Castles & Buttons- Book Two How to Have Everything by Doing Nothing Advanced Higher Mechanics This is the 3rd of the Castle's and Buttons Series . If you've read the ones that came before: The Introduction to Castles and Castles Book One, this third book, Castles and Buttons, Book Two, goes a bit deeper into the higher study and its implications. Implications include money flow and financial events. The key understanding to get to, is everything is simply given. Those of us who are committed to understanding higher things at some point are ready to entertain this notion of everything is just given to us. When I reached that place of understanding that this could be true, the effort then came in unraveling any underlying themes or beliefs that kept me from the experience of it. The unraveling came in both the knowledge and the experience of the fact, that I did not have to do this and that, so that I could have or get this or that. I have translated it over into every part of my life. I know it's about how we use energy. I've had to develop my own way, my own games. I've had to not listen to all the hype, while still enjoying parts of it. I have fully convinced myself that circumspect and conditions do not matter. When we are purely aligned with Source Energy, our thoughts, ideas and timing all meet for a wonderful event or experience. It becomes the way we live, instead of the occasional miracle. The Mechanism of Financial Abundance is attached to two things: - 1. Understanding Higher Law and It's Benefit as We use this understanding. - 2. Feeling Good IS The Mechanism of Financial Abundance. It brings More Money and Money that Sticks to Us. I can relate to this big time, because before I smartened up, I would get big money and then something would happen to it, or something would need fixed which took the money away as fast as it showed up. It's very nice these days, to have the money flow and not go! It's very nice to not have to fix things, or backup and re-do. Altho, at those times, that's exactly what I did. I'd re-start with the mental ease, and I'd re-do, with the mental ease, and up and out I went! Done Deal Baby! Some of the themes covered in this Book 2 of the Series: - How To Make It Easy - Dissecting The Fast Track To Desire Fulfillment - Simple Things I've To Keep My Attention On Track - The Mechanism of Financial Abundance - Getting Out of A Jam While... - How to Create From The Highest Non-Doing Place - Understanding Castle's and Buttons As The Same - The Higher Meaning of The Tree of Knowledge - The Done Deal Future Pull - Acquiring Money and Creating Money - Blasting The Barriers to Money Flow - How To Melt Our Limitations, And Become Limitless - Allowing More Money - How to Intend from The Knowing State - Ways to Move Our Lives Towards Abundance - The Easy Way To Win - Applications Universal to Finances, Health, Relationships - The Law of The Done Deal (And How to Use It) - How To Open The Door To Boundless Supply - Flashback to Circumstances Do Not Matter - How To Increase Our Belief Level - The Power of Precipitation (Using True Vision) - Not Lifting a Finger, Only Needing A Thought

No theory. Just results. This is your side hustle "sampler platter" -- you'll get a quick profile of 100 different entrepreneurs to see: How they got their side hustle idea How much it cost to start How they found their initial traction or customers Their favorite marketing strategies How long it took to reach \$1000 in profit Their mistakes along the way and more According to a recent study, 69% of Americans have less than \$1,000 in a savings account. Worse, 45% reported having \$0 in a savings account! I don't have to tell you--if you're in that position, you know it's a fragile way to live. You're one unexpected expense, one missed paycheck, one surprise layoff away from taking on more debt. This book is about creating some financial margin in your life. What do I mean by margin? Margin is the gap between your income and your expenses. If you're living paycheck to paycheck, or spending nearly everything you make, you don't have any margin. Think of it like financial breathing room. Life becomes a lot less stressful and a lot more fun when you have some breathing room in your budget. But the truth is, most people don't. Nearly four out of five families live paycheck to paycheck. It doesn't have to be that way. Real people are making real money on the side--on their own terms. This book shares their stories. Scroll up and order now to start (or accelerate) your own side hustle journey! I'd love to include YOU in the sequel :)

A romantic tragedy set in the tough corporate world of a major airline. Intense suspense culminates in a shocking moment, reminiscent of D.B. Cooper's infamous hijacking, as a man tumbles from a passenger jet ten thousand feet above a cool, moonlit Arizona desert night.A series of seemingly unrelated events have occurred over several months at TriCon Airlines. A routine flight turns tragic when a flight attendant is struck and paralyzed by a careening food cart. A massive bird strike rocks another flight and an engine explosion on yet another flight fatally injures a passenger. TriCon's arrogant management wrongly places the blame for much that happened on long-time and respected senior engineer, Jack Traner, shattering his comfortable life with his wife Ann. Agonized by the way his life has been torn apart, he sets in motion a deadly quest for revenge. Highly trained, armed with insider knowledge, and virtually unlimited access to TriCon's planes, he methodically and brilliantly sets the stage to exact retribution for his ruined life. An ordinary man, pushed too far, decides to push back.It's story that no one could have predicted or thought possible in today's environment of intense airport security and passenger awareness.

