Winner of the 2016 Pulitzer Prize for Fiction Winner of the 2016 Edgar Award for Best First Novel Winner of the 2016 Andrew Carnegie Medal for Excellence in Fiction "[A] remarkable debut novel"--Philip Caputo, New York Times Book Review (cover review) The winner of the Pulitzer Prize for Fiction, as well as seven other awards, The Sympathizer is one of the most acclaimed books of the twenty-first century. With the pace and suspense of a thriller and prose that has been compared to Graham Greene and Vladimir Nabokov, The Sympathizer is a sweeping epic of love and betrayal. The narrator, a communist double agent, is a "man of two minds," a half-French, half-Vietnamese army captain who comes to America after the Fall of Saigon, and while building a new life with other Vietnamese refugees in Los Angeles is secretly reporting back to his communist superiors in Vietnam. The Sympathizer is a blistering exploration of identity and America, a gripping spy novel, and a powerful story of love and friendship.

This revised set of resources for Cambridge IGCSE Business Studies syllabus 0450 (and Cambridge O Level Business Studies syllabus 7115) is thoroughly updated for the latest syllabus for first examinations from 2015. Written by experienced teachers, the Coursebook provides comprehensive coverage of the syllabus. Accessible language combined with the clear, visually-stimulating layout makes this an ideal resource for the course. Questions and explanation of key terms reinforce knowledge; different kinds of activities build application, analytical and evaluation skills; case studies contextualise the content making it relevant to the international learner. It provides thorough examination support for both papers with questions at the end of each chapter and an extensive case study at the end of each unit. The CD-ROM contains revision aids, further questions and activities. A Teachers CD-ROM is also available.

Although ideas from quantum physics play an important role in many parts of modern mathematics, there are few books about quantum mechanics aimed at mathematicians. This book introduces the main ideas of quantum mechanics in language familiar to mathematicians. Readers with little prior exposure to physics will enjoy the book's conversational tone as they delve into such topics as the Hilbert space approach to quantum theory; the Schrödinger equation in one space dimension; the Spectral Theorem for bounded and unbounded self-adjoint operators; the Stone-von Neumann Theorem; the Wentzel-Kramers-Brillouin approximation; the role of Lie groups and Lie algebras in quantum mechanics; and the path-integral approach to quantum mechanics. The numerous exercises at the end of each chapter make the book suitable for both graduate courses and independent study. Most of the text is accessible to graduate students in mathematics who have had a first course in real analysis, covering the basics of L² spaces and Hilbert spaces. The final chapters introduce readers who are familiar with the theory of manifolds to more advanced topics, including geometric quantization.

Whose Art Is It? is the story of sculptor John Ahearn, a white artist in a black and Hispanic neighborhood of the South Bronx, and of the people he cast for a series of public

*sculptures commissioned for an intersection outside a police station. Jane Kramer, telling this story, raises one of the most urgent questions of our time: How do we live in a society we share with people who are, often by their own definitions, "different?" Ahearn's subjects were "not the best of the neighborhood." They were a junkie, a hustler, and a street kid. Their images sparked a controversy throughout the community—and New York itself—over issues of white representations of people of color and the appropriateness of particular images as civic art. The sculptures, cast in bronze and painted, were up for only five days before Ahearn removed them. This compelling narrative raises questions about community and public art policies, about stereotypes and multiculturalism. With wit, drama, sympathy, and circumspection, Kramer draws the reader into the multicultural debate, challenging our assumptions about art, image, and their relation to community. Her portrait of the South Bronx takes the argument to its grass roots—provocative, surprising in its contradictions and complexities and not at all easy to resolve. Accompanied by an introduction by Catharine R. Stimpson exploring the issues of artistic freedom, "political correctness," and multiculturalism, *Whose Art Is It?* is a lively and accessible introduction to the ongoing debate on representation and private expression in the public sphere.*

Whose Art is It?

Mount Airy North Carolina was the birthplace of the late actor Andy Griffith and Historian Tom Perry. In this memoir of their hometown, Perry tells the story of the real Mayberry and his thoughts of the most famous son of the piedmont North Carolina town. This book is part memoir, part biography and part tour guide about Andy Griffith and Mount Airy, North Carolina. Beginning on the day Andy Griffith died, July 3, 2012, Perry tells about the town that day and goes back in time to bring Griffith and his own family to Mount Airy to work in the factories in the twentieth century. Sharing his connections with Griffith, Perry tells about the youth both shared in Mount Airy. The book then follows Andy Griffith to the University of North Carolina at Chapel Hill, Goldsboro to teach school and then Broadway, television and movies in a career that lasted decades. The book also details the effect of Andy Griffith on Mount Airy with the decades long tourism boom that began in the 1980s with the town taking on the persona of the fictional Mayberry that Griffith obviously used to in his highly successful Andy Griffith Show that ran on CBS for eight years ending its run as the number one show on television.
