Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. Contributing Authors David S. Bright, Wright State University Anastasia H. Cortes, Virginia Tech University Eva Hartmann, University of Richmond K. Praveen Parboteeah, University of Wisconsin-Whitewater Jon L. Leduc, James Madison University Joy Leopold, Webster University Jeffrey Muldoon, Emporia State University James S. O’Rourke, University of Notre Dame Be more effective with less effort by learning how to identify and leverage the 80/20 principle: that 80 percent of all our results in business and in life stem from a mere 20 percent of our efforts. The 80/20 principle is one of the great secrets of highly effective people and organizations. Did you know, for example, that 20 percent of customers account for 80 percent of revenues? That 20 percent of our time accounts for 80 percent of the work we accomplish? The 80/20 Principle shows how we can achieve much more with much less effort, time, and resources, simply by identifying and focusing our efforts on the 20 percent that really counts. Although the 80/20 principle has long influenced today’s business world, author Richard Koch reveals how the principle works and shows how we can use it in a systematic and practical way to vastly increase our effectiveness, and improve our careers and our companies. The unspoken corollary to the 80/20 principle is that little of what we spend our time on actually counts. But by concentrating on those things that do, we can unlock the enormous potential of the magic 20 percent, and transform our effectiveness in our jobs, our careers, our businesses, and our lives.

The City of Joy

An Introduction
The IPCC (2007) warned that the Ganges Brahmaputra Meghna (GBM) basin will be at greatest risk due to increased flooding, and that the region’s poverty would reduce its adaptation capacity. This book investigates autonomous adaptation using a multi-method technique comprising PRA and a questionnaire survey applied in the case study area ‘Islampur’ Upazila in Bangladesh. The study has four key approaches. First, it reviews the flood literature for Bangladesh from 1980 to 2014. Second, it examines farmers’ crop adaptation processes in a case study area at Islampur, Bangladesh. Third, it assesses the vulnerability and adaptation (V & A) in response to three extreme flood events (EFEs). Fourth, the book assesses the economic consequences of failure effects of autonomous crop adaptation in response to EFEs, but the economic consequences of failure effects of autonomous crop adaptation (FEACA) on marginal farmers are large. The book contributes to current knowledge by filling three important research gaps as follows, 1) farmers’ autonomous crop adaptation processes in response to various types of extreme floods; 2) methodological contribution for assessing vulnerability and adaptation through PRA; and 3) the economic consequences of the failure effects of autonomous crop adaptations.” This book provides a good account of ‘autonomous adaptation’ and its impact on flood vulnerable communities in Bangladesh. Anyone wishing to fully understand the impact of climate change should read the book.” Professor Muhammad Yunus, Nobel Laureate, Yunus Centre, Bangladesh

How Great Leaders Inspire Everyone to Take Action

Twelve Classic Tales from the World of Wall Street

10TH ANNIVERSARY EDITION
Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes: it sounds a lil something like this: "Go to school, get a good job, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich."
The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble duobiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401k match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

Bangladesh is a lush, green country situated on the fertile Ganges delta, adjacent to the Indian state of West Bengal. Although there are hilly areas in the northeast, this densely populated country is mostly flat, and criss-crossed by many rivers. Much of its coastline forms part of the world’s largest mangrove forests, the Sundarbans, home to the Royal Bengal tiger and many other flora and fauna.Bangladesh is young country with an ancient history. The province of Bengal was divided when India became independent in 1947, and its mainly Muslim eastern part became East Pakistan. This was followed by years of upheaval, and in 1971, after a freedom movement and a war, the east Bengali people finally gained independence as the People’s Republic of Bangladesh.Most Bangladeshis live in rural areas, and the majority are Muslims. Historically they have lived in harmony with many other faiths. Bengali, or Bangla, is the lingua franca, and there are several regional dialects. Once the hub of the southern Silk Route, the Bengal delta region has a long and rich cultural tradition. Over the centuries it has been influenced by Hinduism, Jainism, Buddhism, Islam, and Christianity. It is a land of writers, saints, scientists, thinkers, composers, painters, and film-makers. It is famous for its music, dance, and drama; arts and crafts; folklore; languages and literature; philosophy and religion; festivals and celebrations; and its distinctive cuisine and culinary tradition. Bangladesh has been regularly hit by floods and cyclones, but, contrary to what the world usually hears about natural disasters and poverty, there is positive economic growth and the country is one of southeast Asia’s largest exporters of garments to Western markets. Despite the hardships they endure the Bangladeshis are resilient, friendly, and hospitable, and welcome all visitors with a warm smile. This book introduces you to the people beyond the headlines, and offers invaluable advice on what to expect and how to behave in different situations, whether you are a tourist or traveling on business.

