As China continues to ride out the global economic crisis while still retaining year on year GDP growth it is increasingly important to understand how this 'new' economic giant, with its communist-capitalist model operates its economic and business environments.

This book is designed to scientifically examine the contextual variables that foster sustainably dynamic economic growth in China. In particular, the contributors provide an incisive analysis of the contextual bases underlying such a dramatic rising economic power and the immense implications for enterprises and countries involved in dealing with China. Drawing on the latest studies and cutting edge research findings, this book analyses FDI, project management, internationalisation, the continued role of state-owned enterprises and doing business in China. As such it will be essential reading for all students of Chinese business and economics, as well as businesses seeking to develop a critical understanding of the driving global economic force which is China.

It is comprised of two main parts - (i) a technical understanding of public budgets, including familiarity with government spending, tax rates and public debt and; (ii) the ability to engage in the budget process, comprising of practical knowledge on day-to-day issues, as well as an elementary understanding of the economic, social and political implications of budget policies, the stakeholders involved and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply-side actors in the budget process -- governments -- simplify and disseminate budget information for demand-side actors -- citizens -- this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of "budget illiteracy" is to provide budget-literacy education in schools to youth, helping them evolve into civic-minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies and assessment approaches for budget literacy education, and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.

Leverage the power of failure in your organization Nobody wants to fail, but failure is a fact of life. Most of us treat it as a regrettable, even shameful, event best overlooked. In truth, failure can be a game-changing strategic resource that can help you and your organization achieve the greater success you crave. The Other "F" Word shows how successful leaders and teams are putting failure to work every day - to re-engage employees, spark innovation and accelerate growth. Authors Danner and Coopersmith - with their rare blend of senior-level executive experience, global advising, teaching acumen and cross-discipline perspective - share these valuable new practices, and show how they can improve results across your organization. Based on exclusive interviews with prominent leaders and insightful examples from their own in-depth work, the book features a practical seven-stage framework to liberate failure as a force to advance your leadership agenda. After all, everyone creates and confronts failure on a daily basis. Why not use it to your advantage? The Other "F" Word shows you how to: Start an open, productive conversation about failure across your organization Reduce the fear of failure that stifles initiative, creativity and engagement Anticipate, prepare for and respond to failure, so you can leverage it when it happens Harness failure as a catalyst to drive innovation, improve performance and strengthen culture Failure's like gravity - pervasive and powerful. Whether you're a leader or team member of a startup, a growing business, or an established enterprise, failure is today's lesson for tomorrow. Let The Other "F" Word show you how to apply this lesson and take your company where it needs to go.
