BTEC First in Sport Revision Workbook

This textbook covers all knowledge-based core units and the most popular optional units of the BTEC National in sport and exercise sciences. It provides in-depth coverage of the knowledge-based content as a basis for assessment tasks and includes practical examples and clear, student-friendly explanations to ensure understanding of complex issues and enable independent study. The content relates to students’ own experiences and can be used as a basis for case study work.

Provides information for students wishing to narrow their choice of course before turning to prospectuses - saving them precious time when they need it most. Grouped by study field, this volume is divided into subject chapters with courses arranged alphabetically by title and institution.

Based on 20 case studies of people working in sport this book presents examples of careers for graduates with sports science degrees. It also offers advice on how to make the most of your time studying to develop the skills and knowledge needed to get a job and work effectively with sports people in complex, challenging environments.

Annotation. This book has been written in response to a perceived need in initial teacher training to address the pedagogy of vocational programmes in the field as a vocational subject. It is not, therefore, a text book on physical education, but rather focuses on teaching and learning related to preparation for working in the industry.

In October 2004, the Tomlinson report (downloadable at <http://www.dfes.gov.uk/14-19/documents/Final%20Report.pdf>) set out wide-ranging proposals for changes to the curriculum and examination arrangements for the education of 14 to 19 year olds. In February 2005, the Government published its response in the form of a White Paper (Cm 6476, ISBN 9780101647625) detailing a 10-year reform programme including the introduction of 14 new awards (originally called vocational Diplomas): thus rejecting the overarching Diploma award recommended in the Tomlinson report. Whilst stating its belief that the proposed changes would have been better structured and more coherent had Tomlinson’s proposals been adopted, the Committee’s report examines the design, development and implementation of the Government’s Diplomas scheme.

The field of professional, academic and vocational qualifications is ever-changing. The new edition of this practical guide provides thorough information on all developments in these areas in the UK. Fully indexed, it includes details on all university awards and over 200 career fields, their professional and accrediting bodies, levels of membership and qualifications. British Qualifications is a unique resource for human resource managers and university admissions officers to verify the level of a qualification. All Kelly Smith ever wanted to be was a footballer. Blessed with brilliant talent which she honed with hours of practice, it was soon clear to all who saw her that Kelly was the best women’s footballer that this country had ever produced. Yet for this shy girl from Watford, it would be a long and difficult journey to the pinnacle of the world game, and one which would involve the hardest of challenges. After starting drinking to mask her loneliness thousands of miles from home in a new country, she turned to alcoholism. But with the fighting spirit that was so essential on her path to be Britain’s first women’s professional player, Kelly bounced back to inspire Arsenal to countless trophies and become England’s record goalscorer. Footballer: My Story is the inspirational tale of a woman with a drive to succeed. It is the unique inside story of a star in a sport enjoyed by millions yet often not granted the recognition it deserves. And as she nears the end of a glittering playing career, it is a story of a professional league.

An essential component of good practice in physical education is ensuring inclusivity for all pupils, regardless of need, ability or background. Now in a fully revised and updated new edition, Equity and Inclusion in Physical Education fully explores the theoretical and practical issues faced by physical education teachers today. The book amalgamates areas of critical debate within the world of physical education and is structured around the key topics of ability, special educational needs, gender, sexuality, social class, race and ethnicity. These issues are discussed in relation to principles of equity, equality of opportunity, pedagogy, differentiation, curriculum planning and cultural awareness. Other chapters explore contemporary themes such as healthism and obesity and values in physical education and policy, whilst a chapter new to this edition demonstrates the importance of reflexivity and critical self-reflection in good inclusive practice. As well as being a perfect introductory text for any course on inclusion or inclusive practice in physical education, the book offers invaluable, practical advice for established professionals, newly qualified teachers and trainees about how to meet equity and inclusion requirements. Examples of good practice are included throughout, as well as guidance on how to implement an inclusive PE curriculum within the school.

Matches Edexcel’s specification which will apply from September 2007 and includes the core units for the Development, Coaching and Fitness, and Performance and Excellence pathways.

Are you: A woman wanting to return to work after a break? A woman seeking to improve career prospects through education or training? An adviser providing education or training or an employer keen to develop your awareness of the opportunities available to women? If you are any of these you need the Eighth Edition of Returning to Work: a directory of education and training for women. Compiled by the Women Returners Network, this unique directory of education and training for women has been completely revised. It provides information on over 1,700 courses across the UK which offer opportunities and facilities that enable women returners to participate in, for example: shortened-day timetables to fit in with school hours; hands-on experience with information technology equipment; job-sampling experience; the opportunity to assess abilities, discover new interests, widen horizons and develop confidence; and guidance and counselling sessions. Returning to Work also gives vital information on: how to find out what education and training is available; key national training providers; eligibility for mandatory grants and details of awards and sponsorship schemes; national organizations offering further support for women returning to education or training or employment; and local contact points for further information and advice in county or region.