*In this landmark work, NEW YORKER columnist James Surowiecki explores a seemingly counter-intuitive idea that has profound implications. Decisions taken by a large group, even if the individuals within the group aren't smart, are always better than decisions made by small numbers of 'experts'. This seemingly simple notion has endless and major ramifications for how businesses operate, how knowledge is advanced, how economies are (or should be) organised and how nation-states fare. With great erudition, Surowiecki ranges across the disciplines of psychology, economics, statistics and history to show just how this principle operates in the real world. Along the way Surowiecki asks a number of intriguing questions about a subject few of us actually understand - economics. What are prices? How does money work? Why do we have corporations? Does advertising work? His answers, rendered in a delightfully clear prose, demystify daunting prospects. As Surowiecki writes: 'The hero of this book is, in a curious sense, an idea, a hero whose story ends up shedding dramatic new light on the landscapes of business, politics and society'.*

Run by English merchants who collected taxes using a ruthless private army, this new regime saw the East India Company transform itself from an international trading corporation into something much more unusual: an aggressive colonial power in the guise of a multinational business. William Dalrymple tells the remarkable story of the East India Company as it has never been told before, unfolding a timely cautionary tale of the first global corporate power.*

**Around 1796, Mr. Malthus, an English gentleman, had finished reading a book that confidently predicted human life would continue to grow richer, more comfortable and more secure, and that nothing could stop the march of progress. He discussed this theme with his son, Thomas, and Thomas ardently disagreed with both his father and the book he had been reading, along with the entire idea of unending human progress. Mr. Malthus suggested that he write down his objections so that they could discuss them point-by-point. Not long after, Thomas returned with a rather long essay. His father was so impressed that he urged his son to have it published. And so, in 1798, appeared An Essay on Population, by British political economist and demographer THOMAS ROBERT MALTHUS (1766-1834). Though it was attacked at the time and ridiculed for many years afterward, it has remained one of the most influential works in the English language on the general checks and balances of the world’s population and its necessary control. This is a replica of the 1826 sixth edition. Volume 1 includes: Book I: "Of the Checks to the Population in the Less Civilised Parts of the World and in Past Times" and Book II: "Of the Checks to the Population in the Different States of Modern Europe."**

**Award-winning crime novelist Abir Mukherjee is back with another brilliant mystery featuring police detective Captain Sam Wyndham and Sergeant Surrender-Not Banerjee, set in 1920s Calcutta. Calcutta, 1923 When a Hindu theologian is found murdered in his home, the city is on the brink of all-out religious war. Can the officers of the Imperial Police Force—Captain Sam Wyndham and Sergeant "Surrender-Not" Banerjee—track down those responsible in time to stop a bloodbath? Set at a time of heightened political tension, beginning in atmospheric Calcutta and taking the detectives all the way to bustling Bombay, the latest instalment in this remarkable series presents Wyndham and Banerjee with an unprecedented challenge. Will this be the case that finally drives them apart?**

**SOON TO BE A MAJORED MOTION PICTURE** The stunning Booker Prize-winning novel from the author of Amnesty and Selection Day that critics have likened to Richard Wright’s Native Son. The White Tiger follows a darkly comic Bangalore driver through the poverty and corruption of modern India’s caste society. “This is the authentic voice of the Third World, like you’ve never heard it before” (John Burdett, Bangkok 8). The white tiger of this novel is Balram Halwai, a poor Indian villager whose great ambition leads him to the zenith of Indian business culture, the world of the Bangalore entrepreneur. On the occasion of the president of China’s impending trip to Bangalore, Balram writes a letter to him describing his transformation and his experience as driver and servant to a wealthy Indian family, which he thinks exemplifies the contradictions and complications of Indian society. Recalling The Death of Vishnu and Bangkok 8 in ambition, scope, The White Tiger is narrative genius with a mischief and personality all its own. Amoral, irreverent, deeply endearing, and utterly contemporary, this novel is an international publishing sensation—and a startling, provocative debut.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won’t truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it’s the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

They live amid terrible poverty in one of the most crowded places on earth, the sector of Calcutta known as the City of Joy . This is the story of living saints and heroes, those who abandoned affluent and middle-class lives to dedicate themselves to the poor. And it is a testament to the people of the City of Joy. Their tragedies will move you, their faith, generosity, and most of all, boundless love will lift you, bless you, and possibly change your life.

