomical, astrological, historical, divinatory, and geographical developments was given. All ancient Chinese calendars had been examined, with the ancient thearchs ' dates examined from the perspective how they were forged or made up. The book provides the indisputable evidence regarding the fingerprint of the forger for the 3rd century A.D. book Shangshu (remotely ancient history), and close to 50 fingerprints of the forger of the contemporary version of The Bamboo Annals. Using the watershed line of Qin Emperor Shihuangdi ' s book burning of 213 B.C., the book rectified what was the original history before the book burning, filtered out what was forged after the book burning, sorted out the sophistry and fables that were rampant just prior to the book burning, and validated the history against the records in the oracle bones, bronzeware, and bamboo slips. The book covers 95-98% and more of the contents in the two ancient history annals of The Spring Autumn Annals and The Bamboo Annals. There are dedicated chapters devoted to interpreting Qu Yuan ' s poem Asking Heaven (Tian Wen), the mythical book The Legends of Mountains & Seas (Shan Hai Jing), geography book Lord Yu ' s Tributes (Yu Gong), and Zhou King

Muwang ' s Travelogue (Mu-tian-zi Zhuan). The book has appendices of two calendars: the first anterior quarter remainder calendar (247 B.C.-104 B.C./247 B.C.-85 A.D.) of the Qin Empire, as well as a conversion table of the sexagenary years of the virtual Yin-li (Shang dynasty) quarter remainder calendar versus the Gregorian calendar, that covers the years 2698 B.C. to 2018 A.D. Book I stops about the midpoint of the 242 years covered in Confucius ' abridged book The Spring & Autumn Annals (722-481 B.C.). Book II stops at Han Emperor Zhangdi (Liu Da, reign A.D. 76-88; actual reign Aug of A.D. 75-Feb of A.D. 88), with the A.D. 85 adoption of the Sifen-li posterior quarter remainder calendar premised on reverting to the sexagenary years of the virtual Yin-li (Shang dynasty) quarter remainder calendar, a calendar disconnected from the Jupiter ' s chronogram, that was purportedly invented by the Confucians on basis of Confucius ' identifying the ' qi-lin ' divine giraffe animal and wrapping up the masterpiece The Spring & Autumn Annals two years prior to death.

Long-listed for the 2018 Man Booker Prize Short-listed for the 2018 Gordon Burn Prize Short-listed for the 2018 Goldsmiths Prize Inspired by the real-life murder of a British army soldier by religious fanatics, Guy Gunaratne's In Our Mad and Furious City is a snapshot of the diverse, frenzied edges of modern-day London. A crackling debut from a vital new voice, it pulses with the frantic energy of the city's homegrown grime music and is animated by the youthful rage of a dispossessed, overlooked, and often misrepresented generation. While Selvon, Ardan, and Yusuf organize their lives around soccer, girls, and grime, Caroline and Nelson struggle to overcome pasts that haunt them. Each voice is uniquely insightful, impassioned, and unforgettable, and when stitched together, they trace a brutal and vibrant tapestry of today's London. In a forty-eight-hour surge of extremism and violence, their lives are inexorably drawn together in the lead-up to an explosive, tragic climax. In Our Mad and Furious City documents the stark disparities and bubbling fury coursing beneath the prosperous surface of a city uniquely on the brink. Written in the distinctive vernaculars of contemporary London, the novel challenges the ways in which we coexist now—and, more important, the ways in which we often fail to do so.

Seedy, sly London private detective Nick Duffy is on the case in a series that's "exciting, funny and refreshingly nasty" (Martin Amis). Nick Duffy was a

copper on the vice squad until malicious rumors about his own sex life ripped through the force. Now he's in private security. No stranger to London's seedier offerings, Duffy is just the right man for cases that are a little morally slippery—in a sharp-witted series that has “the snap and crackle of Raymond Chandler” (The Washington Post Book World). In these four novels, “it is the Nabokovian blend of funny and sinister, the sense of tongue in scarred cheek, that lingers” (The Sunday Times). Duffy: Hired by a disreputable businessman who's being blackmailed by one of the city's most dangerous crime lords, Duffy must navigate Soho's underworld of prostitutes, porn moguls, and hoods. “One of the most colourful and entertaining English thrillers.” —London Evening Standard

Fiddle City: The freight thieves of Heathrow Airport have a problem: Someone has been pilfering more than his share. These Heathrow hoods need a private detective to find out who's been robbing them—and down-and-out Duffy takes the case. “The characterization is exact, the action gripping, and the writing pleasantly ironic.” —The Times (London)

Putting the Boot In: Every football team expects injuries, but Third Division Athletic seems to be exceptionally unlucky. The manager hires Duffy to find out who's intentionally kicking the team while it's down, and soon he's taking on everyone from diehard fans to hard-core skinheads. “Kavanagh is as beady-eyed and hilarious as ever, Duffy a disgraceful chuckle and more.” —The Observer

Going to the Dogs: As the security consultant who installed a dodgy burglar alarm, Duffy is called to a country manor to find out who defenestrated the owner's dog. But he arrives to find Braunscombe Hall full of

eccentric guests, aka suspects. "In Going to the Dogs, author Dan Kavanagh does it with verve and humor."

Hard Truths and Amazing Grace Isaiah, Jeremiah, Ezekiel, and Daniel spoke words of warning, comfort, and punishment to the people of Israel in Judah and during the Babylonian Captivity. Though they faced incredible loss and persecution as they grieved the choices the Israelites made, these major prophets of the Old Testament fulfilled their role as God's voice to a

rebellious people. In this highly respected commentary, Dallas Theological Seminary scholars explore the historical and cultural background of the prophets, the literary devices they used, and what these books teach us about God's call to us to follow Him today.

