

By Jane Roberts The Nature Of Personal Reality Seth Book Specific Practical Techniques For Solving Everyday Problems And Enriching The Life You Know New Edition 611994

Throughout the time she spoke for Seth, Jane Roberts questioned not only the nature of trance-mediumship (who was Seth and how was she able to speak for him) but also alternate states of awareness that she experienced and witnessed in others-ESP, Ouija board messages, out-of-body experiences, dream encounters, reincarnational dramas, among other occurrences. In Adventures in Consciousness, Roberts sets out to discover the answers to the origins of this entire range of vents for which science has found no official proof. What emerges is her theory of aspect psychology-nothing less than a revolutionary view of the human personality. In addition to the theory presented in Adventures in Consciousness, Roberts includes anecdotes and practical information that we can all use to develop our own "psychic" abilities, our own adventures in consciousness.

In of Dreams, "Evolution," and Value Fulfillment, Seth presented an in-depth picture of the origin of all life — from the inner dream world to the vast display of material creation. In Volume Two, Seth continues his explanation of the physical world as an ongoing self-creation — a direct and intentional outgrowth of the wisdom of the life forms that inhabit it, including humanity. He expands upon his vision of a thoroughly animate universe, where virtually every possibility not only exists, but is constantly encouraged to achieve its highest potential. In his typical awe-inspiring manner, Seth sheds light on many controversial and complex subjects, including:

- The ways in which our religions have stifled the human spirit
- Surprising insight into life's meaning and purpose
- The genetic basis of faith, hope, and charity
- The pursuit of love as a fundamental human need
- How each species keeps millions of characteristics within its genetic bank for various contingencies

An incredibly exciting book, which provides essential instructions and information for those interested in working with Dreams and Out of Body Experiences. This book was originally written as a sequel to the Seth Material, and is considered by many to be one of the most advanced and knowledgeable works in the area. Includes techniques for recalling dreams, becoming conscious in the dream state, and inducing Out-of-Body Experiences

Through channeler Jane Roberts, the entity Seth reveals the extraordinary information dreams contain. Seth shows how the dream state can enrich life by leading to the discovery of deeper levels of consciousness, including out-of-body experiences and precognitive dreams.

Dialogues of the Soul and Mortal Self in Time

Jane Roberts

In The God of Jane, the most personal of her books, Jane Roberts addresses many of the same questions and doubts that readers have had in trying to incorporate Seth's theories into their own lives. This book is the story of my efforts to put Seth's material to work in daily life, Roberts writes, to free myself from many hampering cultural beliefs; and most of all, to encounter and understand the nature of impulses. . . .What Roberts discovers in the process of this personal journey is her individual connection to the larger consciousness-God. The God of Jane, the God of Joe, the God of Lester, the God of Sarah. . . she writes. An appeal to that God would be an appeal to the portion of the universal creativity from which we personally emerge. . . .It would stand for the otherwise inconceivable intersection between Being and our being. . . . A new introduction by Susan M. Watkins, author of Conversations with Seth and Speaking of Jane Roberts, provides important biographical and historical information about Roberts and about the time period in which she was producing the Seth material.Jane Roberts (1929-1984) is considered one of the most important psychics of the twentieth century. From 1963 through 1984, Roberts channeled Seth, who described himself as an energy personality essence no longer focused in physical matter, while her husband, Robert Butts, took dictation. In addition to thirteen published books of her own, Roberts channeled nine books by Seth and a wealth of additional unpublished material all of which is housed at the Yale University Archives. Roberts's work has inspired many of the most important figures in the New Age movement and her work has been studied byscientists from all over the world.

