Melvin recounts his extraordinary adventures in time and space with his 111-year-old sort of great-Uncle Borgel.

Her name is Jazmin, and like the music of her name, her life throbs and swings?a few flat notes to be sure, but also bursting with rich passages that rise and soar. Sitting on her stoop she fills her notebook with laughs, anger, and hope. There?s the risky lure of ?luscious-looking? men and the consequences of free haircuts. This is a fourteen-year-old so-real girl living in Harlem in the 1960?s, ?born with clenched fists? and big dreams, and strengthened by the love of a steadfast sister. Captured within pages of her tough, exuberant life are all the beauty, chaos, confusion, and clarity that accompany the excitement of exploring life?s possibilities?and discovering they are endless.

A young girl learns much about her mother as she reads a collection of poems written before she was born that capture her mother's memories of living around the world and growing up as a child of an Air Force serviceperson. Includes author's note, list of Air Force bases, and explanation of the free verse and tanka poetry forms used.

The first collection of critical essays on May Swenson and her literary universe, Body My House initiates an academic conversation about an unquestionably major poet of the middle and late twentieth century. Between the 1950s and the 1980s, May Swenson produced eleven volumes of poetry, received many major awards, was elected chancellor of the Academy of American Poets, and was acclaimed by writers in virtually every school of American poetry. Essays here address the breadth of Swenson's literary corpus and offer varied scholarly approaches to it. They reference Swenson manuscripts--poems, letters, diaries, and other prose--some of which have not been widely available before. Chapters focus on Swenson's work as a nature writer; the literary and social contexts of her writing; her national and international acclaim; her work as a translator; associations with other poets and writers (Bishop, Moore, and others); her creative process; and her profound explorations of gender and sexuality. The first full volume of scholarship on May Swenson. Body My House suggests an ambitious agenda for further work. Contributors include Mark Doty, Gudrun Grabher, Cynthia Hague, Suzanne Juhasz, R.R. Knudson, Alicia Ostriker, Martha Nell Smith, Michael Spooner, Paul Swenson, and Kirstin Hotelling Zona.

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

In a series of short interconnected poems, students at a high school nicknamed Brimstone reveal the violence existing and growing in their lives. Jr Lib Guild. Reprint.

During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In The Cultural Cold War, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the New York Times, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

"Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain." --Oliver Sacks, MD, author of The Man Who Mistook His Wife for a Hat What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

Named Outstanding Academic Title by CHOICE Winner of the Wesley Logan Prize of the American Historical Association Winner of the Byron Caldwell Smith Book Prize Winner of the 2014 Albert J. Raboteau Book Prize for the Best Book in Africana Religions Jacob S. Dorman offers new insights into the rise of Black Israelite religions in America, faiths ranging from Judaism to Islam to Rastafarianism all of which believe that the ancient Hebrew Israelites were Black and that contemporary African Americans are their descendants. Dorman traces the influence of Israelite practices and philosophies in the Holiness Christianity movement of the 1890s and the emergence of the Pentecostal movement in 1906. An examination of Black interactions with white Jews under slavery shows that the original impetus for Christian Israelite movements was not a desire to practice Judaism but rather a studied attempt to recreate the early Christian church, following the strictures of the Hebrew Scriptures. A second wave of Black Israelite synagogues arose during the Great Migration of African Americans and West Indians to cities in the North. One of the most fascinating of the Black Israelite pioneers was Arnold Josiah Ford, a Barbadian musician who moved to Harlem, joined Marcus Garvey's Black Nationalist movement, started his own synagogue, and led African Americans to resettle in Ethiopia in 1930. The effort failed, but the Black Israelite theology had captured the imagination of settlers who returned to Jamaica and transmitted it to Leonard Howell, one of the founders of Rastafarianism and himself a member of Harlem's religious subculture. After Ford's resettlement effort, the Black Israelite movement was carried forward in the U.S. by several Harlem rabbis, including Wentworth Arthur Matthew, another West Indian, who creatively combined elements of Judaism, Pentecostalism, Freemasonry, the British Anglo-Israelite movement, Afro-Caribbean faiths, and occult kabbalah. Drawing on interviews, newspapers, and a wealth of hitherto untapped archival sources, Dorman provides a vivid portrait of Black Israelites, showing them to be a transnational movement that fought racism and its erasure of people of color from European-derived religions. Chosen People argues for a new way of understanding cultural formation, not in terms of genealogical metaphors of "survivals," or syncretism, but rather as a "polycultural" cutting and pasting from a transnational array of ideas, books, rituals, and social networks.

"I Am Not" is author Robert E. Draper's attempt to provide insight into our age-old plight of finding ourselves "strangers in a strange land," as well as into the great difficulty we all have in accepting that if we are living in a world of virtual insanity, we are—at least partly—insane too.According to the author, this world is a dystopian battleground, a product of a collective amnesia that has burdened us all with the difficult task of living coherently while working our way back to the awareness of what we are: united; yet believing we are what we are not: separated—all of our hearts breaking over what we know not.The central theme of "I Am Not" is recognizing the futility of our efforts to improve the trap we appear to be in, redirecting those efforts to what we are doing, saving not the world but ourselves. Only thus can we reverse our own course into madness, finding—and demonstrating—there is hope within, right in the middle of a place where there is none to be found without.

NEW YORK TIMES BESTSELLER The "compassionate" (People), "startling" (Baltimore Sun), "moving" (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his "Underrated" Book Club Pick with Literati! The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for the two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, The Other Wes Moore tells the story of a generation of boys trying to find their way in a hostile world. BONUS: This edition contains a new afterword and a The Other Wes Moore discussion guide.

Three boys struggle to come to terms with the death of a friend in a drunk-driving auto accident in which all four were involved. In a story told through newspaper stories, diary entries, school announcements, telephone conversations, and classroom assignments.

Bobby's a classic urban teenager. He's restless. He's impulsive. But the thing that makes him different is this: He's going to be a father. His girlfriend, Nia, is pregnant, and their lives are about to change forever. Instead of spending time with friends, they'll be spending time with doctors, and next, diapers. They have options: keeping the baby, adoption. They want to do the right thing. If only it was clear what the right thing was.

Hughes's last collection of poems commemorates the experience of Black Americans in a voice that no reader could fail to hear—the last testament of a great American writer who grappled fearlessly and artfully with the most compelling issues of his time. "Langston Hughes is a titanic figure in 20th-century American literature . . . a powerful interpreter of the American experience." —The Philadelphia Inquirer From the publication of his first book in 1926, Langston Hughes was America's most beloved poet, always powerful—is more pointed than ever before, as he explicitly addresses the racial politics of the sixties in such pieces as "Prime," "Motto," "Dream Deferred," "Frederick Douglas: 1817-1895," "Still Here," "Birmingham Sunday," " History," "Slave," "Warning," and "Daybreak in Alabama."

This thought-provoking companion to Nikki Grimes' Coretta Scott King Award-winning Bronx Masquerade shows the capacity poetry has to express ideas and feelings, and connect us with ourselves and others. Darrian dreams of writing for the New York Times. To hone his skills and learn more about the power of words, he enrolls in Mr. Ward's class, known for its open-mic poetry readings and boys vs. girls poetry slam. Everyone in class has something important to say, and in so doing, they tell—whether it's about health problems, aging out of foster care, being bullied for religious beliefs, or having to take on too much responsibility because of an addicted parent. As Darrian and his classmates get to know one another through poetry, they bond over the shared experiences and truth that emerge from their writing, despite their private struggles and outward differences.