This classic volume achieves a remarkable width of appeal without sacrificing scientific accuracy or depth of analysis. It is a valuable contribution to the study of business efficiency which should be read by anyone wanting information about the developments and place of management, and it is as relevant today as when it was first written. This is a practical book, written out of many years of experience in working with managements of small, medium and large corporations. It aims to be a management guide, enabling readers to examine their own work and performance, to diagnose their weaknesses and to improve their own effectiveness as well as the results of the enterprise they are responsible for.

The Attention Merchants

Hillary Rodham Clinton’s inside account of the crises, choices, and challenges she faced during her four years as America’s 67th Secretary of State, and how those experiences drive her view of the future. ‘All of us face hard choices in our lives,’ Hillary Rodham Clinton writes at the start of this personal chronicle of years at the center of world events. ‘Life is about making such choices. Our choices and how we handle them shape the people we become.’ In the aftermath of her 2008 presidential run, she expected to Democratic Party nomination, newly elected President Barack Obama, asked her to serve in his administration as Secretary of State. This memoir is the story of the four extraordinary and historic years that followed, and the hard choices that she and her colleagues confronted. Secretary Clinton and President Obama had to decide how to repair fractured alliances, wind down two wars, and address a global financial crisis. They faced a rising competitor in China, growing threats from Iran and North Korea, and revolut foreign policy, especially the decision to send Americans into harm’s way, from Afghanistan to Libya to the hunt for Osama bin Laden. By the end of her tenure, Secretary Clinton had visited 112 countries, traveled nearly one million miles, and gained a truly global perspective on many of the major trends reshaping the landscape of the twenty-first century, from economic inequality to climate change to revolutions in energy, communications, and health. Drawing on conversations with numerous leaders and experts, Secretary Clinton’s interdependent world. She makes a passionate case for human rights and the full participation in society of women, youth, and LGBT people. An astute eyewitness to decades of social change, she distinguishes the trendlines from the headlines and describes the progress occurring throughout the world, day after day. Secretary Clinton’s descriptions of diplomatic conversations at the highest levels offer readers a master class in international relations, as does her analysis of how we can best use “smart power” to de nation.

*Harry Truman The Man Who Divided the World Truman was the epitome of the American dream. Born and raised by poor, struggling farmers in America’s heartland, he had become President through his integrity, a little bit of luck, and sheer hard work. He became the leader of the United States at the tail end of the world’s deadliest conflict. Thrust into the middle of a world of conflicting ideologies, Truman would be faced with the newest threat to international stability: a ravenous Soviet Union ready to devour the world with its communist philosophies. As the nation’s leader, it fell to him to decide the path which the United States would take into the future. A dedicated public servant and a lover of the freedoms guaranteed by the United States Constitution, Truman realized it was not only his duty but his responsibility to safeguard the free world. By pledging to protect the people of the world from totalitarian rule, Truman unintentionally triggered the Cold War. With his pledge, this often overlooked president forever reshaped American foreign policy, dividing the world into East and West for over forty years.*

*Winner of the Sahitya Akademi Award, An award-winning novel that uses both vast panoramic views and lovingly reconstructed detail to provide an unforgettable picture of nineteenth-century Bengal. The Bengal Renaissance and the 1857 uprising form the backdrop to Those Days, a saga of human frailties and strength. The story revolves around the immensely wealthy Singha and Mukherjee families, and the intimacy that grows between them. Ganganarayan Singha’s love for Bindubasini, the widowed daughter of the Mukherjees, flounders on the rocks of orthodoxy even as his zamindar father, Ramkamal, finds happiness in the arms of the courtesan, Kamala Sundari. Bimbabati, Ramkamal’s wife, is left to cope with her loneliness. A central theme of the novel is the manner in which the feudal aristocracy, sunk in ritual and pleasure, slowly awakens to its social obligations. Historical personae interact with fictional protagonists to enrich the narrative. Ishwar Chandra Vidyasagar, the reformer; Michael Madhusudan Dutt, the poet; the father and son duo of Dwarkanath and Debendranath Tagore; Harish Mukherjee, the journalist; Keshab Chandra Sen, the Brahma Samaj radical; David Hare and John Bethune, the English educationists—these and a host of others walk the streets of Calcutta again, to bring alive a momentous time.*