Most couples in the U.S. have to wait up to seven years to adopt an infant domestically--and all the expense and waiting doesn't always result in a successful adoption. Now, rather than relying on slow-paced and expensive adoption agencies, many couples are choosing to privately adopt a child.

By eliminating the adoption agency, couples can customize and control their own adoption plan. Inside this book, couples will learn how becoming proactive in the adoption process may significantly speed up the adoption. Following the Fast Track method, readers will learn how to: - Establish a budget - Assemble a professional team - Obtain an approved home study - Prepare an effective family profile - Advertise for and talk to potential birth mothers - Detect warning signs for frauds and scams - Be prepared at the hospital With this book as their guide, potential parents can actively pick their own birth mother. By doing so, couples will save time and money, reduce stress, and, most importantly, find a baby to adopt.

Button-pushers come in all shapes and sizes, but they have one thing in common: Their behavior drives us crazy and makes us dream of ways to escape the mess we're in. The person who pushes your buttons is likely someone who matters to you - a spouse, a parent, a boss, a fellow church member. Almost always this difficult person is connected to you by blood, love, faith, or money, so you can't just end the relationship without causing pain and upheaval in your life. Our friends and today's culture will often advise us to abandon such relationships quickly - to end this unpleasant chapter and get on with our lives.

Psychologist and author Dr. John Townsend disagrees, "Your button-pusher is not someone you would easily and casually leave. You are intertwined at many levels. It is worth the trouble to take a look at the ways the relationship you had, and want, can be revived and reborn." In this easy-to-read book he offers Expert insights to help you understand your own button-pusher Wise assistance in determining the nature of the problem Compassionate help in identifying your failed attempts to fix things A hope-filled vision for what can be and how to make it come true Rich resources to help you navigate the necessary changes

Castles & Buttons (Book Three) Susan James How to Have Everything by Doing Nothing Advanced Higher Mechanics Castles & Buttons- Book Three How to Have Everything by Doing Nothing Advanced Higher Mechanics Anyone reading any of the greats from Emerson, Cady to Neville to Abraham-Hicks and so many, many more, from Metaphysics to Theosophy, the Esoteric and beyond, we are told that everything is possible, there are no limits and we can have anything we desire to have. It is that promise which keeps many of us on the steady higher path. The Higher Law operates with simple guidelines: • Have the Idea (which is 'thought') • Add The Affirmation (which is also 'thought') All else is taken care of by the Law. For some of us, including me, there have been some in-between stages to the above 2 steps. (As in Don't keep changing our mind by adding doubt, fear, lack of confidence, etc.) We have to expand our understanding of a Source outside of our humanity. At one time, I was so off the path of higher anything, but I didn't know any different. My life reflected my lack of knowledge and understanding. But 'something' kept me moving higher, bit by bit. 'Something' kept me safe. And bit by bit, the things that did not feel nor look good in my life, began to drop away. It was my willingness to be open to things I did not yet understand, but wanted to 'believe' in, such as, the promise of better, of good, of wonder. The Fairy Tale. 'Something' kept moving me forward into believing in the fairy tale. For me The Fairy Tale was about happy endings, happy in between, happy everything. All of which our culture does not necessary have credence for. This 4th Installment in the Castles Series, this being Castle's Book 3 continues in the experience of The Promise The Bounty. It's what has kept me 'after it': to understand it and apply it. Some of the themes covered in this Book 3 of the Series: • The Promise of The Bounty • How to Believe in The Fairy Tale, When We Don't Yet • Electrons and Puppies for Manifestation • How To Convince Yourself It's Yours • When It Feels More Like a Castle Than A Button • When You Just Can't Get Over 'Not Liking It'. • Being Thankful When You Can't Find a Way to Feel It • Susan's Example From Her Livelihood • The I AM and Financial Independence • Tomatoes and The Three Billionaires • The I AM and Financial Independence • The Correct Use of Spiritual Technology • Opening The Floodgates On Supply • Excitement Plus Anticipation Equals Expectation • Effortless Fun • Is It Time to Re-Invent Yourself? • Why We MUST Choose The Castles of Our Lives • Great Abundance NEEDS Our Castles • How I've Used This Information • The Ambition of Achieving One Thought Creation • Benefits of Thought Games • The Fire Letters and Manifestation • Asking and Other Higher Tools of Action • The Importance of Having More Light • The Difference Between Prayer and Decrees • What Releases The Power of Higher Light? • The Overall Higher Intention • Largesse Abundance (What it is and How to Have It) • From Out of Bounds to Boundaries Have Been Moved • The Higher We Go (In Light Energy) The Easier It • The Overall Goal of Creation (Delight) • A Strategy for Believing You Have It • How to Allow (What is Vibrational Acceptance?) • How Possibilities Move Into Probabilities • The Last Piece of Our Desire Fulfilment Puzzle Enjoy the entire Castle's and Buttons Series and you too may then understand how creating Castles or Buttons is the same and everything you want is already there for you!