The Oversoul Seven Trilogy is one of the most imaginative tales ever written. Inspired by Jane Roberts' own experiences with the Seth Material, it explores life, death, time and space, providing a fascinating and provocative perspective on the nature of reality. In The Education of Oversoul Seven, Seven learns to communicate with four of his "incarnations" whose lives are separated by centuries, yet who also co-exist. In The Further Education of Oversoul Seven, the adventure continues with Seven facing new lessons as his human incarnations struggle with the problems of sanity, free will, and even godhood. In Oversoul Seven and the Museum of Time, Seven journeys to the Museum of Time in search of the "Codicils," which are eternal truths that bring about the greatest opportunities for vitality, understanding, and fulfillment. The adventures of Oversoul Seven are at once an intriguing fantasy, a mind-altering exploration of our inner being, and a vibrant celebration of life.

Considered the most brilliant map of one's inner reality.

You existed before your human experience, and you will exist after. Drawing from his unique pre-birth memories, Christian Sundberg provides an encouraging framework for understanding the nature of the human experience within the larger spiritual context. A Walk in the Physical is a non-linear reality model that boils down the very vast into succinct accessible language. More than a set of ideas though, it is a tool meant to point you towards the portion of yourself that already exists right now beyond Earth. At the heart of the book is the theme of love, and it describes why authentic love – even in small matters – is so deeply important to our human journey.

Early Sessions

SETH Jane Roberts' Friend

The Nature of Personal Reality

The "Unknown" Reality: Volume One

The Oversoul Seven Trilogy

The World Book Encyclopedia

Volume One of two volumes Exploring the interdependence of multiple selves, Seth explains how understanding unknown dimensions can change the world as we know it. Readers are invited to discover their own unknown realities through a series of exercises.

Claims the existence of another level of being in which all possible choices, probable events, and parallel lives are fully explored

From the Bestselling Author of Seth Speaks In this mind-stretching journey into the very frontiers of consciousness, Seth reveals the multidimensional nature of the human soul. In Seth Speaks, Seth introduced the concept of "probable realities," in which our idle daydreams and unfulfilled impulses do take place, in which all possible choices are fully experienced by other portions of the self. Now in this first volume of The "Unknown" Reality, Seth explains the dazzling labyrinths of unseen probabilities involved in any decision, and how our awareness of these can enrich the waking life we know. In a fascinating exploration of the cosmic web of our existence, Seth reveals:

- The purpose of dreams, and how they are often fulfilled unconsciously
- Misconceptions about death and the afterlife
- How different probable realities intersect and influence one another
- The relationship between physical health and inner reality
- A series of exercises to help you discover the unknown portions of your greater identity

"The self is multidimensional when it is physically alive. It is a triumph of spiritual and psychological identity, ever choosing from a myriad of probable realities its own clear unassailable focus. When you don't realize this, then you project upon life after death all of the old misconceptions. . . . The fact is that in life you poise delicately and yet perfectly between realities, and after death you do the same." – Jane Roberts, Speaking for Seth

In this perennial bestseller, Seth challenges our assumptions about the nature of reality, and shows us how we create our personal reality through our conscious beliefs about ourselves, others, and the world. His message is clear: we are not at the mercy of the subconscious, or helpless before forces we cannot understand. "We are Gods couched in creaturehood," Seth says, "We are given the ability to form our experience as our thoughts and feelings become actualized." "Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life." – Marianne Williamson "I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material." – Louise Hay

The Individual and the Nature of Mass Events

The "Unknown" Reality: Volume Two

The Nature of Personal Reality (A Seth Book)

