**A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE** As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. **I AM MALALA** is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in

a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

A pulpy, psychological tale of mismatched twins struggling to embody the role of the perfect woman.

1989 marks the unraveling of India's 'Nehruvian Consensus' around the idea of a modern, secular nation with a self-reliant economy. Caste and religion have come to play major roles in national politics. Global economic integration has led to conflict between the state and dispossessed people, but processes of globalization have also enabled new spaces for political assertion, such as around sexuality. Older challenges to the idea of India continue from movements in Kashmir and the North-East, while Maoist insurgency has deepened its bases. In a world of American Empire, India as a nuclear power has abandoned non-alignment, a shift that is contested by voices within. Power and Contestation shows that the turbulence and

turmoil of this period are signs of India's continued vibrancy and democracy. The book is an ideal introduction to the complex internal histories and external power relations of a major global player for the new century.

***Where women are created for the pleasure of men, beauty is the first duty of every girl. In Louise O'Neill's world of Only Every Yours women are no longer born naturally, girls (called "eves") are raised in Schools and trained in the arts of pleasing men until they come of age. Freida and Isabel are best friends. Now, aged sixteen and in their final year, they expect to be selected as companions--wives to powerful men. All they have to do is ensure they stay in the top ten beautiful girls in their year. The alternatives--life as a concubine, or a chastity (teaching endless generations of girls)--are too horrible to contemplate. But as the intensity of final year takes hold, the pressure to be perfect mounts. Isabel starts to self-destruct, putting her beauty--her only asset--in peril. And then into this sealed female environment, the boys arrive, eager to choose a bride. Freida must fight for her future--even if it means betraying the only***

***friend, the only love, she has ever known. Full of data on various sectors and issues—among them finance, tourism, foreign trade, agriculture, and governance—this report on the state of Kerala is designed to benefit businesses, NGOs, and policy makers. While Kerala has a strong economy and is India's most literate state, areas such as human rights and the treatment of women and minorities leave room for improvement. This extensive reference discusses the constraints and challenges faced by Kerala and provides a blueprint for its socioeconomic progress. There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There***

***has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.***

John Travers Mends (Jack) Gibson was born on March 3, 1908 and died on October 23, 1994 at the age of 86. In some ways, Jack was the last Indian Englishman. He came ten years before independence and stayed on 47 years after it, rendering dedicated service to the country of his adoption for 57 years. Jack's journey started as a school teacher at The Doon School. He was

the last English Principal of Mayo College and the last English President of the Himalayan Club. He was the last, and for most of the time the only English resident of Ajmer. He must have been just about the last Englishman to have been honored by both the British and Indian Governments. Brij Sharma is a journalist based in Bahrain. He spent much of his childhood and youth in Dehra Dun, and while not a product of The Doon School, he has known its campus, the surroundings of the city and much of the mountainous terrain described in Gibson's letters. <http://www.jtmgibson.com>

Porn. Do you think of it as a dirty word, a taboo topic, something you associate with cheesy films with bad plots? Filmmaker and author Erika Lust is here to

change all that. With the goal of making porn more accessible to women, Good Porn examines the films, the industry, and the phenomenon. It breaks away from any assumptions you may have about porn, opening the door for a wholly new conversation about a medium that has too long been considered the domain of men. Come on in, ladies . . . the water ' s just fine. A “ eye-opening, gritty, and compelling ” memoir by one of New York City ' s last Times Square peep show girls (The Paris Review Online). In 2006, Gotham City Video was among the last of its kind where, breathing in a cocktail of Pine-Sol and Windex, a man paid \$40 to watch a girl strip naked behind glass. These fantasy lands, left over from the days when 42nd Street was the center of vice, eventually disappeared from the rapidly gentrifying city, their stories lost forever. Not those of tenderloin grinder, Sheila McCelar. Pulling back the curtain on the little-documented world of the peeps, her “ ribald . . . memorable and highly relevant ” (The Daily Beast) reflection is “ both a eulogy and a paean to the freaks and misfits who have long given their souls to the city ” (Matthew Gallaway, author of The Metropolis Case). A late bloomer from small-town Michigan, Sheila arrived in New York as a struggling actress and soon found herself adrift. Borderline homeless, and crashing with friends, she finally got steady work that paid the rent—as a stripper along the triple-x stretch of Eighth Avenue. When Times Square seeped into her blood, she ended up staying much longer than she imagined. The story she tells is not just of her own coming-of-age, it ' s a “ sharp, sweetly

personal . . . fascinating and honest ” narrative of modern life on the fringes of society in New York City (Mark Jacobson, author of Pale Horse Rider).

**What she needs most might be what she least expects... Living without air conditioning in a Philadelphia heat wave has Claire on the brink of a total meltdown. When she escapes her overheated apartment to spend a day at the park, the last thing she expects—or wants—is for a gorgeous guy to chat her up. But his sweet smile and nerdy charm are impossible for even Claire to resist. Patience and persistence go hand in hand...For Ben, Claire is the One, but there’s a small snag—she’s terrified of a man’s touch. But now that he’s found her, he’ll never let her go, even if he never gets to hold her. Another snag? Her obvious attraction to his best friend. Sometimes it takes fire to wash you clean... Ben respects Claire’s firm boundaries, but Andy crashes right through them. He’s arrogant, crude, a total jackass...and criminally sexy. Even if she can fix what’s broken inside her, how will she choose between the delicious slow burn she feels with Ben and the explosive inferno Andy ignites in her? Can they find their happy ending without three hearts going up in flames?**

**In this award-winning novel, Tharoor has masterfully recast the two-thousand-year-old epic, The Mahabharata, with fictional but highly recognizable events and characters from twentieth-century Indian politics. Nothing is sacred in this deliciously**

irreverent, witty, and deeply intelligent retelling of modern Indian history and the ancient Indian epic The Mahabharata. Alternately outrageous and instructive, hilarious and moving, it is a dazzling tapestry of prose and verse that satirically, but also poignantly, chronicles the struggle for Indian freedom and independence.

