#1 NEW YORK TIMES BESTSELLER • NEWBERY MEDAL WINNER • NATIONAL BOOK AWARD WINNER Dig deep in this award-winning, modern classic that will remind readers that adventure is right around the corner--or just under your feet! Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys' detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character

improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment—and redemption. "A smart jigsaw puzzle of a novel." —New York Times
**Includes a double bonus: an excerpt from Small Steps, the follow-up to Holes, as well as an excerpt from the New York Times bestseller Fuzzy Mud.*

Unconventional. Irreverent. Brutal. Entertaining. Unlike any book written about higher education, Surviving the College Admissions Madness is a complete takedown of a deeply flawed and thoroughly broken system. Kevin Robert Martin argues that elite universities do not care about their applicants. He observes that college admissions is highly undemocratic and dehumanizing. University bureaucracies alienate applicants from their humanity and sense of self. Reading essay advice books might help you get in, but they won't help you stay sane. Surviving and even thriving depend on digging deep into your beliefs and understanding your behaviors within the broader context of society. This isn't another Admissions 101 "how-to to write a killer

essay" book or a promise of "six easy steps" for Ivy League acceptance. Martin provides helpful advice for avoiding application mistakes, building a reasonable college list, minimizing debt, identifying cognitive errors and distortions, and helping applicants reframe their college applications. This book equips readers with the vocabulary, frameworks, and tools to make sense of America's broken higher education system, starting with the admissions gatekeepers. Admissions Madness is the first of its kind to integrate applicant psychology with the sociology and economics of higher education. Martin observes that a system of bad incentives in education and society wastes hundreds of millions of hours each admissions cycle. It produces profound suffering for tens of thousands of students each year. He writes for families and high school educators who want a deeper understanding of the truth. Elite college admissions undermines students whether they're privileged or marginalized, rich or poor, black or white, rural or urban, first-time freshman or transfer, and domestic or international. Almost everyone loses, even those who get into their dream schools. Elite universities are neither accountable to nor transparent with the public. Early Decision policies and

aggressive recruitment and questionable enrollment management practices monopolize universities' leverage over families' well-being. Power disparities between universities and families explain why the admissions process is so stressful and exasperating. Waitlists, appeals, and deferrals keep students in limbo. Endless essay requirements, recommendations, and interviews benefit the university while wasting applicants' time and making them lose sleep and their sanity. Holistic review corrupts students' interests and high school learning environments. Students and families rarely realize that the system doesn't have to be this way. Application numbers skyrocket while first-year student class sizes remain the same despite COVID-19 virtual learning disruptions. Elite universities claim to care about diversity and college access, yet they are hypocrites. Admission by holistic review has noble origins in the civil rights movement, but nowadays, it serves as a tool for oppression. Holistic review is arbitrary, capricious, and prone to error and bias. Martin proposes admission by partial lottery as one reform among many. American meritocracy is a myth. Rather than vehicles for upward mobility, elite universities squeeze out the middle class and contribute to wealth

inequality. Universities prioritize generating revenue over a genuine commitment to diversity and access. Understanding these and other inconvenient truths will help students and families survive the college admissions madness.