Directly Experience His Most Powerful Ideas

The Eternal Validity of the Soul

A Seth Book in Two Volumes

In 1963, Jane Roberts met a spiritual entity named Seth. He spoke through her and the lessons he taught proved timeless and crucial. Roberts went on to write much about her channeling experiences with Seth and her books have sold 2.5 million copies. Her Seth material is consistently one of the top two most visited collections at the Yale University Archives. From 1968 to 1975 Roberts held an ESP class in her home, during which she channeled Seth. Sue Watkins was a member of that class. The knowledge she gained from the Seth channeling changed the lives of all the class participants. In Volume II of the Seth series, Watkins shares the insights she discovered while participating in Roberts's groundbreaking classes. The personal, social, and political issues addressed in Conversations with Seth are as relevant today as ever and include health, sexual identity, wealth and poverty, the military draft, relationships, dreams, ESP, reincarnation and more. Seth expands on many of the topics raised in book 1 and also explores provocative new material: the correlation between our beliefs, dreams, and daily experience; the concept of probabilities, counterparts, and individual identity; the very real difficulties of applying the "you create your own reality" concept to daily life. Also included is a fascinating discussion of Christ. And, as in the first book, Seth addresses the personal, ongoing issues that class members experienced over the years--troubled marriages, illness, financial hardships, and more.

Seth, speaking through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. He also covers human sexuality as it relates to the private and mass psyche, and explains how distorted beliefs about sexuality can hold back spiritual progress. "The psyche is a gestalt of aware energy in which your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche's living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence." — Jane Roberts, Speaking for Seth "The Seth books were of great benefit to me on my spiritual journey and helped me to see another way of looking at the world." — Gerald G. Jampolsky, author of Love is Letting Go of Fear

Seth is the acclaimed non-physical teacher whose collected works are the most dynamic, brilliant and undistorted map of inner reality and human potential available today. His articulation of the furthest reaches of human potential, the eternal validity of the soul, and the concept that we create our own reality according to our beliefs, has been presented in books that have sold over 8 million copies and been translated into over a dozen languages. Seth's empowering voice clearly stands out as one of the major forces which led to the current New Age philosophical movement. This book chronicles Seth's first contact with author and medium Jane Roberts. It is a mixture of great Seth excerpts, selected by topic, and further explained by Jane. Topics covered include: afterdeath & between lives, how to get rid of illness, reincarnation, why people are born into different circumstances, God, All That Is, Dreams, exercises to develop the inner senses, and much more.

Seth speaks through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. For the first time, Seth explains:

- Why love is the basic language from which all others spring
- The bisexual nature of humanity and its biological and spiritual importance
- The true basis of homosexuality and lesbianism — along with their private and social effects
- The benefits of recalling our dreams and consciously participating in them
- How dreams can prevent chronic illnesses by providing important therapeutic information
- Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential.

"The psyche is a gestalt of aware energy in which your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche's living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence." — Jane Roberts, Speaking for Seth

A Walk in the Physical

The Magical Approach (A Seth Book)

The Nature of the Psyche, Its Human Expression

The Nature of the Psyche (A Seth Book)

The Seth Material

The Unknown Reality, Volume One

Contemporary society tends to conceal death and the dying process from public view, seeking to erase them from our consciousness. This attitude of denial stands in great contrast to the approach of the great spiritual traditions of humanity, for which the dying process was an integral and often crucial part of our own spiritual practice. This volume offers a sample of reflections from scholars and practitioners on the theme of death and dying from scholars and practitioners, ranging from the Christian tradition to Hinduism, Lacanian psychoanalysis, while also touching on the themes of the afterlife and near-death experiences.

Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs. But how do our realities merge and combine to form mass reactions such as the overthrow of governments, the birth of a new religion, wars, epidemics, earthquakes, and new periods of art, architecture, and technology? In this pioneering work, Seth explores the connection between personal beliefs and world events. He pinpoints the unconscious, and often negative, beliefs pervading science and religion, medicine and mythology, and offers thought-provoking reflections on Darwinism, Freudianism, religions, cults, and medical beliefs. With fascinating implications, Seth asserts that the personal impulses we are often taught to see as dangerous, chaotic, or contradictory, are instead crucial to the best interests of the species and the natural world, for they lead us to live "not only as loving caretakers, but as partners with other species." "Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probably futures the most promising events..." — Jane Roberts, Speaking for Seth