Women perform 66% of the world's work, produce 50% of the food, but earn 10% of the income and own 1% of the property. To shed light on why this grim statistic still holds true, *Women, Business and the Law* aims to examine legal differentiations on the basis of gender in 143 of the world's economies. *Women, Business and the Law* tracks governments' actions to expand economic opportunities for women across six key areas: accessing institutions, using property, getting a job, providing incentives to work, building credit and going to court. The report uncovers legal differentiations for women and married versus unmarried women such as being able to register a business, open a bank account and work at night. These issues are of fundamental importance. When, because of tradition, social taboos or simple prejudice, half of the world's population is prevented from making its contribution to the life of a nation, the economy will suffer. The empirical evidence does suggest that, slowly but surely, governments are making progress in expanding opportunities for women. It is our hope that data presented in *Women, Business and the Law* will both facilitate research on linkages between legal differentiation and outcomes for women, and promote better informed policy choices on what governments can do to expand opportunities for women. This report documents the dynamics of violence against women in South Asia across the life cycle, from early childhood to old age. It explores the different types of violence that women may face throughout their lives, as well as the associated perpetrators (male and female), risk and protective factors for both victims and perpetrators, and interventions to address

violence across all life cycle stages. The report also analyzes the societal factors that drive the primarily male — but also female — perpetrators to commit violence against women in the region. For each stage and type of violence, the report critically reviews existing research from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka, supplemented by original analysis and select literature from outside the region. Policies and programs that address violence against women and girls are analyzed in order to highlight key actors and promising interventions. Finally, the report identifies critical gaps in research, program evaluations, and interventions in order to provide strategic recommendations for policy makers, civil society, and other stakeholders working to mitigate violence against women in South Asia.

Posing as Maithili Tyagi, a filmmaker from the American Film Institute Conservatory, Rana met bureaucrats and top cops in Gujarat who held pivotal positions in the state between 2001 and 2010. The transcripts of the sting operation reveal the complicity of the state and its officials in crimes against humanity. With sensational disclosures about cases that run parallel to Narendra Modi and Amit Shah's ascent to power and their journey from Gujarat to New Delhi, the book tells you the hushed truth of the state in the words of those who developed amnesia while speaking before commissions of enquiry, but held nothing back in the secretly taped videos which form the basis of this remarkable read.

2017 Man Booker Prize Longlist 2018 Women's Prize for Fiction Longlist The Ministry of Utmost Happiness is a dazzling new novel by the internationally celebrated author of The God of Small Things. It takes us on an intimate journey of many years across the Indian subcontinent--from the cramped neighborhoods of Old Dehli and the roads of the new city to the mountains and valleys of Kashmir and beyond, where war is peace and peace is war. It is an aching love story and a decisive remonstrance, a story told in a whisper, in a shout, through unsentimental

tears and sometimes with a bitter laugh. Each of its characters is indelibly, tenderly rendered. Its heroes are people who have been broken by the world they live in and then rescued, patched together by acts of love--and by hope. The tale begins with Anjum--who used to be Aftab--unrolling a threadbare Persian carpet in a city graveyard she calls home. We encounter the odd, unforgettable Tilo and the men who loved her--including Musa, sweetheart and ex-sweetheart, lover and ex-lover; their fates are as entwined as their arms used to be and always will be. We meet Tilo's landlord, a former suitor, now an intelligence officer posted to Kabul. And then we meet the two Miss Jebeens: the first a child born in Srinagar and buried in its overcrowded Martyrs' Graveyard; the second found at midnight, abandoned on a concrete sidewalk in the heart of New Delhi. As this ravishing, deeply humane novel braids these richly complex lives together, it reinvents what a novel can do and can be. The Ministry of Utmost Happiness demonstrates on every page the miracle of Arundhati Roy's storytelling gifts.

*NEW YORK TIMES BESTSELLER Now in paperback—Peggy Orenstein, author of the groundbreaking New York Times bestseller *Girls & Sex*, turns her focus to the sexual lives of young men. “Eye-opening.... Every few pages, the boy world cracks open a little bit.... Even in the most anxiety-provoking moments of *Boys & Sex*, it’s clear that Orenstein believes in the goodness of boys and the men they can become, and she believes in us, as parents, to raise them” (New York Times Book Review). Peggy Orenstein’s *Girls & Sex* broke ground, shattered taboos, and launched conversations about young women’s right to pleasure and agency in sexual encounters. It also had an unexpected effect on its author: Orenstein realized that talking about girls is only half the conversation. Boys are subject to the same cultural forces as girls—steeped in the same distorted media images and binary stereotypes of female sexiness and toxic masculinity—which equally affect how they navigate sexual and emotional relationships. In *Boys & Sex*, Peggy Orenstein dives back into the lives of young people to once again give voice to the unspoken, revealing how young men understand and negotiate the new rules of physical and emotional intimacy. Drawing on comprehensive interviews with young men, psychologists, academics, and experts in the field, *Boys & Sex* dissects so-called locker room talk; how the word “hilarious” robs boys of empathy; pornography as the new sex education; boys’ understanding of hookup culture and consent; and their experience as both victims and perpetrators of sexual violence. By surfacing young men’s experience in all its complexity, Orenstein is able to unravel the hidden truths, hard lessons, and important realities of young male sexuality in today’s world. The result is a provocative*
