Denounced by his fellow adepts as a demon, betrayed even by those he loved, he had unleashed a power that twisted the fabric of time, to put himself beyond the reach of that monstrous force and avert the pandemonium that threatened the world. He thought that nothing could break through the barrier he had created. He was wrong.

Love, money, and power become the forces that threaten to separate five siblings as they struggle to deal with their individual lives in the wake of their father's death, in a fantasy set in a world populated entirely by dragons. By the author of The King's Name. Reprint. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BUZZFEED • ALEX AWARD WINNER • New York Times bestselling author Joe Abercrombie's thrilling series continues in the follow-up to Half a King, which George R. R. Martin hailed as "a fast-paced tale of betrayal and revenge that grabbed me from page 1 and refused to let go." "The Shattered Seas trilogy has worked its way into a very exclusive group of my favorite fantasy novels of all time."—James Dashner, #1 New York Times bestselling author of The Maze Runner Sometimes a girl is touched by Mother War. Thorn is such a girl. Desperate to avenge her dead father, she lives to fight. But she has been named a murderer by the very man who trained her to kill. Sometimes a woman becomes a warrior. She finds herself caught up in the schemes of Father Yarvi, Gettland's deeply cunning minister. Crossing half the world to find allies against the ruthless High King, she learns harsh lessons of blood and deceit. Sometimes a warrior becomes a weapon. Beside her on the journey is Brand, a young warrior who hates to kill, a failure in his eyes and hers, but with one chance at redemption. And weapons are made for one purpose. Will Thorn forever be a pawn in the hands of the powerful, or can she carve her own path? Praise for Half the World "An excellent page-turner . . . full of drama and energy."—New York Daily News "Another entertaining burst of battle, magic and political machinations from the always reliable Joe Abercrombie . . . a thoroughgoing blast, a violent, beautiful rabbit hole of craft that is well worth disappearing into."—Shelf Awareness "Compelling . . . [Thorn] makes Katniss Everdeen look like Dorothy Gale."—Chicago Tribune "Splendid . . . Abercrombie has a knack for building characters with pathos and wit. . . . The fast-paced story draws readers along while setting up what promises to be an explosive final showdown."—Publishers Weekly "Clever, exciting and unexpected."—SFF World Praise for Joe Abercrombie's Half a King "Half a King is my favorite book by Joe Abercrombie so far, and that's saying something."—Patrick Rothfuss "As in all Abercrombie's books, friends turn out to be enemies, enemies turn out to be friends; the line between good and evil is murky indeed; and nothing goes quite as we expect. With eye-popping plot twists and rollicking good action, Half a King is definitely a full adventure."—Rick Riordan "Enthralling! An up-all-night read."—Robin Hobb "Polished and sharp, perhaps his most technically proficient novel yet. . . . I dare you to read the first chapter and try not to turn the next page."—Brent Weeks "Half a King can be summed up in a single word: masterpiece. It's a coming-of-age story. It's a Viking saga. It's a revenge tale and family drama and the return of the prodigal son. But most of all, it's this: a short time alongside people as weak and blundering as we are and, in the midst of it all, as heroic. Far too short a time, as it turns out. What a wonderful book."—Myke Cole "Half a King is full of all the adventure I've come to expect from Abercrombie and a tenderness I never knew he had."—Sam Sykes

Wompler's Walking Babies once put Millford, Utah, on the map. But they aren't selling like they used to. In fact, they aren't selling at all and the only alternative to winding the company up is to tap the government for a research grant. And so Wompler Research Laboratories and Project 32 come into being. The plan is to produce self-replicating mechanisms; identical cells equipped to repair intracellular breakdowns, convert power from their environment and create new cells. But suddenly the nondescript grey metal boxes start crawling about the laboratory, feeding voraciously on any metal... and multiplying at an alarming rate.