Please note: This is a companion version & not the original book. Sample Book Insights: #1 I write this book through the auspices of a woman I have become fond of. She is not just a simple matter of having this woman speak for me. There are many manipulations and psychological adjustments necessary. #2 I am not speaking through Ruburt as one would through a telephone. I am speaking to each reader individually, and I am older than they are, at least in terms of age as they think of it. I am an energy personality essence, no longer focused in physical matter. #3 I am a teacher, and I have not been a man of letters per se. I am primarily a personality with a message; you create the world that you know. You have been given the most awesome gift of all: the ability to project your thoughts outward into physical form. #4 Your consciousness is not some fiery product formed accidentally through the interworkings of chemical components. It is the inner perceiver of reality that exists beyond the threedimensional world. It carries within it the memory of each of your past existences and looks into subjective dimensions that are literally infinite.

DIRECTLY EXPERIENCE SETH'S MOST POWERFUL IDEAS All true knowledge is direct experience. It cannot be classified, it cannot be named, it cannot be set down in black and white. True knowledge is only experience, direct experience, and a matter of the inner senses. Seth Jane Roberts started channeling Seth back in 1963. Explosion of new ideas about the Nature of Reality. The Seth material is the most enjoyable and useful world view I ever know. I have lived Seth as a wild-eyed mystic and hard-headed psychologist. This book is not a review or presentation of the Seth material. It is a group of adventures for you to directly experience what I have found the most satisfying and useful. The adventures are not found in the Seth books. They are my creations. A synthesis of his ideas and my many years as a Professor of Psychology and Clinical Psychologist. Take a look at the table of contents to get a good idea what you're getting into. You will have a lot of fun, and the concepts and experiences will change your life. _____ A big welcome from my Self to your Self. Click on the Bar top right.

The Unknown Reality

From the Bestselling Author of Seth Speaks In this second volume of The "Unknown" Reality, Seth radically expands our conceptions of "self," by showing us that the human personality is literally infinite in its scope and potential. He discloses precisely how probable realities combine to create our waking lives, and how our "higher selves" make decisions regarding our everyday existence. In a far-reaching exploration of the dynamics of desire and free will, he asserts that each atom, molecule, and cell has its own consciousness and powers of choice. With humor and simple analogies, Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self, including:

- "Consciousness units" as the basis of our universe
- The relevance of extrasensory perception in understanding our world
- The worlds we visit in dreams and out-of-body states

• Dreaming as a science to create present and future realities

- "Families of consciousness" we choose to belong to
- Practical methods for exploring your own "unknown" reality

"There is an 'unknown' reality. I am part of it, and so are you. . . . Each individual is a part of the unknown reality. . . . To explore the unknown reality you must venture within your own psyche, travel inward through invisible roads as you journey outward on physical ones. . . . I hope that [in this book] the reader can see the greater dimensions that touch ordinary living, and sense the psyche's greater magic." — Jane Roberts, Speaking for Seth

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

A child is educated into the "Parade of Life" and in turn teaches his people to work cooperatively with nature and all its aspects of life and death.

Adventures in Consciousness

From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts, Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs. But how do our realities merge and combine to form mass reactions such as the overthrow of governments, the birth of a new religion, wars, epidemics, earthquakes, and new periods of art, architecture, and technology? In this pioneering work, Seth explores the connection between personal beliefs and world events. He pinpoints the unconscious – and often negative – beliefs pervading science and religion, medicine and mythology, and offers thought-provoking reflections on Darwinism, Freudianism, religions, cults, and medical beliefs. With fascinating and inspiring implications, Seth asserts that the personal impulses we are often taught to see as dangerous, chaotic, or contradictory, are instead crucial to the best interests of the species and the natural world, for they lead us to live "not only as loving caretakers but as partners with other species." "Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events..." — Jane Roberts, Speaking for Seth

The Nature of Personal Reality (A Seth Book)Specific, Practical Techniques for Solving Everyday Problems and Enriching the Life You KnowAmber-Allen Publishing