*From the award-winning author of the Fast Track ham license series. Don't let a few math problems stop you from enjoying the great hobby of ham radio! The questions in the question pool for the FCC General Class Amateur Radio License include questions about conversions of electronic units in the metric system; Ohm's Law and Joule's Law problems; frequency to wavelength conversions; wavelength to frequency conversions; decibel/power calculations; series and parallel resistance, inductance and capacitance calculations; peak-to-peak and RMS voltage calculations; and impedance matching transformers. While the math is quite straightforward, if the language and concepts of electronics are new to you, it can all be a bit baffling. If that's your case, this is the workbook for you. Each problem that can be on the exam is completely solved, with step-by-step instructions. We've color-coded every value to help you follow it through the solutions. We even tell you precisely which buttons to push on which calculator to make the answer appear. While all the math problems in the question pool are covered in the full license program, The Fast Track to Your General Class Ham Radio License, this workbook provides extra practice and explanation for those of us (like the author!) who needed a boost in our math skills to get our licenses. The program was co-designed by Michael Burnette, AF7KB, the author of the popular Fast Track ham radio license programs and his wife, Kerry, KC7YL. Kerry is a math and science teacher with a Masters degree in teaching and years of experience in making math come alive for students. Beyond learning how to "hammer the exam," you'll have a solid grounding in the fundamentals of math for electronics -- knowledge that will serve you well in the hobby and when you decide to take the step up to your Amateur Extra Class license. If you're a person who struggled with math in the past, if you suspect you "don't have the math gene," even if you don't remember a shred of your Technician level math, if you can push the buttons on a calculator, this course will have you confidently solving those equations like a pro in just a few hours. This course doesn't just teach you the math -- it teaches you how to learn the math. Note: This workbook is an adjunct to The Fast Track to Your General Class Ham Radio License book and audio; it provides additional training on the required math and does not cover the entire question bank of 400+ questions. While the exercises can be completed on any calculator, it provides specific key-by-key instructions for the affordable and widely available Texas Instruments TI-30XS calculator.*

**Castles & Buttons-(Book One) How to Have Everything by Doing Nothing (Susan James) Advanced Higher Mechanics Castles & Buttons (Book One) How to Have Everything by Doing Nothing Advanced Higher Mechanics Castles-Buttons The Same, But How? One of the first phrases I latched onto in my beginning study of higher things, was the phrase mentioned in Abraham-Hicks material, ‘Castles and Buttons are the same.’ My first thought was, ‘how can that be?’ And since I have an investigative nature, I set out to find out, just how, Castles and Buttons are the same. For those new to the study of metaphysics, and things of a higher nature, the phrase ‘Castles and Buttons are the same’, implies, that it is just as easy to create a Castle as it is a button. It's as easy to create a wonderful expansive lifestyle, as it is to live in the ruins of one. Again, I asked, ‘How in the world can that be? And if it is true, how can it be easy?’ The entire Castle's series is about my belief in ‘the Promises’ and my getting there. I want you to know, I've been where you are, and I'll give you examples of how I've expanded beyond it. I'll give you things to try, which worked for me. Things which helped me find out for myself, that yes, indeed, Castles and Buttons are the same. And...We can have what we want without all of the doing, and without ‘goofin’ it up first, as was the sub-title of one of my first books, and Editors Choice winner, Manifesting 101 & Beyond. Castle's is based on The Ideal. The Law. And this law says, that only the best of the best is the only thing that we should be choosing. The Best. The Best of The Best. Castle's is about not settling for less than what we really want. And most importantly, forget about anything other than Plan A. There is no Plan B, once we understand what we have in our hands. We'll use examples that are of your life. And I know they are of your life, as I've lived it. I've had the broken cars, broken finances, broken relationships, but my understanding of what I had hold of, as long as I would practice and apply it, would move all of my mountains and moved me smack dab in the middle of my castles. It brought new and better in everything. Things showed up without struggle and strife and concern. Then it became automatic. Automatic, as in when it turns dusk the lights on the light pole automatically come on. Automatic as in breathing and walking without having to think about it first. Automatic as coin in the drink machine, drink plops out. Automatic as when we play the card game ‘Free Cell’, we make one move and many others automatically are moved for us. Automatic is becoming The Genie. Some of the themes covered in Castles & Buttons-Book One: • Bricks Without Straw: Unlimitedness-Doing The Impossible, Easily • How Do We Begin Having Our Castles and Not Settling For The Buttons? • Profusion Abundance (The Opposite of The Other Shoe Dropping) • The Opposite of Limited is Not Un-Limited • When The Ton of Bricks Becomes An Avalanche (And What To Do About It) • A Done Deal Example From My Beginning Days of Understanding • How Long Do I Use The Swords, and How Long Before We See Results? • The Golden Parachute vs The Golden Wheelbarrow • Quantum Manifesting Accelerated: Sword Statements • The Learning Curve of Not Having To Do Anything Manifestation • A Shortcut to Easy and Automatic Enjoy the entire Castle's and Buttons Series and you too may then understand how creating Castles or Buttons is the same and everything you want is already there for you!**

