INSTANT NEW YORK TIMES BESTSELLER The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential. “This method is very simple, very accessible, and endorsed by science. *Anybody can do it, and there is no dogma, only acceptance. Only freedom.*” —Wim Hof Wim Hof has a message for each of us: “You can literally do the impossible. You can overcome disease, improve your mental health and physical performance, and even control your physiology so you can thrive in any stressful situation.” With *The Wim Hof Method*, this trailblazer of human potential shares a method that anyone can use—*young or old, sick or healthy—to supercharge their capacity for strength, vitality, and happiness. Wim has become known as “The Iceman” for his astounding physical feats, such as spending hours in freezing water and running barefoot marathons over deserts and ice fields. Yet his most remarkable achievement is not any record-breaking performance—it is the creation of a method that thousands of people have used to transform their lives. In his gripping and passionate style, Wim shares his method and his story, including: • Breath—Wim’s unique practices to change your body chemistry, infuse yourself with energy, and focus your mind • Cold—Safe, controlled, shock-free practices for using cold exposure to enhance your cardiovascular system and awaken your body’s untapped strength • Mindset—Build your willpower, inner clarity, sensory awareness, and innate joyfulness in the miracle of living • Science—How users of this method have redefined what is medically possible in study after study • Health—True stories and testimonials from people using the method to overcome disease and chronic illness • Performance—Increase your endurance, improve recovery time, up your mental game, and more • Wim’s Story—Follow Wim’s inspiring personal journey of discovery, tragedy, and triumph • Spiritual Awakening—How breath, cold, and mindset can reveal the beauty of your soul*

Wim Hof is a man on a mission: to transform the way we live by reminding us of our true power and purpose. “This is how we will change the world, one soul at a time,” Wim says. “We alter the collective consciousness by awakening to our own boundless potential. We are limited only by the depth of our imagination and the strength of our conviction.” If you’re ready to explore and exceed the limits of your own potential, The Wim Hof Method is waiting for you.

Early Learning and Child Care

CACHE Technical Level 3 Extended Diploma in Health and Social Care

Children and Young People's Workforce

Pearson Edexcel Level 3 Diploma in Children's Learning and Development (Early Years Educator) Candidate Handbook

Child Care and Education 6th Edition

Understanding Children and Young People's Mental Health has been designed to help the student and newly qualified health care professional to familiarise themselves with the key theoretical frameworks underpinning the field of children and young people's mental health. It explores the mental health challenges that children and young people face, and how we as adults can work alongside them to help them face and overcome such challenges. This book provides comprehensive information on the theory and practice of particular mental health difficulties which children and young people may have to face, including self-harm, depression, suicide, child abuse, eating disorders, substance misuse, and early onset psychosis. Understanding Children and Young People's Mental Health is essential reading for pre-registration students in nursing and healthcare on child and mental health branches, and for newly qualified nursing, health and social care practitioners who work with children and young people. Brings together specialist practitioners and academics in the field Incorporates the latest guidelines and policies Practical and accessible in style with learning outcomes, activities, examples and recommended reading in each chapter

Deliver an in depth programme of teaching for level 3 and level 4 with this classic textbook that inspires your students to go further. Written by an expert team of childcare authors, the sixth edition of this classic textbook offers an in-depth approach to Childcare and Early Years study unmatched by any course specific texts. Child Care and Education 6th Edition provides full details of all the topics and frameworks relevant to level 3 and level 4 qualifications. It offers the opportunity to analyse and explore theories and practice at a high level of detail. - Provides post level 3 material in clearly marked 'Moving On' sections at the end of each chapter. - Focuses on the practicalities of working within a real-life setting using case studies and observation tasks. - Suitable for level 3 qualifications and courses that bridge the gap between levels 3 and 4.

The highly-respected book of reference of sought-after Independent Schools in membership of the Independent Schools Council's Associations: HMC, GSA, The Society of Heads, IAPS, ISA and COBIS.

CACHE Level 3 Child Care and Education, 2nd Edition

Child Care and Education

Cache Level 3 Preparing to Work in Home-Based Childcare

A Comprehensive Learner Support Guide

Childcare and Education

An ideal introduction to the pioneers of educational theory for anyone studying childcare, child development or education – whether at further or higher education level. The first edition of this book has been a best-seller for almost a decade, identified as one of the top ten books for students of child development or early childhood care and education. In this new edition, there is an increased emphasis on both what practice based on particular theories of learning looks like and on criticisms of each theory. A glossary is included in sections highlighting words and concepts particular to the theorist in question. Full-colour photographs are used to illustrate some aspects of each theory or approach. How Children Learn looks at a wide range of theorists and practitioners who have influenced current understandings of how children learn and what this means for work with young children. The book summarises the findings and ideas of famous giants such as Montessori and Piaget as well as the more recent ideas of writers and thinkers such as Howard Gardner and Margaret Donaldson. It begins by looking at the work and life of Comenius who is widely described as the father of modern education and looks at the theory behind different approaches to early childhood care and education such as Steiner Waldorf education, HighScope and Te Whariki. You will find this book invaluable in giving you a clearer picture of how ideas about children's learning have developed over the past four centuries.

