The Wheels on the Bus, a perennial favorite of the toddler set, gets a uniquely Sesame Street spin in this very funny Little Golden Book. Elmo, Grover, and Cookie Monster board a bus and meet some wacky passengers, including a furball with a boombox, frogs, cows, a brass band, and a family of yipping Martians. The sound effects in the chorus reflect the voices and activities of the passengers in a way that will have little ones—and adults—laughing out loud as they join in the song.

An exquisitely illustrated paean to everyone who struggles to learn how to read, and to everyone who won't give up on them, Cal is not the readin' type. Living way high up in the Appalachian Mountains, he'd rather help Pap plow or go out after wandering sheep than try some book learning. Nope. Cal does not want to sit stoney-still reading some chicken scratch. But that Book Woman keeps coming just the same. She comes in the rain. She comes in the snow. She comes right up the side of the mountain, and Cal knows that's not easy riding. And all just to lend his sister some books. Why, that woman must be plain foolish—or is she braver than he ever thought? That Book Woman is a rare and moving tale that honors a special part of American history—the Pack Horse Librarians, who helped untold numbers of children see the stories amid the chicken scratch, and thus made them into lifetime readers.

Expand the sharing movement to your community with Little Free Libraries and Tiny Sheds–your complete source for building tiny sharing structures, including plans for 12 different structures, step-by-step photography and instructions, inspirational examples, and maintenance. Around the world, a community movement is underway featuring quaint landscape structures mounted on posts in front yards and other green spaces. Some are built for personal use, as miniature sheds for gardeners or as decorative accent pieces. More commonly, though, they are evidence of the growing trend toward neighborhood organization and community outreach. This movement has been popularized by Wisconsin-based Little Free Library (LFL), whose members currently include 75,000 stewards seeking to build community togetherness and promote reading at the same time by sharing books among neighbors. LFL has inspired builders to use similar structures to share things like CDs, food, garden tools, and seeds in the community. Produced in cooperation with Little Free Library, Little Free Libraries and Tiny Sheds is the builder's complete source of inspiration and how-to knowledge.

Illustrated throughout with colorful step-by-step photography and a gallery of tiny structures for further inspiration, Little Free Libraries and Tiny Sheds covers every step: planning and design, tools and building techniques, best materials, and 12 complete plans for structures of varying size and aesthetics. In addition, author and professional carpenter Phil Schmidt includes information on proper installation of small structures and common repairs and maintenance for down the road. Little Free Libraries and Tiny Sheds even includes information on how to become a steward, getting the word out about your little structure once it's up and running, and tips for building a lively collection. Community togetherness has never been so at the fore of our consciousness–or so important. Little Free Libraries and Tiny Sheds is one tool on the road to helping you build community in your neighborhood.