In Volume Two of The "Unknown" Reality, Seth invites us to join in and discover the unknown reality for ourselves through a series of exercises geared to illuminate the inner structures upon which our exterior ones depend. Volume One provides the general background and information upon which the exercises and methods in Volume Two are based. The self is multidimensional when it is physically alive. It is a triumph of spiritual and psychological identity, ever choosing from a myriad of probable realities its own clear unassailable focus. When you don't realize this, then you project upon life after death all of the old misconceptions. . . . The fact is that in life you poise delicately and yet perfectly between realities, and after death you do the same." — Jane Roberts, Speaking for Seth

In The Magical Approach, Seth invites us to look at the world through another lens – a magical one. Seth reveals the true, magical nature of our deepest levels of being, and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking. The Magical Approach teaches us how to live our lives spontaneously, creatively, and according to our own natural rhythms. It helps us to discover and tune into our natural, instinctive behavior. By applying the principles in this book, readers will learn to trust their impulses and discover the highest expression of their creativity. "We are speaking about an approach to life, a magical or natural approach to life that is man's version of the animal's natural instinctive behavior in the universe." – Jane Roberts, Speaking for Seth

Death, Dying, and Mysticism

A Seth Book

Dreams and Projection of Consciousness

25th Anniversary Edition

The Personal Sessions

Seth Speaks (A Seth Book)

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The world as you see it is a reflection of what you are, a reflection not in glass but in three dimensional reality. The smallest blade of grass, or flower, is aware of this connection, and without reasoning comprehends its position, its uniqueness, and its source of vitality. #2 You are the living picture of yourself. Your feelings, thoughts, and events all affect your physical appearance. You did not just happen to be thin or fat, tall or short, healthy or ill. Those characteristics were chosen by your inner self. #3 Ruburt was correct in the insight that his book was not dictation. He was more intrigued with questions concerning consciousness and personality, since beginning his novel. He did not realize that he created the personalities free of time and organized them under the leadership of the conscious mind. #4 Your experience in the world of physical matter flows outward from the center of your inner psyche. You perceive this experience, and from it the most minute areas of your outer experience spring. Your feelings have electromagnetic realities that rise outward and affect the atmosphere itself.

The Way Toward Health is an in-depth examination of the miracle of life in a human body, woven through the poignant story of Jane Roberts' courageous attempt to understand why she had contracted the crippling condition that ultimately led to her death. The material in the book was evoked by the questions and considerations Jane and her husband Rob faced during her long illness. Expanding upon those questions, Seth discusses:

- Why medicine and therapy often perpetuate illness
- How the practice of naming diseases can work against us
- The influence of religion in creating disease
- How children's health is influenced by parents' beliefs
- Humor as an effective factor in healing
- The mechanics of self-healing: how our thoughts and beliefs affect our health
- The creative aspects of illness: how we sometimes contract an illness to give ourselves time to understand and integrate our life experiences

One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. "The Seth books present an alternate map of reality with a new diagram of the psyche. . . . useful to all explorers of consciousness." — Deepak Chopra "Seth was one of my first metaphysical teachers.

He remains a constant source of knowledge and inspiration in my life." — Marianne Williamson "I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material." — Louise Hay

¿ The role dreams play in creation of language and technology, How creativity provides a link with the source of all existence¿ The relationship between genetic heritage and reincarnationIn Volume One, Seth describes a conscious, self-aware universe where possibilities and potentials generate life forms. This book answers crucial questions about the significance of Seth¿s thought system, while chronicling the worsening health problems that led to the death of Jane Roberts.In Volume Two, Seth continues his explanation of how the physical world is an ongoing self-creation. He explains how the human species keeps within its genetic bank millions of characteristics that might be needed in various contingencies, and how the soul employs both physical handicaps and advantages as springboards for further achievement. He also expands upon his vision of a thoroughly animate universe where virtually every possibility is not only implicit, but constantly encouraged to achieve its highest potential.