While 20th century architecture learned to control the climate of a building, the architecture of the 21st century needs to learn to cope with the climate of cities. Problems such as urban heat and air pollution

need to be included in planning and design. Based on empirical realities in Cairo, Chongqing, Geneva and Santiago de Chile, the book underlines that the materiality and social practices attached to room heating, compound greening, street alignment or climate policies together form the tissue for contemporary urban climates. It interweaves socio-cultural with meteorological data and pioneers the new concept of "thermal governance" by linking architectural and technological as well as legal and economic dimensions of climate control in urban environments.

A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. “Stirring . . . [a] blueprint for all those who believe . . . that ‘the world . . . should be

full of people raising their voices.”—The New York Times “Revealing, with the gripping intrigue of a Grisham thriller.” —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don’t See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family’s activist roots inspired her pursuit of justice. *What the Eyes Don’t See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don’t See* “It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero.”—Erin Brockovich “A clarion call to live a life of purpose.”—The Washington Post “Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page.”—The New York Times Book Review “Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a

Life's tough for a Gypsy detective in Budapest. The cops don't trust you and your fellow Gypsies, even your own family, shun you because you're a cop. But when Balthazar Kovacs, a detective in the city's murder squad, gets a mysterious text, he gulps down his coffee and goes to work. The message has two parts: a photograph and an address. The photograph shows a man, in his early thirties, lying on his back with his eyes open, half-covered by a blue plastic sheet. The address is 26 Republic Square, the former Communist Party headquarters, and once the most feared building in the country. But when Kovacs arrives at Republic Square, the body is gone. Inspired by true events, the novel takes the reader to a hidden city within Budapest and an underworld that visitors never get to see: the gritty back alleys of District VIII; the endemic corruption that reaches deep into government as officials plunder state coffers at will; a

rule of law bent to serve the interests of the rich and powerful; the rising power of international organized crime gangs who use the Hungarian capital as a springboard for their European operations; and a troubling look at the ghosts of Communism (and Nazism) that still haunt Budapest.

This volume is designed to place in context the passionate controversies and emotional attachments of the two billion people who live, study, work, love, and die in the Middle East and South Asia.

The Complete Duffy Series

Above San Francisco

From a New York Times–bestselling author and the “Joseph Wambaugh of the judicial system,” comes the first three legal thrillers in the long-running series (San Diego Tribune). A successful trial lawyer and “one hell of a writer,” Robert Tanenbaum crafts his legal thrillers with authenticity and breath-taking suspense. In these first three books of the series, he introduces Manhattan assistant district attorney Roger “Butch” Karp, who struggles to remain true to himself in an often corrupt judicial system. But with the help of assistant DA Marlene Ciampi, he fights the good fight with energy, wit, and a passion for the truth (New York Post). No Lesser Plea: A brutal murderer hopes feigning insanity

will keep him out of the courtroom. But Butch and Marlene aren't about to let him get away with it. "A page-turner." —San Diego Tribune
Depraved Indifference: Butch is ready to prosecute a group of Croatian terrorists in what should be a slam-dunk case, but everyone from the FBI to the CIA—and even the Catholic Church—is prepared to stop him. "A novel full of whirlwind action . . . Very good." —New York Times Book Review
Immoral Certainty: A remorseless monster is stalking the city's children, forcing Butch and Marlene to descend into the darkest corners of New York's underworld where a benign face can hide an evil soul. "Intricate plotting . . . A rousing finale . . . Frightening." —Los Angeles Times Book Review

From the churches and street corners of Harlem and The Bronx to the underground clubs of the East Village, New York City has been a musical mecca for generations, and Rock & Roll Explorer Guide to New York City is the definitive story of its development throughout the five boroughs. Plug in and walk the same streets a young Bob Dylan walked. See where Patti Smith, the Ramones, Beastie Boys, and Jeff Buckley played. Visit on foot the places Lou Reed mentions in his songs or where Paul Simon grew up; where the Strokes drowned their sorrows, Grizzly Bear cut their teeth and Jimi Hendrix found his vision. Rock and Roll

Explorer Guide gives fans a behind-the-scenes look at how bands came together, scenes developed, and classic songs were written. Artists come and go, neighborhoods change, venues open and close, but the music lives on. From the churches and street corners of Harlem and the Bronx to the underground clubs of the East Village, New York City has been a musical Mecca for generations, and The Rock & Roll Explorer Guide to New York City is an historical journey through its development across all five boroughs. The Rock & Roll Explorer Guide to New York City restores a sense of time and place to music history by identifying and documenting critical points of interest spanning genres and eras, and delineating the places in New York City critical to its musical

development and ultimate triumphs and tragedies. Through this lens, we can see and understand how bands came together, scenes developed, and classic songs were written. In some cases, the buildings are still there, in others only the address remains, but you still get a sense of the history that happened there. Among the many locations in this book are addresses musicians and other key rock & roll figures once called home. In a very few instances we've included current addresses, but only when the location is historically significant and widely known; otherwise, we consciously left current residences out. The Rock & Roll Explorer Guide to New York City is intended as a fun travel guide through music history rather than a means of locating famous musicians. Most New Yorkers understand that everyone has a right to privacy. That's one of the reasons many of these artists live here. Because of the city's rich history, this book cannot be a comprehensive encyclopedia of music, rock venues, or the music industry; nor do we present the definitive biographies of the musicians included. The artists and locations chosen represent a sometimes broad look at the history of rock & roll in the city, with an eye on those who either grew up or spent their formative years here. But there's so much more we couldn't include, and we hope readers will be inspired to go even further, whether they're hitting the streets

themselves or experiencing the city vicariously from afar. Artists come and go, neighborhoods change, venues open and close, but the music lives on.
