## Applications

The purpose of this study was to analyze the effectiveness of progress monitoring in an elementary school, as 16 second through fifth-grade students participated in Response to Intervention (RTI) nine-month small group instruction intervention in

# Bookmark File PDF California Progress Monitoring Weekly Assessment Grade 5

reading comprehension and fluency. This study examined the following research question: "What does student progress monitoring tell educators about the effectiveness of a Response to Intervention multi-tiered system of support with second through fifth-grade students who

# Bookmark File PDF California Progress Monitoring Weekly Assessment Grade 5

have IEPs and who have been referred for additional support through a Student Study Team process?" The dependent variable was the tracking and analysis of students' literacy skills over the school year on a trimester basis as recorded on the AIMSweb research-

# Bookmark File PDF California Progress Monitoring Weekly Assessment Grade 5

based assessment for monitoring literacy performance and progress. Results indicate that participating students experienced notable yet varying progress students in reading comprehension and fluency over the course of a school year. Data suggest that progress needed to be monitored

# Bookmark File PDF California Progress Monitoring Weekly Assessment Grade 5

on at least the trimester basis employed in this study to accurately capture students' growth in reading achievement. Progress monitoring assessment that followed the two-week winter break or a week break led to depressed performances for some students. Students had better

# Bookmark File PDF California Progress Monitoring Weekly Assessment Grade 5

results when they were assessed following periods of regular instruction without break or when assessed at the end rather than the beginning of a week.

Provides students with their first guided practice, with fresh reading selections every week. Students can

# Bookmark File PDF California Progress Monitoring Weekly Assessment Grade 5

underline, circle, and highlight text to support answers with text evidence. Using clear explanations and cases, this must-have resource shows how formative assessment can improve student learning. Included are lesson plans and ideas for easy implementation.