This title is directly matched to the CACHE foundation learning entry 3/level 1 caring for children specification - to give students the coverage and content they need to succeed.

Having a good grasp of the theories of child development and how these translate into practice can make a positive difference to how you understand babies and children and the ways in which you can help them learn. This approachable guide offers easy access to a wide range of concepts, as well as classic and current theories, about how babies and children learn. Each chapter offers clear guidance on how to recognise the theory in action and suggests ways to test these ideas out in early years settings, supporting the development of reflective practice. Case studies are included throughout, along with questions to guide thinking and encourage readers to develop their practice. Summaries conclude each chapter offering a quick reference of the theory examined and the benefits of applying it to practice. Early Childhood Theories and Contemporary Issues is an essential guide for all those looking to develop and enhance their practice in supporting child development within the early years.

This definitive textbook provides accessible information on best practice for assessing the needs and strengths of vulnerable children and their families. It explores the challenges that practitioners face routinely - with suggestions as to how to address them - as well as the established areas for assessment, of children's developmental needs, parenting ability and motivation, and socio-economic factors. This new edition has been extended substantially to include recent practice, policy and theoretical developments, such as understanding the lived experience of children, young people, and family members. It also considers children's neurological development, assessing parental capacity to change, early help assessments, emerging areas of practice such as child sexual exploitation, and working with asylum-seeking and trafficked children. Crucially, this updated edition takes a broader approach in offering relevant information to a range of professionals working with vulnerable children. The importance of inter-professional working is emphasised throughout.

British Qualifications

NVQ 2 candidate handbook

The Wim Hof Method

Positive Intelligence

An Introduction

The perfect introduction to Early Years and Child Care for Level 1 students. Be guided through the Level 1 qualifications with this easy-to-read book that uses simple language, colourful pages and lots of photos. Learn how to combine outstanding care and successful business management with the only book that supports CACHE's new Childminding qualification Packed with examples, photos and practical advice, this book addresses the unique challenges faced by childminders. Written by an expert and endorsed by the Professional Association for Childcare and Early Years, CACHE Level 3 Preparing to Work in Home-based Childcare is the only title that covers all learning outcomes for the new CACHE Childminding qualification. In-depth information on how to set up your own business and what to expect from Ofsted inspections will help you to make the right choices and reap the rewards. It is the perfect resource for new childminders and an invaluable source of up-to-date information on legislation for experienced carers. - The only book to support CACHE's Childminding qualification. - Helps you to understand every aspect of the qualification fully and clearly through detailed real-world examples. - Delivers practical advice to guide you through setting up and running a professional childminding business. - Ensures you can be confident in meeting the statutory childcare requirements by linking concepts to the latest EYFS standards.

Child Care and Early Education has been written as a course companion to all major level 3 childcare qualifications including the CACHE Diploma in Early Years Care and Education, S/NVQ Early Years Care and Education and BTEC National in Early Years. Written from a more practical angle than existing childcare texts, Child Care and Early Education successfully covers the theory associated with all aspects of care and education for the under eights. Suitable for use as a course textbook with a supervising college tutor or NVQ assessor, Child Care and Early Education will also be valuable for practitioners who want to extend their own practice. It offers advice on building your own portfolio, learning to use resources and continued professional development.

Written in an accessible and lively style, Child Care and Early Education is up to date on current childcare practice. It offers support, information and practical suggestions for practitioners in all types of early years and out of school care settings and also for readers working in a family home as nannies and childminders. Highly successful and established author Jennie Lindon offers different perspectives on some challenging issues often omitted from childcare texts.

Begin your path to a career in Education and Childcare with this T Level textbook that covers both the core content and the education and childcare specialism content you will need to understand to be successful in your qualification. Develop your understanding of the key principles, concepts, theories and skills that will give you a solid foundation of knowledge to support you during your industry placement. Created in partnership with CACHE and written by highly respected authors Penny Tassell, Louise Burnham and Janet King, you can feel confident relying on the insights and experience of these experts. - Track and consolidate your learning using the learning outcomes at the beginning of every unit and Test Yourself questions throughout each unit - Ensure you don't miss any important terminology with key terms highlighted and defined in context - Contextualise your learning with case studies, reflection tasks and practice points - Prepare for your examinations with knowledge-based practice questions - Understand how to approach your assignments with practical tasks and model answers
