Like previous editions, this book surveys the major approaches and methods in language teaching such as Grammar Translation, Audiolingualism, Communicative Language Teaching, and the Natural Approach. In addition, this third edition includes content on the teaching and learning environment, with chapters on learners and methods, teachers and methods, plus approaches, methods and the curriculum. Teachers and teachers-in-training will discover that this third edition is a comprehensive survey and analysis of teaching methods used around the world. **This volume examines the nature of second language listening proficiency and how it can be assessed. The book highlights the need for test developers to provide a clear explication of the ability constructs which underpin the tests they offer in the public domain. This is increasingly necessary if claims about the validity of test score interpretation and use are to be supported both logically and with empirical evidence. It operationalises a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components, examining and then analysing Cambridge ESOL listening tasks from the following perspectives: Test Taker; Cognitive Validity; Context Validity; Scoring Validity; Criterion-related Validity; and Consequential Validity.**

*For zoologist Charlotte Uhlenbroek, being besieged by ants or dangled from a balloon high above the forest is all in a day's work. In making her new BBC TV series Jungle she had to deal with all this and more as she investigated the extraordinary relationship between the plants and animals - and people - of the rainforest. Using the latest technology, Charlotte was able to explore the tree canopy in Borneo - a landscape hundreds of feet off the ground, full of all kinds of exotic plant and animal life. Among her other challenges were a boat trip through the flooded forest of the Amazon where pink dolphins swim between the trees and a journey through the dense jungle of the Congo, last refuge of our cousins the gorillas. In the tradition of David Attenborough and Gerald Durrell, Charlotte Uhlenbroek describes her encounters with the world's most exotic flora and fauna in the most entertaining and informative way. Jungle is essential reading for all those who care about the wildest and most vulnerable places on earth - and want to know more.*

It's true that some people spend years studying German before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of German, #LanguageHacking shows you how to learn and speak German through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that

Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in German from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.