"It will be a dangerous mission. I don't expect that any of us will survive. But it's a chance to save mankind, to save our world. Maybe the last chance." By the end of the twenty-third century, Earth is a plague-ridden, war-ravaged cesspool dominated by megacorporations whose ruthless armies fight one another for power and for the very scarce resources there are left. Capitol fighters Mitch Hunter and Nathan Rooker are battling the opposing forces of the Bauhaus corporation when a cannon blast exposes and destroys an ancient stone seal in the ground. From the bowels of the Earth crawl hordes of necromutants with razorlike boneblades for arms, hideous humanoids that thrive and multiply by commandeering the bodies of dying soldiers. Mitch barely escapes—only to discover that both the rise of the mutants and the "Deliverer" who will save humanity have been prophesied. Unless Mitch and a group of warriors from each of the megacorporations succeed in reaching the hidden horrors and wiping out the mutant scourge, our world will literally become a hell on Earth. Have you ever dreamt of becoming an infallible seducer of women? This book tells you everything you need to know, courtesy of the world's only major female PUA (pick-up artist), Kezia Noble! Unknown until a couple of years ago, Kezia was approached by the organisers to attend a PUA class meeting. She gave it to the other attendees straight, not caring if she offended anyone; the men took it on the chin and took her constructive criticisms on board. Within days and weeks they were trying out her suggested techniques and starting to become more successful with women. Kezia returned to the PUA classes and started to make a name for herself. Kezia Noble is the first woman to offer the aspiring pick-up artist advice on how to attract women from a woman's point of view. She now runs many classes and a workshop, and even produces corporate videos on the chemistry of attracting women. Now, in answer to requests from her students, Kezia has written a book on the 15 steps to becoming a master seducer - which will also prove an invaluable aid to men who cannot afford her classes, who work too far away or don't have enough time. The Noble Art of Seducing Women is the first and only sure-fire pick-up guide to be written by a woman. It has the potential to transform a lonely man into someone who need never be single again . . . unless, of course, he wants to be.

Kezia Noble works with her students instead of belittling them. As a sensitive and intelligent young woman, she is becoming known as the best PUA in the business...

The fifth novel in Isaac Asimov's classic science-fiction masterpiece, the Foundation series THE EPIC SAGA THAT INSPIRED THE APPLE TV+ SERIES FOUNDATION Golan Trevize, former Councilman of the First Foundation, has chosen the future, and it is Gaia. A superorganism, Gaia is a holistic planet with a common consciousness so intensely united that every dewdrop, every pebble, every being, can speak for all—and feel for all. It is a realm in which privacy is not only undesirable, it is incomprehensible. But is it the right choice for the destiny of mankind? While Trevize feels it is, that is not enough. He must know. Trevize believes the answer lies at the site of humanity's roots: Jabbed Earth . . . if it still exists. For no one is sure where the planets of Gaia's first settlers is to be found in the immense wilderness of the Galaxy. Nor can anyone explain why no record of Earth has been preserved, and a quest he is determined to undertake, at any cost.

Focusing on real-life applications in consumer and food products, the book is divided into three parts, covering health and quality aspects of food preservation, applications of novel biomolecules for quality and safety of foods, and novel research techniques in food biopreservation.

Philip K. Dick Award finalist Washington Post Best Science Fiction and Fantasy of 2018 Abbey Mei Otis's short stories are contemporary fiction at its strongest: taking apart the supposed equality that is clearly just not there, putting humans under an alien microscope, putting humans under government control, putting kids from the moon into a small beach town and then the putting the rest of the town under the microscope as they react in ways we ope they would, and then, of course, in ways we'd hope they don't. Otis has long been fascinated in using strange situations to explore dynamics of power, oppression, and grief, and the twelve stories collected here are at once a striking indictment of the present and a powerful warning about the future. "After I read this book, I woke up with bumpy, reddish growths along my spine. They burst, releasing marvels: aliens, robots, prefab houses, vinyl, chainlink, styrofoam, star stuff, tales from the edge of eviction, so many new worlds. Alien Virus Love Disaster is a super-intelligent infection. Let Abbey Mei Otis give you some lumps." — Sofia Samatar, author of Tender