Originally published in 1951 and co-written by screenwriter Lowell S. Hawley, this is the autobiography of American psychiatrist, Dr. James T. Fisher. It is the story of Dr. Fisher's life and of his experiences, and seeks to portray his philosophy. "I am, I believe, one of the few laymen who has ever sat quietly taking notes and asking questions, while the psychiatrist lay on the couch giving voice to his thoughts at random."—Lowell S. Hawley (Foreword) "As readable as a primer and as interesting as a Kinsey Report."—Memphis Commercial Appeal "This warmly human and humorous autobiography offers an easy, delightful and intelligent introduction to psychiatry, from the practicing psychiatrist's point of view...a most engrossing book."—Cincinnati Times "It is unlikely that laymen could find anywhere else such lively and enlightening explanations of schizophrenia, manic-depression, paranoia, the significant of Freud, the technique of analysis, the uses of hypnosis and the meaning of dreams...And all these matters are expounded with colloquial informality, with salty humor and with interest and highly condensed case histories."—Orville Prescott, New York Times

Working Backwards is an insider's breakdown of Amazon's approach to culture, leadership, and best practices from two long-time Amazon executives—with lessons and techniques you can apply to your own company, and career, right now. In Working Backwards, two long-serving Amazon executives reveal the principles and practices that have driven the success of one of the most extraordinary companies the world has ever known. With twenty-seven years of Amazon experience between them—much of it during the period of unmatched innovation that created products and services including Kindle, Amazon Prime, Amazon Studios, and Amazon Web Services—Bryar and Carr offer unprecedented access to the Amazon way as it was developed and proven to be repeatable, scalable, and adaptable. With keen analysis and practical steps for applying it at your own company—no matter the size—the authors illuminate how Amazon's fourteen leadership principles inform decision-making at all levels of the company. With a focus on customer obsession, long-term thinking, eagerness to invent, and operational excellence, Amazon's ground-level practices ensure these characteristics are translated into action and flow through all aspects of the business. Working Backwards is both a practical guidebook and the story of how the company grew to become so successful. It is filled with the authors' in-the-room recollections of what "Being Amazonian" is like and how their time at the company affected their personal and professional lives. They demonstrate that success on Amazon's scale is not achieved by the genius of any single leader, but rather through commitment to and execution of a set of well-defined, rigorously-executed principles and practices—shared here for the very first time. Whatever your talent, career or organization might be, find out how you can put Working Backwards to work for you. Little ones will love learning to play music with this first guitar book. Out of My Mind

Fast Cars, Clean Bodies examines the crucial decade from Dien Bien Phu to the mid-1960s when France shifted rapidly from an agrarian, insular, and empire-oriented society to a decolonized, Americanized, and fully industrial one. In this analysis of a startling cultural transformation Kristin Ross finds the contradictions of the period embedded in its various commodities and cultural artifacts—automobiles, washing machines, women's magazines, film, popular fiction, even structuralism—as well as in the practices that shape, determine, and delimit their uses. In each of the book's four chapters, a central object of mythical image is refracted across a range of discursive and material spaces: social and private, textual and cinematic, national and international. The automobile, the new cult of cleanliness in the capital and the colonies, the waning of Sartre and de Beauvoir as the couple of national attention, and the emergence of reshaped, functionalist masculinities (revolutionary, corporate, and structural) become the key elements in this prehistory of postmodernism in France. Modernization ideology, Ross argues, offered the promise of limitless, even timeless, development. By situating the rise of "end of history" ideologies within the context of France's transition into mass culture and consumption, Ross returns the touted timelessness of modernization to history. She shows how the realist fiction and film of the period, as well as the work of social theorists such as Barthes, Lefebvre, and Morin who began at the time to conceptualize "everyday life," laid bare the disruptions and the social costs of events. And she argues that the logic of the racism prevalent in France today, focused on the figure of the immigrant worker, is itself the outcome of the French state's embrace of capitalist modernization ideology in the 1950s and 1960s.
